Rana,Charlotte Rachael Flavell,Joanne Gough,Elizabeth Alvey,Aziza Mahomed,Nisha Dhanda,2025-08-21 Higher education institutions HEI s are experiencing growing diversity amongst student populations due to global influences neoliberal policies and efforts to broaden access In this context counteracting colonial legacies and addressing deficit based attitudes requires a focus on cultural proficiency inclusive teaching and transformative pedagogy This Research Topic focuses on emphasising the urgent necessity for transformative discussions in higher education centring on the critical exploration of advancing equity and exploring equality diversity and inclusion in Higher Education Institutions Our primary aim is to establish a scholarly forum wherein researchers educators and practitioners can share pioneering research and reflective perspectives on interventions that explore inclusivity within higher education institutes Our goal is to promote an inclusive dialogue that transcends conventional limits and addresses the issues faced by marginalised individuals within the higher education setting Consequently we endeavor to curate a collection of works that not only highlight the challenges but also showcase the successes of embedding inclusivity into higher education By developing a comprehensive understanding of the obstacles and prospects in providing an equitable learning experience this collection of work can potentially serve as a repository of best practices thereby shaping the higher education landscape for the better

The Great Exception Ian Stock,2018-02-23 Teaching is emerging from a period when attempts were made to confine and control it using industrial methods It has become evident that this has failed either to deliver improved educational outcomes or to capture the essential nature of a teacher s work This book by an experienced practising teacher offers an alternative interpretation of what it means to teach and proposes a perspective on the profession that represents the actual work of teachers in a fairer and more accurate way Ian Stock s gripping new book makes an unapologetically personal examination of the problems that the approaches and policies of recent years have created for the classroom teacher It is not afraid to tackle big issues such as the burden of unnecessarily heavy management It also casts doubt on the application of big data and purely theoretical approaches saying that they cannot but fail to have relevance to the intimate scale at which real education functions Instead the book proposes a small scale approach whereby the individual practitioner is both empowered and responsible for the development of their own best practice using a set of general principles discussed herein
