End of the Affair Eleanor M. Gates, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981 War and Society in Revolutionary Europe, 1770-1870 Geoffrey Best, 1998 Armed force was used to make and prevent revolution in modern Europe and as it spread it came to determine the affairs and fates of all the European nations Beginning with the eve of the French Revolution Geoffrey Best explains in lively detail the vast armed forces and militarized societies of the Napoleonic age He then proceeds to analyse the contest between Europe's continuing revolutionary underground and the armies of reactionary and alien governments that culminated with the revolutions and wars of national liberation of 1848-66 Under the banners of Napoleon Bonaparte and other warrior heroes of the epoch a military stamp was set on the European mind the consequences of which Best critically assesses **Five Years Behind Hitler's Barbed Wire** Henri Natter, Adam Réfrégier, 2015-10-30 On July 3 1940 5 000 exhausted and hungry French officers reached a high plateau of the Moravian Mountain range in Austria Prisoners of war of the Third Reich they had arrived at Oflag VIIA a quad of grim looking barracks encircled by barbed wire their new home for the next five years Determined to maintain their dignity and show their fierce will to resist they immediately organized and within a year created a dynamic community complete with a university library newspaper theater orchestra and sport teams More than 20 clandestine radios connected them with the outside world In 1943 they executed the largest Allied POW escape of the war with 132 escapees twice as many as the famed Great Escape from Colditz Seventy years after their liberation this translation with commentary of two officers diaries reveals a never before told story of struggle and triumph Great Britain, France, Italy and Germany in a Postwar World, 1945-1950 Josef Becker, Franz Knipping, 2011-11-02 No detailed description available for Great Britain France Italy and Germany in a Postwar World 1945-1950 **Two Roads to War** Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and material of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Armée de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham's thorough examination however finds the British not without error *Army Film and the Avant Garde* Alice Lovejoy, 2014-12-29 A history of the Czechoslovakian military's connection to some of the nation's most innovative and subversive cinema During the 1968 Prague Spring and the Soviet led invasion and occupation that

followed Czechoslovakia's Army Film studio was responsible for some of the most politically subversive and aesthetically innovative films of the period. Although the studio is remembered primarily as a producer of propaganda and training films, some notable New Wave directors began their careers there making films that considerably enrich the history of that movement. Alice Lovejoy examines the institutional and governmental roots of postwar Czechoslovak cinema and provides evidence that links the Army Film studio to Czechoslovakia's art cinema. By tracing the studio's unique institutional dimensions and production culture, Lovejoy explores the ways in which the military avant-garde engaged in dialogue with a range of global film practices and cultures. The print version of the book includes a DVD featuring sixteenth short films produced by the Czechoslovak Ministry of Defense. The additional media files are not available on the eBook. Alice Lovejoy's revelatory study of the cinema culture wrought by the Czechoslovak Army Film studio is a cause for celebration among both cinephiles and media scholars. Lovejoy's curatorial enterprise brings these fascinating films to us for fresh examination. Seeing these artful army films nearly half a century later opens our eyes to work that requires us to reassess what we thought we knew about documentary, new waves, and world cinema itself. Dan Streible, New York University. Lovejoy restores these sometimes funny, sometimes poignant, and always innovative films to their proper place in film history while explaining the unique cultural politics that allowed them to blossom beneath the noses of the Stalinist government. Tom Gunning, University of Chicago. Filled with surprises for readers who thought they knew their Czech film history, this insightful book refutes many received ideas about Eastern European cultural politics during the Cold War and sketches a complex and nuanced relationship between artists and the socialist state. Rick Prelinger, UC Santa Cruz.

The Road from Versailles
Munro Price, 2014-04-22. Through brilliant detective work, Price has uncovered documents that shed a definitive light on the French Crown's policy toward the revolution. Library Journal. In acclaimed historian Munro Price's powerful new book, he confronts one of the enduring mysteries of the French Revolution: what were the true actions and feelings of Louis XVI and Marie Antoinette as they watched their sovereignty collapse? Dragged back from Versailles to Paris by the crowd in October 1789, the king and queen became prisoners in the capital. They were compelled for their own safety to approve the Revolution and its agenda. Yet in deep secrecy, they soon began to develop a very different and dangerous strategy. The precautions they took against discovery and the bloody overthrow of the monarchy three years later dispersed or obliterated most of the clues to their real policy. Much of this evidence has until now remained unknown. *The Road from Versailles* reconstructs in detail for the first time the king and queen's clandestine diplomacy from 1789 until their executions. To do so, it focuses on a vital but previously ignored figure: the royal couple's confidant, the baron de Breteuil. Exiled from France by the Revolution, Breteuil became their secret prime minister and confidential emissary to the courts of Europe. Along with the queen's probable lover, the comte de Fersen, it was Breteuil who organized the royal family's dramatic dash for freedom: the flight to Varennes. Breteuil's role is crucial to an understanding of what Louis and Marie Antoinette secretly felt and thought during

