Revolutionary Hamburg Labor Politics In The Early Weimar Republic:

The Origins of the French Labor Movement, 1830-1914 Bernard H. Moss, 1980-01-01 Monograph based on a thesis dealing with the history of the labour movement in France discusses socialism and collectivism of skilled workers treats the formation of the first French socialist political party parti ouvrier discusses the emergence of trade unions and includes a literature survey Annotated bibliography pp 201 to 210 and references

Revolutionary Hamburg Richard Allen Comfort, 1966

A People's History of the German Revolution William Pelz, 2018-06-20 In October 1918 war weary German sailors mutinied when the Imperial Naval Command ordered their engagement in one final fruitless battle with the British Royal Navy This revolt in the dying embers of the First World War quickly erupted into a full scale revolution that toppled the monarchy and inaugurated a period of radical popular democracy The establishment of the Weimar Republic in 1919 ended the revolution relegating all but its most prominent leaders to a historical footnote In A People's History of the German Revolution William A Pelz cuts against the grain of mainstream accounts that tend to present the revolution as more of a collapse or just a chaotic interregnum that preceded the country's natural progression into a republic Going beyond the familiar names of Karl Liebknecht Rosa Luxemburg or Clara Zetkins Pelz explores the revolution from the bottom up focusing on the active role that women rank and file activists and ordinary workers played in its events Rejecting the depiction of agency as exclusively in the hands of international actors like Woodrow Wilson or in those of German elites he makes the compelling case that for a brief period the actions of the common people shaped a truly revolutionary society

The German Revolution, 1917-1923 Pierre Broué, 2006 Broué enables us to feel that we are actually living through these epoch making events Do not miss this magnificent work Robert Brenner UCLA A magisterial definitive account of the upheavals in Germany in the wake of the Russian revolution Broué meticulously reconstitutes six decisive years 1917-23 of social struggles in Germany The consequences of the defeat of the German revolution had profound consequences for the world Pierre Broué 1926-2005 was for many years Professor of Contemporary History at the Institut d'études politiques in Grenoble and was a world renowned specialist on the communist and international workers movements

German Communism, Workers' Protest, and Labor Unions Larry Peterson, 2013-03-07 This book analyzes how a sizable group of German workers came to support Communism and how they in turn influenced the emergence and development of the German Communist Party KPD in its formative period as a mass party It reconstructs the interaction between a party and the constituency to which it appealed within the constraints and opportunities set by social structures economic conditions and political competitors This interaction revolved around the elaboration and implementation of a specific concept of revolutionary politics and this study investigates both the rise of the KPD as a mass party and its failure to set off a socialist revolution in the early 1920s in light of the contradictory ways German workers responded to its revolutionary strategy When I began to study the KPD in the mid 1970s scholarly works in the West portrayed a party so out of touch with the realities of German life from 1918 to 1933 that

its history was a litany of political mistakes that led from crisis to catastrophe The KPD was dominated by the foreign policy interests of the Soviet Union by factional disputes and personal rivalries among the leadership by an authoritarian centralized party structure that stifled rank and file initiative and imposed a party line determined in Moscow and Berlin and by a rigid ideology largely irrelevant to trends in German economy society and politics with at best compensatory value for a minority of the most impoverished workers The Rise and Fall of Weimar Democracy Hans Mommsen,2017-11-01 In this definitive analysis of the Weimar Republic Hans Mommsen surveys the political social and economic development of Germany between the end of World War I and the appointment of Adolf Hitler as chancellor in 1933 His assessment of the German experiment with democracy challenges many long held assumptions about the course and character of German history Mommsen argues persuasively that the rise of totalitarianism in Germany was not inevitable but was the result of a confluence of specific domestic and international forces As long as France and Britain exerted pressure on the new Germany after World War I the radical Right hesitated to overthrow the constitution But as international scrutiny decreased with the recognition of the legitimacy of the Weimar regime totalitarian elements were able to gain the upper hand At the same time the world economic crisis of the early 1930s with its social and political ramifications further destabilized German democracy This translation of the original German edition published in 1989 brings the work to an English speaking audience for the first time European History The Christian Trade Unions in the Weimar Republic, 1918-1933 William L. Patch,1985-01-01

A Political Biography of Arkadij Maslow, 1891-1941 Mario Kessler,2020-04-30 This book is a political biography of Arkadij Maksimovich Maslow 1891 1941 a German Communist politician and later a dissident and opponent to Stalin Together with his political and common law marriage partner Ruth Fischer Maslow briefly led the Communist Party of Germany the KPD and brought about its submission to Moscow Afterwards Fischer and Maslow were removed from the KPD leadership in the fall of 1925 and expelled from the party a year later Henceforth they both lived as communist outsiders persecuted by both Hitler and Stalin Maslow escaped to Cuba via France and Portugal and was murdered under dubious circumstances in Havana in November 1941 He died as a communist dissident committed to the cause of a radical socialist labor movement that lay in ruins Kessler considers Maslow s role in pivotal events such as the Bolshevik Revolution in Soviet revolutionary parties and organizations through to the rise of Stalinism and Cold War anti communism What results is a deep dive into the life of a key yet understudied figure in dissident communism Injustice: The Social Bases of Obedience and Revolt Barrington Moore, Jr,2016-07-01 First Published in 1978 This is a book about why people so often put up with being the victims of their societies and why at other times they become very angry and try with passion and forcefulness to do something about their situation I his most ambition book to date Barrington Moore Jr explores a large part of the world s experience with injustice and its understanding of it In search of general elements behind the acceptance of injustice he discusses the Untouchables of India Nazi concentration camps and the Milgram experiments on obedience to authority

