Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes      **American Paintings** Lagakos-Turak Gallery, 1989      *American Paintings from the Montgomery Museum of Fine Arts* Montgomery Museum of Fine Arts, Margaret Lynne Ausfeld, Charles C. Dudley, 2006 A native Midwesterner s timeless portrayals of a fragile sanctuary The Indiana Dunes Revealed offers the first comprehensive examination of a widely collected

much loved and ecologically significant artist Described by art historian William Gerdts as one of the finest painters working in the Midwest in the first decades of the twentieth century Frank V Dudley 1868 1957 was a native of Wisconsin who studied at the Art Institute of Chicago before going on to establish a long exhibition record both there and across the country He also dedicated over forty years of his professional life as a landscape painter to the promotion and preservation the Indiana Dunes Today thanks in part to Dudley s efforts this unique geographical region enjoys state and federal protection and provides ecologists from around the world with a living laboratory unlike anything else The Indiana Dunes Revealed serves as the accompanying catalogue for the exhibition of Dudley s work showing from August 15 to November 30 2006 at the Brauer Museum of Art at Valparaiso University Featuring 150 color and 70 black and white images it celebrates Dudley s unique artistic legacy documents the exhibition and demonstrates the painter s importance to environmentalists and naturalists especially during the many years of national debate over the designation of parts of the dunes as a national park In some areas Dudley s painting may be the only record of a lost dunescape and as the struggle between development and preservation continues his enduring art reminds us of the need for a sustainable environment for the Great Lakes