the Revolution To unlock these secrets The Road from Versailles draws on highly important unpublished and previously unknown material

A Desert Named Peace Benjamin Claude Brower, 2011 In the mid nineteenth century French colonial leaders in Algeria started southward into the Sahara beginning a fifty year period of violence Lying in the shadow of the colonization of northern Algeria which claimed the lives of over a million people French empire in the Sahara sought power through physical force as it had elsewhere yet violence in the Algerian Sahara followed a more complicated logic than the old argument that it was simply a way to get empire on the cheap A Desert Named Peace examines colonial violence through multiple stories and across several fields of research It presents four cases the military conquests of the French army in the oases and officers predisposition to use extreme violence in colonial conflicts a spontaneous nighttime attack made by Algerian pastoralists on a French village as notable for its brutality as for its obscure causes the violence of indigenous forms of slavery and the colonial accommodations that preserved it during the era of abolition and the struggles of French Romantics whose debates about art and politics arrived from Paris with disastrous consequences Benjamin Claude Brower uses these different perspectives to reveal the unexpected causes of colonial violence such as France's troubled revolutionary past and its influence on the military's institutional culture the aesthetics of the sublime and its impact on colonial thinking the ecological crises suffered by Saharan pastoralists under colonial rule and the conflicting paths to authority inherent in Algerian Sufism Directly engaging a controversial history A Desert Named Peace offers an important backdrop to understanding the Algerian war for independence 1954-1962 and Algeria's ongoing internal war begun in 1992 between the government and armed groups that claim to fight for an Islamist revolution

Military Affairs, 1969

Unflinching Zeal Robin Higham, 2012-09-15 This consequential work by a pioneer aviation historian fills a significant lacuna in the story of the defeat of France in May/June 1940 and more fully explains the Battle of Britain of July/October of that year and the influence it had on the Luftwaffe in the 1941 invasion of the USSR Robin Higham approaches the subject by sketching the story and status of the three air forces the Armée de l'Air the Luftwaffe and the Royal Air Force their organization and preparation for their battles He then dissects the campaigns their losses and replacement policies and abilities He paints the struggles of France and Britain from both the background provided by his recent Two Roads to War From Versailles to Dunkirk NIP 2012 and from the details of losses tabulated by After the Battle's The Battle of Britain 1982 2nd ed and Peter Cornwell's The Battle of France Then and Now 2007 as well as in Paul Martin's Invisible Vainqueurs 1990 and from the Luftwaffe summaries in the British National Archives Cabinet papers One important finding is that the consumption and wastage was not nearly as high as claimed The three air forces actually shot down only 19 percent of the number claimed In the RAF case in the summer of 1940 44 percent of those shot down were readily repairable thanks to the salvage and repair organizations This contrasted with the much lower 8 percent for the Germans and zero for the French Brave as the aircrews may have been the inescapable conclusion is that awareness of consumption wastage and sustainability were intimately connected to survival

