Rheims Cathredral:

Reims Cathedral , **The Gothic Stained Glass of Reims Cathedral** Meredith Parsons Lillich,2011 Examines the stained glass windows in the Gothic cathedral of Reims within the context of the evolution of the French monarchy and medieval art Provided by publisher **Reading the Reverse Fa?e of Reims Cathedral** DonnaL. Sadler,2017-07-05 Though long recognized as one of the most beautiful works from the second half of the thirteenth century the magnificent sculptural program of the reverse fa e at Reims Cathedral has received little in the way of scholarly attention Interpreting the iconography in the light of Latin texts associated with the building its history and its ceremonial use Donna Sadler assesses the significance of the reverse fa e in light of other thirteenth century visual programs associated with the court of Louis IX The book s chapters deal with the history of the cathedral and its architectural antecedents the iconographic message of the visual program the meaning of the reverse fa e and how it intersects with the overall iconography the function of the verso and how it is enhanced by the marriage of form and content and a consideration of contemporary works linked to the court of Saint Louis concluding with a brief look at the new roles sculpture assumes as it migrates inside cathedrals Ultimately this book reveals how the imagery on the reverse fa e not only conforms to a system of memory and mode of medieval narratology but also articulates a dominant ideological position regarding the interdependence of ecclesiastical and royal powers

Description of Reims Cathedral for the Use of the Visitors Notre-Dame de Reims (Cathedral),1899 *Description of Reims Cathedral for the use of visitors* Notre-Dame de Reims (Cathedral),1909 *The Cathedral of Reims* Maurice Landrieux,1920 *Arts of the Medieval Cathedrals* Kathleen Nolan,Dany Sandron,2016-12-05 The touchstones of Gothic monumental art in France the abbey church of Saint Denis and the cathedrals of Chartres Reims and Bourges form the core of this collection dedicated to the memory of Anne Prache The essays reflect the impact of Prache s career both as a scholar of wide ranging interests and as a builder of bridges between the French and American academic communities Thus the authors include scholars in France and the United States both academics and museum professionals while the thematic matrix of the book divided into architecture stained glass and sculpture reflects the multiple media explored by Prache during her long career The essays employ a varied range of methodologies to explore Gothic monuments The chapters in the architectural section include an intensive archeological analysis of the foundations of Reims Cathedral the close reading of a late medieval literary text for a symbolic understanding of Paris and essays that explore the medieval use of practical geometry in designing entire buildings and their components Saint Denis Reims and Chartres all monuments studied by Prache are discussed in the next part on stained glass These chapters demonstrate how old problems can be clarified by new evidence whether from the accessibility of previously unknown archival information for Reims or through revelations that arise from restoration at Chartres These essays also include a study showing the complexity of making attributions for the storied glass of Saint Denis The final set of essays likewise takes different approaches to sculpture whether constructing

links to the liturgy at Reims or discussing the meaning of a sculptural ensemble studied by Prache early in her career the cloister of Notre Dame en Vaux in Ch lons en Champagne or scrupulously examining the fa ade sculpture at Bourges Cathedral for insights into the design process As a whole the volume provides a window onto key directions in the study of

The Cambridge Illustrated History of France Colin Jones, 1999-05-28 Combining superb illustration with authoritative text this is a major political and social history of France from earliest times to the eve of the new millennium Colin Jones offers not only an expert s account of political social and cultural developments but also a fresh and full interpretation of French history The Cambridge Illustrated History of France places an innovatory emphasis on the importance of issues of regionalism class gender and race in the French heritage Ranging across social political geographical and cultural lines from prehistoric menhirs to the Pompidou Centre from Louis XIV s Versailles to twentieth century high rises from Marie Antoinette to Marie Claire the author provides a host of lively and penetrating new insights into the shaping of the modern nation

The North Transept of Reims Cathedral Jennifer M. Feltman, 2016-07-15 This interdisciplinary volume in the AVISTA series is the first book to focus solely on the north transept of Reims Cathedral the portion of the gothic building that served as the canons primary entrance to the cathedral from their adjoining cloister in the thirteenth century Despite the importance of its sculpture and stained glass as well as its ritual use by the canons the north transept remains one of the least understood portions of the cathedral in part because its sequence of construction is so complex even improvised Until recently important archaeological evidence of the transept s substructures was unavailable This is however no longer the case The current volume presents this new subterranean evidence alongside careful studies of the stones above ground analysis of the geometry used in the transept s design iconographic and stylistic studies of its sculpture and glass and extant medieval documents which record events bearing upon its construction Essays by international specialists of the cathedral s archaeology architecture sculpture and stained glass address issues of the north transept s evolving design and visual programs thereby significantly clarifying and revising the building s chronology Essays also consider the meaning of its visual programs in light of architectural adaptation and contemporary socio historical events whether royal coronations or the infamous revolts of the local burghers In addition to presenting a readily accessible state of the research on the north transept the volume also provides a model for interdisciplinary and international collaboration in the study of medieval buildings

