States and Social Revolutions Theda Skocpol,2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions **Social Dictatorships** Ferdinand Eibl,2020-02-27 Why have social spending levels and social policy trajectories diverged so drastically across labour abundant Middle Eastern and North African regimes And how can we explain the marked persistence of spending levels after divergence Using historical institutionalism and a mix of qualitative and quantitative methods Social Dictatorships The Political Economy of the Welfare State in the Middle East and North Africa develops an explanation of social spending in authoritarian regimes It emphasizes the importance of early elite conflict and attempts to form a durable support coalition under the constraints imposed by external threats and scarce resources Social Dictatorships utilizes two in depth case studies of the political origins of the Tunisian and Egyptian welfare state to provide an empirical overview of how social policies have developed in the region and to explain the marked differences in social policy trajectories It follows a multi level approach tested comparatively at the cross country level and process traced at micro level by these case studies **Guide to Microforms in Print** ,2002 Proceedings of the ... Courtly Love Undressed E. Jane Burns,2014-07-09 Clothing was used in the Middle Ages to mark religious military and
 chivalric orders lepers and prostitutes The ostentatious display of luxury dress more specifically served as a means of self
 definition for members of the ruling elite and the courtly lovers among them In Courtly Love Undressed E Jane Burns unfolds
 the rich display of costly garments worn by amorous partners in literary texts and other cultural documents in the French
 High Middle Ages Burns reads through clothes in lyric romance and didactic literary works vernacular sermons and
 sumptuary laws to show how courtly attire is used to negotiate desire sexuality and symbolic space as well as social class
 Reading through clothes reveals that the expression of female desire so often effaced in courtly lyric and romance can be
 registered in the poetic deployment of fabric and adornment and that gender is often configured along a sartorial continuum
 rather than in terms of naturally derived categories of woman and man The symbolic identification of the court itself as a
 hybrid crossing place between Europe and the East also emerges through Burns s reading of literary allusions to the trade
 travel and pilgrimage that brought luxury cloth to France **Yearbook of International Organizations** ,1999 **The**