Capital Cities at War Jay Winter, Jean-Louis Robert, 1999-07-08 This ambitious volume marks a huge step in our understanding of the social history of the Great War Jay Winter and Jean Louis Robert have gathered a group of scholars of London Paris and Berlin who collectively have drawn a coherent and original study of cities at war The contributors explore notions of well being in wartime cities relating to the economy and the question of whether the state of the capitals contributed to victory or defeat Expert contributors in fields stretching from history demography anthropology economics and sociology to the history of medicine bring an interdisciplinary approach to the book as well as representing the best of recent research in their own fields Capital Cities at War one of the few truly comparative works on the Great War will transform studies of the conflict and is likely to become a paradigm for research on other wars *The Crisis of Social*

Democratic Trade Unionism in Western Europe Martin Upchurch, Graham Taylor, 2016-03-16 There is a developing crisis of social democratic trade unionism in Western Europe this volume outlines the crisis and examines the emerging alternatives The authors define social democratic trade unionism and its associated party union nexus and explain how this traditional model has been threatened by social democracy's accommodation to neo liberal restructuring and public service reform Examining the experience of Sweden Germany Britain and France the volume explores the historical rise and fall of social democratic trade unionism in each of these countries and probes the policy and practice of the European Trade Union Confederation The authors critically examine the possibilities for a revival of social democratic unionism in terms of strategic policy and identity offering suggestions for an alternative radicalized political unionism The research value of the book is highlighted by its focus on contemporary developments and its authors intimate knowledge of the chosen countries

Problems of Communism, 1967 **Germany, 1866-1945** Gordon Alexander Craig, 1978 Pays close attention to the people parties and pressure groups that influenced German policy in foreign and domestic matters Half the book is devoted to the crucial period following the collapse of Germany in World War I The author deals with Weimare Germany in all its contradictory elements and show how forces at work before and during the war combined with postwar conditions to sap the strength of the German republic and so brought Hitler's Nazi regime to power Wild Socialism Martin Comack, 2012-09-11 Wild Socialism examines the rise development and decline of revolutionary councils of industrial workers in Berlin at the end of the First World War This popular movement spread throughout Germany and was without precedent in either the theory or practice of the Social Democratic party and the trade unions allied to it These workers councils were most highly developed in Berlin within its particular industrial political and cultural milieu The Berlin Shop Stewards group provided a hard core of militant revolutionaries within the movement many of whose adherents were more moderate or ambiguous in their views Externally the councilists faced a hostile Social Democratic trade union bureaucracy who characterized council rule as wilde Sozialismus a reconstituted and repressive state power and a revolutionary rival in the rise of German Bolshevism This work considers the experience of the Berlin councils as alternative institutions outside of traditional union

party and governmental structures **Intl Biblio Pol SC 1966** Blpes,1968-02 First published in 1968 Routledge is an imprint of Taylor Francis an informa company **Introduction To Marx And Engels** Richard Schmitt,2018-02-15 0 8133 1250 7 Beyond Separateness the Social Nature of Human Beings Their Autonomy Knowledge and Power 0 8133 3283 4

Introduction to Marx and Engels a Critical Reconstruction Second Edition The Warburgs Ron Chernow,2012-01-18 From the Pulitzer Prize winning bestselling author of Alexander Hamilton the inspiration for the hit Broadway musical comes this definitive biography of the Warburgs one of the great German Jewish banking families of the twentieth century Bankers philanthropists scholars socialites artists and politicians the Warburgs stood at the pinnacle of German and later of German American Jewry They forged economic dynasties built mansions and estates assembled libraries endowed charities and advised a German kaiser and two American presidents But their very success made the Warburgs lightning rods for anti Semitism and their sense of patriotism became increasingly dangerous in a Germany that had declared Jews the enemy Ron Chernow s hugely fascinating history is a group portrait of a clan whose members were renowned for their brilliance culture and personal energy yet tragically vulnerable to the dark and irrational currents of the twentieth century **The German Working Class 1888 - 1933** Richard J. Evans,2019-06-26 When it was originally published in 1982 this book presented pioneering new research into the everyday life of the German working class in the crucial decades between the accession of Kaiser Wilhelm II and the Nazi seizure of power The authors document working class attitudes to bourgeois convention authority and the law in the German Empire and the Weimar Republic The book includes studies of industrial sabotage pilfering at work working class drinking habits illegitimate motherhood and the violence of adolescent cliques in pre Hitlerian Berlin *The Encyclopedia of Political Revolutions* Jack A. Goldstone,2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history Suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions *Dreamland of Humanists* Emily J. Levine,2024-05-31 Deemed by Heinrich Heine a city of merchants where poets go to die Hamburg was an improbable setting for a major intellectual movement Yet it was there at the end of World War I at a new university in this commercial center that a trio of twentieth century pioneers in the humanities emerged Working side by side Aby Warburg Ernst Cassirer and Erwin Panofsky developed new avenues in art history cultural history and philosophy changing the course of cultural and intellectual history in Weimar Germany and throughout the world In *Dreamland of Humanists* Emily J Levine considers not just these men but the historical significance of the time and place where their ideas took form Shedding light on the origins of their work on the Renaissance

and the Enlightenment Levine clarifies the social political and economic pressures faced by German Jewish scholars on the periphery of Germany's intellectual world By examining the role that context plays in our analysis of ideas Levine confirms that great ideas like great intellectuals must come from somewhere

Reviewing **Revolutionary Hamburg Labor Politics In The Early Weimar Republic**: Unlocking the Spellbinding Force of Linguistics
