Revue Dhistoire Moderne Et Contemp Volume 21:

Revue d'histoire moderne et contemporaine, 1899 tudes d histoire moderne et contemporaine The Historiography of Contemporary Science and Technology Thomas Söderquist, 2013-01-11 More than ninety percent of all scientific history has been made during the last half century So far however only a fraction of historical scholarship has dealt with this period Merely a decade ago most scientific historians considered recent science the scientific culture created lived and remembered by contemporary scientists an area of study best left to the historical actors themselves **The End of the French Intellectual** Shlomo Sand, 2018-04-10 Internationally acclaimed Israeli historian Shlomo Sand made his mark with books such as *The Invention of the Jewish People* and *The Invention of the Land of Israel* Returning here to an early fascination he turns his attention to the figure of the French intellectual From his student years in Paris Sand has repeatedly come up against the great French thinkers He has an intimate knowledge of the Parisian intellectual world and its little secrets on which he draws to overturn certain myths attaching to the figure of the intellectual that France prides itself on having invented Mixing reminiscence and analysis he revisits a history that from the Dreyfus Affair through to Charlie Hebdo seems to him that of a long decline As a long time admirer of Zola Sartre and Camus Sand is staggered to see what the French intellectual has become today in such characters as Michel Houellebecq Eric Zemmour and Alain Finkielkraut In a work that gives no quarter and focuses particularly on the Judeophobia and Islamophobia of the elites he casts on the French intellectual scene a gaze that is both disabused and mordant Bulletin of Bibliography and Magazine Subject-index, 1923

Happy Apocalypse Jean-Baptiste Fressoz, 2024-06-18 Being environmentally conscious is not nearly as modern as we imagine As a mode of thinking it goes back hundreds of years Yet we typically imagine ourselves among the first to grasp the impact humanity has on the environment Hence there is a fashion for green confessions and mea culpas But the notion of a contemporary ecological awakening leads to political impasse It erases a long history of environmental destruction Furthermore by focusing on our present virtues it overlooks the struggles from which our perspective arose In response Happy Apocalypse plunges us into the heart of controversies that emerged in the eighteenth and nineteenth centuries around factories machines vaccines and railways Jean Baptiste Fressoz demonstrates how risk was conceived managed distributed and erased to facilitate industrialization He explores how clinical expertise around 1800 allowed vaccination to be presented as completely benign how the polluter pays principle emerged in the nineteenth century to legitimize the chemical industry how safety norms were invented to secure industrial capital and how criticisms and objections were silenced or overcome to establish technological modernity Societies of the past did not inadvertently alter their environments on a massive scale Nor did they disregard the consequences of their decisions They seriously considered them sometimes with dread The history recounted in this book is not one of a sudden awakening but a process of modernising environmental disinhibition *The French Wars of Religion, 1562-1629* Mack P. Holt, 1995-10-19 A new look at the French wars of religion designed for

undergraduate students and general readers **Napoleon** Geoffrey Ellis,2014-06-06 This invaluable account provides an excellent introduction to the nature and mechanics of Napoleon s power and how he used it It explores Napoleon s rise to fame as a soldier of the French Revolution and his aims and achievements as first consul and emperor during the years 1799 1815 **Bulletin of Bibliography and Dramatic Index** ,1923 *Learning on the Shop Floor* Bert De Munck,Steven L. Kaplan,Hugo Soly,2007-12-01 Apprenticeship or vocational training is a subject of lively debate Economic historians tend to see apprenticeship as a purely economic phenomenon as an incomplete contract in need of legal and institutional enforcement mechanisms The contributors to this volume have adopted a broader perspective They regard learning on the shop floor as a complex social and cultural process to be situated in an ever changing historical context The results are surprising The authors convincingly show that research on apprenticeship and learning on the shop floor is intimately associated with migration patterns family economy and household strategies gender perspectives urban identities and general educational and pedagogical contexts **IBSS: Political Science: 2004 Vol.52** The British Library of Political and Economic Science,2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French **Authority and Sexuality in Early Modern Burgundy (1550-1730)** James R. Farr,1995-01-05 A sociocultural analysis of the relationships among law religion and sexual morality in Burgundy during the Catholic Reformation this book is divided into two interrelated parts the world of prescription and the world of practice The first part examines the construction of authority focusing primarily upon Burgundy s dominant elite legal community The second part of the book examines the deployment of authority and its appropriation by French men and women The new moral order focused on sexuality and the imposition of this order involved a legal contest over the disposition of bodies both male and female be they priests courting couples victims of seduction or rape or prostitutes James Farr s book offers an unusually fertile approach to study the link between sexuality and criminality **Hiding the Guillotine** Emmanuel Taïeb,2020-11-15 Hiding the Guillotine examines the question of state involvement in violence by tracing the evolution of public executions in France Why did the state move executions from the bloody and public stage of the guillotine to behind prison doors In a fascinating exploration of a grim subject Emmanuel Ta eb exposes the rituals and theatrical form of the death penalty and tells us who watched who

