The Image of Restoration Science Michael Hunter,2016-12-01 This book is about a single image the frontispiece to Thomas Sprat s History of the Royal Society of London 1667 Designed by John Evelyn and etched by Wenceslaus Hollar it is arguably the best known representation of seventeenth century English science The use of such plates to celebrate and legitimise the new science of the period falls into a tradition that was well established both in Britain and in Europe more generally and which has increasingly attract attention from historians Nevertheless there are many questions to be asked about it and how it came into being Was it an original composition by Evelyn or is it based on earlier exemplars Can all the scientific instruments books and other objects that appear in it be identified and what significance should be attached to their inclusion Above all how did the plate come to be designed in the first place and what is its true relationship with Sprat s book In order to assess such issues this study provides a full analysis of Evelyn s image in its Royal Society setting and the wider world of early modern science The book first considers the overall iconography of the image and its message

concerning Evelyn's conception of the society's role before moving on to examine the myriad of details included in the plate and their significance. It concludes by considering the print's history after publication including the extent to which Evelyn used copies to exemplify the combination of technological and artistic accomplishment to which he believed the society should aspire.

**Perfect Likeness** Cincinnati Art Museum, Julie Aronson, Marjorie E. Wieseman, Cynthia Amn  s, Columbia Museum of Art, 2006-01-01 Diminutive marvels of artistry and fine craftsmanship: portrait miniatures reveal a wealth of information within their small frames. They can tell tales of cultural history and biography of people and their passions of evolving tastes in jewelry, fashion, hairstyles, and the decorative arts. Unlike many other genres, miniatures have a tradition in which amateurs and professionals have operated in parallel and women artists have flourished as professionals. This richly illustrated book presents approximately 180 portrait miniatures selected from the holdings of the Cincinnati Art Museum, the largest and most diverse collection of its kind in North America. The book stresses the continuity of stylistic tradition across Europe and America as well as the vitality of the portrait miniature format through more than four centuries. A detailed catalogue entry as well as a concise artist biography appears for each object. Essays examine various aspects of miniature painting: the depiction of costume in miniatures and of the allied art of hair work. *A Court in Exile* Edward T. Corp, 2004 Publisher Description

*Homes and Haunts* Alison Booth, 2016-09-09 This is the first full-length study of literary tourism in North America as well as Britain and a unique exploration of popular response to writers' literary house museums and the landscapes or countries associated with their lives and works. An interdisciplinary study ranging from 1820-1940, *Homes and Haunts: Touring Writers' Shrines and Countries* unites museum and tourism studies, book history, narrative theory, theories of gender, space, and things, and other approaches to depict and interpret the haunting experiences of exhibited houses and the curious history of topographical writing about famous authors. In illustrated chapters that blend Victorian and recent first-person encounters that range from literary shrines and plaques to guidebooks, memoirs, portraits, and monuments, Alison Booth discusses pilgrims such as William and Mary Howitt, Anna Maria and Samuel Hall, and Elbert Hubbard, and magnetic hosts and guests as Washington Irving, Wordsworth, Martineau, Longfellow, Hawthorne, James and Dickens, Virginia Woolf's feminist response to homes and haunts shapes a chapter on Mary Russell Mitford, Gaskell, and the Bront  s, and another on the Carlyles' house and Monk's House. Booth rediscovers collections of personalities, haunted shrines, and imaginative re-enactments that have been submerged by a century of academic literary criticism.
