**The Seventies** Christopher Booker, 1980      British films of the 1970s Paul Newland, 2015-11-01 British films of the 1970s offers highly detailed and insightful critical analysis of a range of individual films of the period This analysis draws upon an innovative range of critical methodologies which place the film texts within a rich variety of historical contexts The book sets out to examine British films of the 1970s in order to get a clearer understanding of two things the fragmentary state of the filmmaking culture of the period and the fragmentary nature of the nation that these films represent It argues that there is no singular narrative to be drawn about British filmmaking in the 1970s other than the fact that these films offer evidence of a Britain and ideas of Britishness characterised by vicissitudes While this was a period of struggle and instability it was also a period of openings of experiment and of new ideas Newland looks at many films including Carry On Girls O Lucky Man That'll be the Day The Shout and The Long Good Friday      **British Film Culture in the 1970s** Sue Harper, 2013-01-28 This volume draws a map of British film culture in the 1970s and provides a wide ranging history of the period      Portrait of a Decade, 1910-1919 Trevor Fisher, 1991 A year by year account of the headlines and chief topics of conversation in world news sports and the arts and in science and technology      British Literature in Transition, 1960-1980: Flower Power Catherine Mary McLoughlin, 2019 This volume traces transitions in British literature from 1960 to 1980 illuminating a diverse range of authors texts genres and movements It considers innovations in form emergent identities changes in attitudes preoccupations and in the mind itself local and regional developments and shifts within the oeuvres of individual authors      Andy Warhol, Portraits of the 70s Andy Warhol, Robert Rosenblum, Whitney Museum of American Art, 1979 Contains color artwork by Andy Warhol      **The Winter of Discontent** Tara Martin López, 2014-07-24 A reassessment of the myth of the British Winter of Discontent 1978-79 from the perspective of those involved in particular grassroots activists and the growing number of female activists      **Portraits of Global Christianity** Gina A. Zurlo, 2023-03-29 Living in Light of the Global Body of Christ Books on global Christianity have been growing substantially in the last ten years The importance of studying Christianity beyond White Western history and theology has taken on a special relevance in an increasingly globalized world The study of Global Christianity is about recognizing the diversity of Christians around the world in terms of their cultures languages ethnicities worldviews and approaches to the faith World Christianity is about making global local connections and providing Christians the opportunity to learn from one another to enhance their faith and broaden their perspectives Most World Christianity books are written for scholarly audiences only However Portraits of Global Christianity moves beyond that sphere and into the lives of Christians who have learned about and continue to experience the global church in their everyday lives No other global Christianity book on the market provides this kind of self understanding on the relationship between World Christianity and individual experience In doing it aims to make a unique contribution to the field This book is geared toward a general Christian audience and is written in an accessible

*Motion Picture Biographies* John Cones,2015-04-01 Hollywood movies are famous for promoting negative stereotypes of all kinds especially against minorities women Southerners and Christians To what extent are biographical films selected for production according to certain biases conscious or unconscious among the Hollywood elite An expert on the U S film industry gives readers brief synopses of Hollywood biopics produced and or released from 1912 through 1994 This survey provides the basis for discussion and analysis Tracking these one sided depictions over a longer period of time the patterns of bias and the source of the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their own cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power in Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry
