Government and Politics in Colonial Bihar, 1921-1937 Jawaid Alam, 2004-01-01 This Study Provides A Fairly Good Analysis Of Politics In Bihar During 1921 1937 The Nature Of The Congress Movement And The Articulation Of Communal Politics And The Incidence Of Communal Riots Are Critically Examined Peasants in India's Non-Violent Revolution Mridula Mukherjee, 2004-09-22 In part one of this volume the political world of the peasants of Punjab is reconstructed capturing their struggles at a national level as well as at an individual one Part Two makes important interventions in the theoretical debates regarding the role of peasants in revolutionary transformation in the modern world The author argues that the association of revolution with large scale violence has resulted in the refusal to recognize the non violent yet revolutionary political practice of peasants in the Indian National Movement **Popular Translations of Nationalism** Lata Singh, 2012 This study on Bihar highlights the fact that nationalism was not a monolithic movement but was constituted of diverse facets and streams which unleashed a variety of protests Once people s desires and aspirations were linked to nationalism the movement developed its own rhythm and dynamics throwing up its own agenda Popular Translations of Nationalism Bihar 1920 1922 revisits the historiography on nationalism by moving beyond the binary of elite and subaltern nationalism and focuses on the complex nature of popular nationalism It also underscores the protests of the subordinate police an area which has so far remained unexplored By foregrounding the police s interface with nationalism and its varied trends the study problematizes both the accepted view of the state s subordinates as being effectively integrated with the colonial state and their identity as agents of the state The study also reveals that nationalism was not merely an attempt to eject the British nor was it simply a political struggle for power Rather it was also a hegemonic contestation with colonialism but one within which the counterhegemonic struggle of nationalism was also intertwined with the contest for hegemony within Indian society **Negotiating and Contesting Identities in Linguistic Landscapes** Robert Blackwood, 2016-02-25 This collection represents contemporary perspectives on important aspects of research into the language in the public space known as the Linguistic Landscape LL with the focus on the negotiation and contestation of identities From four continents and examining vital issues across North America Africa Europe and Asia scholars with notable experience in LL research are drawn together in this the latest collection to be produced by core researchers in this field Building on the growing published body of research into LL work the fifteen data chapters test challenge and advance this sub field of sociolinguistics through their close examination of languages as they appear on the walls and in the public spaces of sites from South Korea to South Africa from Italy to Israel from Addis Ababa to Zanzibar The geographic coverage is matched by the depth of engagement with developments in this burgeoning field of scholarship As such this volume is an up to date collection of research chapters each of which addresses pertinent and important issues within their respective geographic spaces Rewriting the Language of Politics Arun Kumar, 2001 Unearthing Gender Smita Tewari

Democracy against Development Jeffrey Witsoe,2013-11-05 Hidden behind the much touted success story of India s emergence as an economic superpower is another far more complex narrative of the nation s recent history one in which economic development is frequently countered by profoundly unsettling and often violent political movements In Democracy against Development Jeffrey Witsoe investigates this counter narrative uncovering an antagonistic relationship between recent democratic mobilization and development oriented governance in India Witsoe looks at the history of colonialism in India and its role in both shaping modern caste identities and linking locally powerful caste groups to state institutions which has effectively created a postcolonial patronage state He then looks at the rise of lower caste politics in one of India s poorest and most populous states Bihar showing how this increase in democratic participation has radically threatened the patronage state by systematically weakening its institutions and disrupting its development projects By depicting democracy and development as they truly are in India in tension Witsoe reveals crucial new empirical and theoretical insights about the long term trajectory of democratization in the larger postcolonial world
