Chinese Propaganda on Tibet Warren W. Smith Jr.,2023-04-11 China has produced a tremendous amount of propaganda justifying its invasion and occupation of Tibet This book reproduces excerpts from some of the most notable of these articles along with a critical analysis The primary themes of Chinese propaganda about Tibet are that Tibet has always been a part of China thus there is no question about Tibetan independence or a Chinese invasion of Tibet that the traditional Tibetan social system was a dark cruel savage feudal hell on earth from which Tibetans welcomed their liberation by the CCP and that China has selflessly assisted Tibetan social and economic development ever since while taking nothing from Tibet China denies the legitimacy of any issues of Tibetan nationalism self determination or any desire by Tibetans for an independent political existence Despite China s claims about the happiness of the Tibetan people Tibetan resistance has continued These excerpts from propaganda articles and documents reveal the political and cultural ideology of the Chinese as they attempt to maintain and justify their control over Tibet

A Continuous Revolution Barbara Mittler,2020-03-17 Cultural Revolution Culture often denigrated as nothing but propaganda was liked not only in its heyday but continues to be enjoyed today A Continuous Revolution sets out to explain its legacy By considering Cultural Revolution propaganda art music stage works prints and posters comics and literature from the point of view of its *longue dur e* Barbara Mittler suggests it was able

to build on a tradition of earlier art works and this allowed for its sedimentation in cultural memory and its proliferation in contemporary China. Taking the aesthetic experience of the Cultural Revolution 1966-1976 as her base, Mittler juxtaposes close readings and analyses of cultural products from the period with impressions given in a series of personal interviews conducted in the early 2000s with Chinese from diverse class and generational backgrounds. By including much testimony from these original voices, Mittler illustrates the extremely multifaceted and contradictory nature of the Cultural Revolution both in terms of artistic production and of its cultural experience.
