Schehr, 2009-01-01 As traditional notions of masculinity have been put into question there have been representational reactions to and articulations of changing masculinities in post modern culture Certain contemporary French cultural productions are illustrative of these changing masculinities and this book offers the first comprehensive examination of these manifestations Acclaimed critic Lawrence Schehr uses analysis of AIDS narratives mainstream films popular novels more mainstream novels a graphic novel and rightist polemics to explore the changing meaning of masculinity in French society French Postmodern Masculinities will appeal to a broad range of researchers and postgraduate students working in French cultural studies cinema and twentieth and twenty first century French literature **Catalogue of the Library of the National Gallery of Canada: Has** National Gallery of Canada. Higgins, 2024-06-25 A reexamination of 1970s France as a decade of intellectual cultural and political consequence both then and now Number 143 of Yale French Studies The French Seventies reintroduces and reorients readers to a decade typically considered a period of disillusionment and malaise in the wake of the 1960s This collection of essays edited by Richard J Golsan and Lynn A Higgins shows that the era was in fact a period of intellectual cultural and political ferment It was a time not of spectacular leaps forward but rather of searching regrouping and cultivating trends that would flower in the 1980s and beyond for better or worse The volume offers interdisciplinary scholarly essays on history film national identity as articulated in the mode r tro social and literary movements and more Interviews and personal history essays by major figures who actively participated in this decade add further dimension to this broad collection Art Books, 1950-1979 R.R. Bowker Company, 1979 **Speculative Affect** Charmaine Eddy, 2025-03-10 Speculative Affect Objects and Emotions is an edited collection examining the intersection between affect and objects in the fields of literature cultural theory and cultural production The word speculative in the title references recent philosophical and cultural work in the speculative turn a philosophical field that includes speculative realism new materialisms thing theory or object oriented ontology where the object is analyzed apart from human consciousness and human use value By linking this return to an ontological object realism beyond human consciousness with affect theory s reimagining of corporeality by exploring attachments bodily sensations autonomic responses and emotions as embodied forces beyond conscious knowing this work addresses the last frontier in radically reconfiguring the status of human life the division and hierarchy between so called inert material and the apparent superiority of humanity

Perspectives on Creativity John E. Gedo, Mary M. Gedo, 1992 This volume addresses the methodological problems

inherent in using individual biographies as vehicles for advancing the understanding of creativity In addition to discussing general problems this volume contains illustrations of the application of a variety of psycho biographical strategies The research from these sample biographies demonstrates the manner in which biographical data may be turned into scientific propositions The most important new idea in the book which is in many ways a primer of psycho biography is the distinction made between biographical methods primarily based on an empathic approach to the data and what the authors call conceptual methods that rely on deduction from some theoretical schema To date the literature has been entirely lacking in guidelines for the biographer interested in the psychological dimensions of his her task and by extension the creativity researcher as well This book is intended to fill this gap **Art Criticism Since 1900** Malcolm Gee,1993

Artbibliographies Modern ,1999 Of Words and the World David R. Ellison,1993-03-22 Here David Ellison explores the problems encountered by France s best experimental authors writing between 1956 and 1984 when faced with the question What should my writing be about These years are characterized by the rise of the new novelists who questioned the representational function of writing as they created works of imagination that turned in upon themselves and away from exterior reality It became fashionable at one point to affirm that literature was no longer about the world but uniquely about the words on a page the signifying surface of the text Ellison tests this assumption showing that even in the most seemingly self referential fictions the words point to the world from which they can never completely separate themselves Through close readings Ellison examines the novels and theoretical writings of authors whose works are fundamental to our perception of contemporary French writing and thought Camus Robbe Grillet Simon Duras Sarraute Blanchot and Beckett The result is a new understanding of the link between the referential function of literary language and the problematic of the ethics of fiction Catalog of the Library of the Museum of Modern Art: Han Museum of Modern Art (New York, N.Y.).
