Dougherty,Jacqueline J. West,2013-12-02 Character structures underlie everyone s personality When rigidly defended they limit us yet as they become more flexible they can reveal sources of animation renewal and authenticity The Matrix and Meaning of Character guides the reader into an awareness of the archetypal depths that underlie character structures presenting an original developmental model in which current analytic theories are synthesised The authors examine nine character structures animating them with fairy tales mythic images and case material creating a bridge between the traditional language of psychopathology and the universal realm of image and symbol This book will appeal to all analytical psychologists psychoanalysts and psychotherapists who want to strengthen their clinical expertise It will help clinicians to extend their clinical insights beyond a strictly behavioural medical or cognitive approach revealing the potential of the human spirit Walt's Utopia Priscilla Hobbs,2024-09-18 The Happiest Place on Earth opened

in 1955 during a trying time in American life the Cold War Disneyland was envisioned as a utopian resort where families could play together and escape the tension of the real world Since its construction the park has continually been updated to reflect changing American culture The park's themed features are based on familiar Disney stories and American history and folklore They reflect the hopes of a society trying to understand itself in the wake of World War II This second edition expands its perspective in response to among other things the cultural shifts brought on by the Covid 19 pandemic New and updated chapters endeavor to hold Disney accountable not accountability for misdeeds but its accountability to include everyone as American mythmakers and cultural titans

Ashton, 2020-06-16 A commonly encountered experience of both analyst and analysand is that of the void It is spoken about at different stages of therapy and refers to experiences that have different origins Sometimes the experience of the void is around a relatively limited aspect of the psyche but at other times the void seems much more global and threatens to engulf the entire personality the whole individual psyche then seems threatened by the possibility of dissolution into nothingness
