Selected Studies of Jan Gonda, Volume 6 Selected Studies, part 2 Gonda,2025-02-03 The print edition is available as a set of two volumes 9789004094468 The Religion of the Rigveda Thomas Oberlies,2024-01-15 As one of the world s major religions Hinduism has been studied from countless perspectives What is often neglected however is the study of the Rigvedic religion as its ancestor The Religion of the Rigveda uncovers fundamental concepts found in Hinduism providing an up to date foundation for renewed examination of the origins of Hinduism **The Religion of the Veda** Hermann Oldenberg,1988-01-01 Samkhya and Yoga systems of religious thought **Multiple Preverbs in Ancient Indo-European Languages** Chiara Zanchi,2019-08-26 The book investigates multiple preverbs PVs in some ancient IE languages Vedic Homeric Greek Old Church Slavic and Old Irish After an introduction it opens with the theoretical framework and a typologically oriented overview of PVs It then gives quantitative data about multiple PV composites and carries out philological formal semantic and syntactic analyses on them The comparison among these languages suggests that a process of accumulation lies behind multiple PV composites Also PV ordering is explained by different factors semantic solidarity between PVs and verbs PVs tendency to be specified by event participants PVs etymologies influence from other languages The book also contributes to casting light on the reasons for PVs grammaticalization and lexicalization These are two distinct reanalyses triggered by the same factor i e the mentioned semantic solidarity which makes PVs be felt as redundant They are thus reassigned salient pieces of information as actional markers grammaticalization or reinterpreted as part of the verb lexicalization *The Rigveda* Stephanie Jamison,Joel Brereton,2020-02-23 The Rigveda is a monumental text in both world religion and world literature yet outside a small band of specialists it is little known Composed in the latter half of the second millennium BCE it stands as the foundational text of what would later be called Hinduism The text consists of over a thousand hymns dedicated to various divinities composed in sophisticated and often enigmatic verse This concise guide from two of the Rigveda s leading English language scholars introduces the text and breaks down its large range of topics from meditations on cosmic enigmas to penetrating reflections on the ability of mortals to make contact with and affect the divine

Greater Magadha Johannes Bronkhorst,2013-01-01 Greater Magadha roughly the eastern part of the Gangetic plain of northern India has so far been looked upon as deeply indebted to Brahmanical culture Religions such as Buddhism and Jainism are thought of as derived in one way or another from Vedic religion This belief is defective in various respects The book argues for the importance and independence of Greater Magadha as a cultural area until a date close to the beginning of the Common Era In order to correct the incorrect notions two types of questions are dealt with questions pertaining to cultural and religious dependencies and questions relating to chronology As a result a modified picture arises that also has a bearing on the further development of Indian culture The book is arranged in five parts Part I describes cultural features of Greater Magadha under which there are three chapters The Fundamental Spiritual Ideology Other Features and Conclusions Part II Brahmanism vis a vis Rebirth and Karmic Retribution has three sections Hesitantly Accepted Rebirth and Karmic Retribution Ignored or Rejected and Urban Brahmins Under section one there are chapters on Dharma Sutra a portion from the Mahabharata and the early Upanisads Section two features chapters on Rebirth and Karmic Retribution Ignored and Rebirth and Karmic Retribution Rejected Section three is on urban Brahmins Part III dwells on the chronological issues linguistic consideration the Vedic texts known to the early Sanskrit grammarians to the early Buddhists some indications in late Vedic literature urban versus rural culture etc Part IV is Conclusion while Part V has useful appendices The antiquity of the Vedanta philosophy a Carvaka in the Mahabharata Vedic texts known to Panini the form of the Rgveda known to Panini Vedic texts known to Patanjali Brahmins in the Buddhist canon Brahmanism in Gandhara and surrounding and Carvakas and the Sabarabhasya

The Bhagavata-Purana Part 1 J. L. Shastri,Ganesh Vasudeo Tagare,2004-01-01 The Purana is a class of literature that treats of ancient religion philosophy history sociology politics and other subjects It is an Encyclopaedia of various branches of knowledge and ancient wisdom It has been defined as a class of literature that contains material on the topics of Creation Dissolution of Manus Ages of Manus Genealogies and the History of glorious kings For dealing primarily with these subjects it has been called Pancalaksana a little that was incorporated in the Puranas themselves and had become popular by the Fifth Century A D for it was included

by Amarasimha in his lexicon Amarakosa But as the process of interpolation continued the Pancalaksana definition was found inadequate The Puranic redactors adopted a Dasalaksana definition that suited the contemporary text Still the dynamic forces were at work and the process of insertion modification and abridgement went on and it was soon discovered that the Dasalaksana definition too fell short of an actual fact It was found that the Puranas contained certain aspects that were not covered by any of the five or ten characteristics Besides some of the characteristics covered by the Pancalaksana or Dasalaksana definition were not found in certain Puranas In fact the Purana as a class represents the different phases and aspects of the life of diverse ages It is impossible to adopt a standard definition for the class of literary composition that contains heterogeneous phases and aspects Moreover a definition framed on the numerical basis of points is bound to be imperfect The Puranas are divided into two classes the Mahapuranas and the Upapuranas Each class consists of eighteen Puranas Thus the number of the Puranas is thirty six