participated in and who criticized and ultimately brought an end to a spectacle that the state called punishment France's abolition of the death penalty in 1981 has long overshadowed its suppression of public executions over forty years earlier. Since the Revolution, executions attracted tens of thousands of curious onlookers. But gradually there was a shift in attitude and the public no longer saw this as a civilized pastime. Why? Combining material from legal archives, police files, an executioner's notebooks, newspaper clippings, and documents relating to 566 executions, *Hiding the Guillotine* answers this question. It also demonstrates the ways in which the media was at the vanguard of putting an end to the publicity surrounding the death penalty. The press had ample reason to be critical: cities were increasingly being used for leisure activity and prisons for those accused of criminal activity. The agitation surrounding each execution coupled with a growing identification with the condemned would blur these boundaries. Ranked among the top hundred history books by the website *Caf du Web Historico*, *Hiding the Guillotine* has much to impart to students of legal history, human rights, and criminology, as well as to American historians.

Jewish Workers and the Labour Movement Karin Hofmeester, 2017-05-15. During the late nineteenth century, many Jewish workers and intellectuals considered their integration into the general labour movement as a good way to counter the double disadvantage they suffered in society as Jews and workers. Whilst in Amsterdam this process encountered few obstacles, it was more problematical in London and Paris. Through a detailed examination of the collaborative efforts of Jewish labour in these three cities, *Jewish Workers and the Labour Movement* reveals the multi-layered and unique position of Jewish workers in the labour market. It shows how various factors such as economic change, political upheaval, state intervention, and anti-Semitism all affected the pace of integration and draws conclusions that highlight the similarities as well as the differences between the efforts of Jewish workers to improve their lot in France, Britain, and Holland.

Children by Choice? Ann-Katrin Gembries, Theresia Theuke, Isabel Heinemann, 2018-05-22. During the 20th century, medico-technical advances such as the invention of the latex condom (1930), the arrival of the contraceptive pill on the free market (1960-61), and the birth of the first child conceived by in vitro fertilization (1978) contributed to the fact that in Europe and the USA, the planning, conceiving, and making of children was increasingly perceived as a matter of individual and collective decision-making. Especially since mid-century, these societies underwent profound political, economic, and cultural evolutions. In the realm of human reproduction, the relationship between the possible, the desirable, and the permitted had to be continually renegotiated. This volume examines in nine chapters how thinking

speaking and acting changed with regards to reproduction and family planning throughout the modern and post modern period Applying an international comparative perspective the study specifically focuses on the role of value changes underlying these transformation processes Shadow Work Ivan Illich,1981 In five essays Illich embarks on a major historical and sociological analysis of modern man s economic existence He traces and analyzes options which surpass the conventional political right left and the technological soft hard alternatives and presents the concept of vernacular domain

the Exposition Universelle was launched to mark the achievements of capitalist production. The two events symbolized the beginning of the epic struggle between socialism and capitalism in Europe. In this comprehensive study of a century of socialism, the author traces the fortunes of the political parties of the Left in Western Europe. From the rise of the Bolsheviks to the fall of the Berlin wall, from the Second International through two world wars to the Cold War and the birth of the welfare state, from the working class militancy and student uprisings of the 1960s through the revival of feminism and the arrival of green politics to the reluctant embrace of market economics en route to the millennium, Donald Sassoon charts the course of socialism across 14 countries. He shows that throughout their history, the fortunes of socialism and capitalism have been inextricably linked. They have grown up side by side, each one challenging and seeking to destroy yet nourishing and shaping the other.
