*Rhetoric* John D. Ramage, 2006 This book for advanced composition courses focuses on the theories of Kenneth Burke rhetoric as equipment for living in order to help students move beyond a mere accumulation of knowledge about the field of rhetoric and move toward a genuine ability to think rhetorically Presenting rhetorical theory as an invaluable tool for construing and constructing everything from personal identity to political speeches to cell phone usage John Ramage's new guide stresses the real world applications of rhetoric and offers a focused coherent treatment of the subject *Rhetoric in Detail* Barbara Johnstone, Christopher Eisenhart, 2008 The eleven studies in this volume illustrate and advance the synthesis of discourse analysis with rhetorical studies *Rhetoric in Detail* shows how a variety of techniques from discourse analysis can be useful in studying such concerns as agency legitimation controversy and style and how concepts from rhetoric including genre and figuration can enrich the work of discourse analysts The authors research sites range from government commissions political speeches newspaper reports and letters to interviews and conversations in beauty salons and online Methodological overviews interspersed throughout survey critical discourse analysis interactional sociolinguistics grounded theory computer aided corpus analysis narrative analysis and participant observation and provide suggestions for further reading *Rhetoric in Detail* is an invaluable source for rhetoricians looking for systematic grounded ways of approaching new more vernacular sites for rhetorical discourse and for discourse analysts interested in seeing what they can learn from the tradition and practice of rhetorical analysis *Rhetoric and Experience Architecture* Liza Potts, Michael J. Salvo, 2017-08-04 Organizations value insights from reflexive iterative processes of designing interactive environments that reflect user experience I really like this definition of experience architecture which requires that we understand ecosystems of activity rather than simply considering single task scenarios Donald Norman *The Design of Everyday Things* *Encyclopedia of Rhetoric and Composition* Theresa Enos, 2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company **Theorizing Histories of Rhetoric** Michelle Ballif, 2013-02-25 During the decades of the 1980s and 1990s historians of rhetoric composition and communication vociferously theorized historiographical motivations and methodologies for writing histories in their fields After this fertile period of rich contested and impassioned theorization scholars busily undertook the composition of numerous historical works complicating master narratives and recovering silenced voices and rhetorical practices Yet though historians in these fields have gone about the business of writing histories the discussion of theorization has been quiet In this welcome volume fifteen scholars consider once again the theory of historiography asking difficult questions about the purposes and methodologies of writing histories of rhetoric broadly defined and questioning what it means what it should mean what it could mean to write histories of rhetoric composition and communication The topics addressed include the privileging of the literary and the textual over material artifacts as prime sources of evidence in the study of classical rhetoric the use of rhetorical hermeneutics as a methodology for interpreting

past practices the investigation of feminist methodologies that do not fit into the dominant modes of feminist historiographical work and the examination of archives with a queer eye to better construct nondiscriminatory narratives Contributors also explore the value of approaching historiography through the lenses of jazz improvisation and complexity theory and the historiographical method of writing the future in ways that refigure our relationships to time and to ourselves Consistently thoughtful and carefully argued these essays successfully revive the discussion of historiography in rhetoric inspiring fresh avenues of exploration in the field

*Silence: A User's Guide, Volume One* Maggie Ross, 2014-09-10 Silence is essential for the health and well being of humans and the environment in which they live Yet silence has almost vanished from our lives and our world Of all the books that claim to be about silence this is the only one that addresses silence directly Silence A User's Guide is just what the title says it is a guide to silence which is both a vast interior spaciousness and the condition of our being in the natural world This book exposes the processes by which silence can transfigure our lives what Maggie Ross calls the work of silence it describes how lives steeped in silence can transfigure other lives unawares It shows how the work of silence was once understood to be the foundation of the teaching of Jesus and how this teaching was once an intrinsic part of Western Christianity it describes some of the methods by which the institution suppressed the work of silence and why religious institutions are afraid of silence Above all this book shows that the work of silence gives us a way of being in the world that is more than we can ask for or imagine

expression in digital contexts The volume combines complex rhetorical theory with personal anecdotes about the use of technologies to create a larger philosophical and rhetorical account of how theorists approach the examinations of new and future digital technologies This collection of essays emphasizes the ways that digital technology intrudes upon rhetorical theory and how readers can be everyday rhetorical critics within an era of ever increasing use of digital technology Each chapter effectively blends theorizing between rhetoric and digital technology informing readers of the potentiality between the two ideas The theoretical perspectives informed by digital media studies rhetorical theory and personal professional use provide a robust accounting of digital rhetoric that is timely personable and useful

A Rhetorics of the Word George Pattison, 2019-11-28 A Rhetorics of the Word is the second volume of a three part philosophy of Christian life It approaches Christian life as expressive of a divine calling or vocation The word Church *ekklesia* and the role of naming in baptism indicate the fundamental place of calling in Christian life However ideas of vocation are difficult to access in a world shaped by the experience of disenchantment The difficulties of articulating vocation are explored with reference to Weber Heidegger and Kierkegaard These are further connected to a general crisis of language manifesting in the degradation of political discourse Arendt and the impact of new communications technology on human discourse This impact can be seen as reinforcing an occlusion of language in favour of rationality already evidenced in the philosophical tradition and technocratic management New possibilities for thinking vocation are pursued through the biblical prophets with emphasis on Buber's and Rosenzweig's reinterpretation of the call of Moses Saint John and Russian philosophies of language Florensky to Bakhtin Vocation emerges as bound up with the possibility of being name bearers enabling a mutuality of call and response This is then evidenced further in ethics and poetics where Levinas and Hermann Broch The Death of Virgil become major points of reference In conclusion the themes of calling and the name are seen to shape the possibility of love the subject of the final part of the philosophy of Christian life A Metaphysics of Love

Stalinist Genetics Dmitri Stanchevici, 2017-03-02 Stalinist Genetics focuses on the rhetoric of T D Lysenko the founder of an agrobiological doctrine Lysenkoism in the Stalinist Soviet Union Using not only scientific but also political and ideological arguments Lysenko achieved an official ban on Soviet Mendelian genetics Though the ban was brief and Lysenkoism as a leading biological doctrine was eventually deposed in favor of Mendelism Lysenkoism remains a paradigmatic example of pernicious political interference in science In this study the critical orientation for reading Lysenko's major speeches is constitutional rhetoric It combines Kenneth Burke's dialectic of constitutions and rhetoric of the subject Painting a nuanced picture of intellectual economic ideological and political life in the Soviet Union of the 1930s and 1940s the book demonstrates how the rhetorics of Lysenkoism and Mendelism interacted with Stalinist culture in the fight for dominating Soviet science The reader will learn how Lysenko's constitutional rhetoric created a space where scientific terms transformed into political and ideological ones and vice versa The book also shows how in a dialectical flip the Lysenkoist rhetoric eventually turned from tool to master Contrary to Lysenko's intentions his

language gave his opponents Soviet Mendelians grounds on which to defend their science and criticize Lysenkoism Stanchevici forcefully reasserts the blurriness of the boundaries between science and politics and argues that scientific language reveals more plasticity and adaptability to the political situation than has hitherto been assumed Intended Audience Scholars in rhetoric history and philosophy of science graduate or upper division undergraduate course in the rhetoric of science or technical communication      **Rhetoric and the Global Turn in Higher Education** Christopher