America and Vietnam, 1954-1963 Michael M. Walker, Col., USMC (Ret.), 2022-08-31 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954-1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed *La Segunda Guerra Mundial I* Henri Michel, 1990-05-11 Preparado por los mis y esperado por otros el conflicto se desarrolló sin embargo con improvisación gigantesca Ni los lugares en que se libraron las batallas decisivas ni las armas que permitieron ganarlas habían sido previstos o imaginados Con los aviones a reacción y los cohetes y con la bomba atómica en particular la guerra científica en la que el éxito depende de las investigaciones de los laboratorios había hecho su aparición Pero además se libraron dos guerras paralelas Así se enfrentaron gigantesco ejército en sangrientos combates de tipo clásico pero al propio tiempo algunos pueblos oprimidos libraron su batalla en una guerra de resistencia que es quizá la mayor novedad del conflicto En adelante todo conflicto tendrá a dos caras como guerra extranjera y como guerra civil Cuando se evoca la Primera Guerra Mundial surgen los nombres de los generales La Segunda Guerra Mundial ha visto nacer una generación de grandes jefes militares y un nuevo estilo pero su dirección salvo en el Japón incumbió a civiles jefes de Estado o de gobierno La guerra obligaba a todas las fuerzas de la nación ya no existía la retaguardia todo el mundo estaba expuesto la vida civil había dejado de existir los obreros no trabajaban más que para la guerra los espías no pensaban sino en ella los propagandistas difundían sus slogans y los escritores a su manera los magnificaban Era la primera guerra total de la historia **Hegemony and Culture in the Origins of NATO Nuclear First-Use, 1945-1955** A. Johnston, 2005-11-18 Johnston argues that the preemptive first use of nuclear weapons long the foundation of American nuclear strategy was not the carefully reasoned response to a growing Soviet conventional threat Instead it was part of a process of cultural socialization by which the United States reconstituted the previously nationalist strategic cultures of the European allies into a seamless western community directed by Washington Building a bridge between theory and practice this book examines the usefulness of cultural theory in international history France and Germany in an Age of Crisis, 1900-1960 Shamir, 2023-04-12 France and Germany two great powers in Europe and the world had in many respects a similar fate in the first half of the twentieth century Both nations knew war and defeat social upheaval grave economic crisis as well as political turmoil including major changes in their political regime On the other hand the two countries also faced some very different experiences in the course of their history in this period Germany had the terrible experience of the Third Reich while France shared with other powers the agonies of decolonisation Here is a collection of twenty-two studies dealing with important aspects of the history of the two nations The studies are grouped under seven headings and include topics like foreign policy in peace and war domestic

changes the impact of ideologies the colonial and Jewish aspects Taken as a whole these studies offer many new perceptions and insights to the history of France and Germany in the twentieth century **Minnesota Union List of Serials**, 1974

The Army of Flanders and the Spanish Road, 1567-1659 Geoffrey Parker, 2004-10-14 The publication of *The Army of Flanders and the Spanish Road* in 1972 marked the birth of the new military history which emphasized military organization mobilization pay supply morale and above all logistics rather than military events such as sieges and battles Geoffrey Parker studied one of the great logistical feats of early modern Europe how Habsburg Spain managed to maintain and mobilize the largest army in Europe in an 80 year effort to suppress the Dutch Revolt at 700 miles distance Using a unique combination of surviving records he presented strikingly the logistical problems of fighting wars in early modern Europe and demonstrated why Spain failed to suppress the Dutch Revolt The book has been constantly cited since its first publication in English with translations into Spanish and Dutch This revised second edition includes some new sources and updates some references but otherwise remains faithful to the original version **The War Plans of the Great Powers (RLE The First World War)**

Paul Kennedy, 2014-04-24 The origins of the First World War remain one of the greatest twentieth century historical controversies In this debate the role of military planning in particular and of militarism in general are a key focus of attention Did the military wrest control from the civilians Were the leaders of Europe eager for a conflict What military commitments were made between the various alliance blocks These questions are examined in detail here in eleven essays by distinguished historians and the editor's introduction provides a focus and draws out the comparative approach to the history of military policies and war plans of the great powers *Military Thought in the French Army, 1815-51* Paddy Griffith, 1989 **France**

at Bay, 1870-1871 Douglas Fermer, 2011-07-12 The Franco Prussian War did not end with the catastrophic French defeat at Sedan on 1 September 1870 when an entire French army surrendered the Emperor Napoleon III was captured and his regime collapsed The war went on for another five agonizing months and resolved itself into a contest for Paris for while Paris held out France was undefeated The story of this dramatic final phase of the war is the subject of Douglas Fermers masterly account the sequel to his *Sedan 1870* He weaves this story of military victory and defeat into a gripping narrative and it sets the extraordinary events of nearly 150 years ago in the wider context of European history [Building Postwar Europe](#) Anne Deighton, 2016-07-27 Controversy surrounds the construction of postwar European institutions Did West European states simply respond to American pressure and Cold War politics How important was federalist idealism as opposed to economic and power political factors to decision makers These studies by an international team of historians examine the motivations of national political leaders and their officials Topics covered include British and French officials European integration and military policies German Italian Belgian and Dutch attitudes Britain and the first attempt to join the EEC and the covert relationship between the USA and the European federalists