The Jew, the Cathedral and the Medieval City Nina Rowe, 2011-04-04 In the thirteenth century sculptures of Synagoga and Ecclesia paired female personifications of the Synagogue defeated and the Church triumphant became a favoured motif on cathedral fa ades in France and Germany Throughout the preceding centuries the Jews of northern Europe prospered financially and intellectually a trend that ran counter to the long standing Christian conception of Jews as relics of the prehistory of the Church In this book Nina Rowe examines the sculptures as defining elements in the urban Jewish Christian encounter She locates the roots of the Synagoga Ecclesia motif in antiquity and explores the theme s public

manifestations at the cathedrals of Reims Bamberg and Strasbourg considering each example in relation to local politics and culture Ultimately she demonstrates that royal and ecclesiastical policies to restrain the religious social and economic lives of Jews in the early thirteenth century found a material analog in lovely renderings of a downtrodden Synagoga placed in the public arena of the city square **Medieval Architecture and Its Intellectual Context** E. C. Fernie,Paul

Crossley,1990-01-01 Medieval Architecture and its Intellectual Context reflects the range of Peter Kidson s own interests and are united in following his approach to medieval architecture and art a determination to see buildings and objects in the intellectual terms of the time in which they were created *Art And Architecture In Medieval France* Whitney S.

Stoddard,2018-02-20 This is an English language study on the architecture and art of medieval France of the Romanesque and Gothic periods between 1000 1500 In addition to essays on individual monuments there are general discussions of given periods and specific problems such as why did Gothic come into being Whitney Stoddard explores the interrelationship between all forms of medieval ecclesiastical art and characterization of the Gothic cathedral which he believes to have an almost metaphysical basis *Gothic Architecture* Paul Frankl,Paul Crossley,2000-01-01 This magisterial study of Gothic

architecture traces the meaning and development of the Gothic style through medieval churches across Europe Ranging geographically from Poland to Portugal and from Sicily to Scotland and chronologically from 1093 to 1530 the book analyzes changes from Romanesque to Gothic as well as the evolution within the Gothic style and places these changes in the context of the creative spirit of the Middle Ages In its breadth of outlook its command of detail and its theoretical enterprise Frankl s book has few equals in the ambitious Pelican History of Art series It is single minded in its pursuit of the general principles that informed all aspects of Gothic architecture and its culture In this edition Paul Crossley has revised the original text to take into account the proliferation of recent literature books reviews exhibition catalogues and periodicals that have emerged in a variety of languages New illustrations have also been included **Gothic Sculpture, 1140-1300** Paul

Williamson,1995-01-01 This study examines the development of Gothic sculpture throughout Europe It discusses the most famous monuments such as the cathedrals of Chartres Amiens and Reims Westminster Abbey and the Siena Duomo and less familiar buildings in France England Italy Germany Spain and Scandinavia Medieval Art and Architecture after the

Middle Ages Alyce A. Jordan,Janet T. Marquardt,2009-01-14 Medieval Art and Architecture after the Middle Ages explores the endurance of and nostalgia for medieval monuments through their reception in later periods specifically illuminating the myriad ways in which tangible and imaginary artifacts of the Middle Ages have served to articulate contemporary aspirations and anxieties The essays in this interdisciplinary collection examine the afterlife of medieval works through their preservation restoration appropriation and commodification in America Great Britain and across Europe from the sixteenth to the twentieth century From the evocation of metaphors and tropes to monumental projects of restoration and recreation medieval visual culture has had a tremendous purchase in the construction of political religious and cultural practices of the

Modern era The authors assembled here engage a diverse spectrum of works from Irish ruins and a former Florentine prison to French churches and American department stores and an equally diverse array of media ranging from architecture and manuscripts to embroidery monumental sculpture and metalwork With applications not only to the study of art and architecture but also encompassing such varied fields as commerce city planning education literature collecting and exhibition design this copiously illustrated anthology comprises a significant contribution to the study of medieval art and medievalism

The Four Modes of Seeing Elizabeth Carson Pastan, 2017-07-05 Borrowing its title from Madeline Harrison Caviness's influential work on the modes of seeing articulated by the twelfth century cleric Richard of Saint Victor this interdisciplinary collection brings together the work of thirty scholars from England France Germany Italy Switzerland and the United States Each author has contributed an original article that engages with ideas formulated in Caviness's wide ranging scholarship The historiographic introduction discusses themes in Caviness's publications and their importance for art historical and medieval studies today The book's thematic matrix groups together essays concerned with The Material Object Documentary Reconstruction Post Disciplinary Approaches Multiple Readings Gender and Reception Performativity Text and Image Collecting and Consumption and Politics and Ideology The contributors include curators art historians historians and literary scholars Their subjects range from medieval stained glass to the nineteenth century Gothic Revival the *Sachsenspiegel* and Mel Gibson's *The Passion of the Christ* Many foreground issues of gender reception and textuality which have permeated Caviness's scholarship Some also present approaches to sites that have been the subject of important studies by Caviness including Canterbury Chartres Reims Saint Denis Sens and Troyes The volume offers a broad range of methodological approaches to key topics in the study of medieval imagery and thus highlights the vitality of the field today
