Imagining War Elizabeth Kier, 2017-03-14 In this innovative theoretical book Elizabeth Kier uses a cultural approach to take issue with the conventional wisdom that military organizations inherently prefer offensive doctrines Kier argues instead that a military s culture affects its choices between offensive and defensive military doctrines Drawing on organizational theory she demonstrates that military organizations differ in their worldview and the proper conduct of their mission It is this organizational culture that shapes how the military responds to constraints such as terms of conscription set by civilian policymakers In richly detailed case studies Kier examines doctrinal developments in France and Great Britain during the interwar period She tests her cultural argument against the two most powerful alternative explanations and illustrates that neither the functional needs of military organizations nor the structural demands of the international system can explain doctrinal choice She also reveals as a myth the argument that the lessons of World War I explain the defensive doctrines in World War II Imagining War addresses two important debates It tackles a central debate in security studies the origins of military doctrine And by showing the power of a cultural approach it offers an alternative to the prevailing rationalist explanations of international politics Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

International review of military history ,1982 Guide to Microforms in Print ,2002 Stalin Stephen Kotkin,2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler's Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world's largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin's Stalin Waiting for Hitler 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anticapitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he

strove to consolidate the state with a brand new elite of young strivers like himself Stalin's obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin's seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography Neptune Frédéric Saffroy, 2015 En 1912 apr s plus d'un si cle de diff rends et alors que la France concentre sa flotte en M diterran e la Marine et la Guerre ne parviennent pas s'entendre pour assurer la d'fense des c tes La Grande Guerre avec ses besoins en artillerie lourde r cup r e sur les c tes et la menace sous marine qui risque d asphyxier l Entente conduit le Parlement forcer les deux minist res s'entendre en 1917 la d'fense des c'tes est confi e la Marine Apr s'le trait de Washington 1922 et avec pour priorit la s curit du bassin m diterran en menac e par l Italie pr sente en Libye et active en Tunisie la Marine con oit un programme de d fense du littoral Tirant les le ons des op rations des Dardanelles 1915 ce programme constitue l un des quatre volets du Statut naval de 1923 pr sent la Chambre par le ministre Flaminius Raiberti Entra n par des parlementaires actifs tels Boussenot Chappedelaine Goude ou de Kergu zec le Parlement soutient la Marine en lui accordant les cr dits requis et en la poussant rationaliser la reconstruction de la d fense de ses bases navales Au d but des ann es 1930 le programme de d fense des c tes m diterran ennes est consolid et son ex cution bien entam e Face une Italie rivale voire hostile la priorit est donn e la d fense des bases de Toulon et Bizerte arm es des ouvrages d artillerie les plus importants Ironie de l'histoire ce sont ces ouvrages contre lesquels eurent lutter les Alli s lors des d'barquements de 1942 et 1944 Page 4 de la couverture The British Library General Catalogue of Printed Books to 1975 British Library (London), Jim Emmett, 1981 Bulletin signalétique ,1976 **General Catalogue of Printed Books to 1955** British Museum.
