Rhetoric and Philosophy in Conflict Samuel IJsseling,1976 Rhetoric and Philosophy in Conflict J.C.

IJsseling,2012-12-06 *The Rhetoricity of Philosophy* Blake D. Scott,2024-08-02 This book aims to recast the way that philosophers understand rhetoric Rather than follow most philosophers in conceiving rhetoric as a specific way of speaking or writing it shows that rhetoric is better understood as a dimension of all human discourse and action what the author calls rhetoricity This book provides the first philosophical treatment of rhetoricity It is motivated by two ongoing developments The first is the debate between Alain Badiou and Barbara Cassin about philosophy s relation to rhetoric Both Badiou and Cassin are critical of rhetoric albeit for different reasons Second there has been a growing resurgence of interest in rhetoric considering the recent rise in authoritarian politics as well as new forms of propaganda driven by persuasive technologies This book identifies the common target of Badiou s and Cassin s otherwise incompatible critiques rhetoric s conception of audience It offers a fresh take on the new rhetoric project of Cha m Perelman and Lucie Olbrechts Tyteca putting their work into conversation with the Badiou Cassin debate The book then turns to the hermeneutic philosophy of Paul Ricoeur in search of an expanded conception of audience It shows that Ricoeur s hermeneutic philosophy allows us to extend Perelman and Olbrechts Tyteca s psychological notion of audience to texts themselves and to argue that human beings have a rhetorical capacity to reflect on audiences in search of what is potentially persuasive The Rhetoricity of Philosophy will be of interest to scholars and advanced students working in contemporary European philosophy rhetoric argumentation studies and social theory **Sourcebook on Rhetoric** , Giambattista Vico and Anglo-American Science Marcel Danesi,2011-09-12 No detailed description available for Giambattista Vico and Anglo American Science **Gorgias, Sophist and Artist** Scott Porter Consigny,2001 Aristophanes depicted him as a barbaric sycophant Plato as a shallow opportunist and Aristotle as an inept stylist but the Greek teacher of rhetoric Gorgias of Leontini 483 375 BCE has been again attracting attention from scholars Consigny English Iowa State U articulates a coherent account of the enigmatic thinker and writer Annotation copyrighted by Book News Inc Portland OR *Allegorical Spectrum of the Parables of Jesus* Suk Kwan Wong,2017-02-08 Allegory in the parables of Jesus has never been addressed properly By studying the allegorical features in parables and evaluating some former parable theories current study hopes to bring insight to the hermeneutics of allegory in the parables of Jesus The Great Humanists Jonathan Arnold,2011-10-14 Born out of a love of language text classical learning art philosophy and philology the Christian Humanist project lasted beyond the turmoil of sixteenth century Europe to survive in a new form in post Reformation thought Jonathan Arnold here explores the finest intellects of late Renaissance Europe providing an essential guide to the most important scholars priests theologians and philosophers of the period now collectively known as the Christian Humanists The Great Humanists provides an invaluable context to the philosophical political and spiritual state of Europe on the eve of the Reformation through inter related biographical sketches of Erasmus

Thomas More Marsilio Ficino Petrarch Johann Reuchlin Jacques Lefevre d Etaples and many others The legacy of these thinkers is still relevant and widely studied today and this book will make invaluable reading for scholars and students of philosophy and early modern European history Paul and the Miraculous Graham H. Twelftree,2013-09-15 How can we explain the difference between the miraculous Christianity expressed in the Gospels and the nearly miracle free Christianity of Paul In this historically informed study senior New Testament scholar Graham Twelftree challenges the view that Paul was primarily a thinker and reimagines him as an apostle of Jesus for whom the miraculous was of profound importance Highlighting often overlooked material in Paul s letters Twelftree offers a fresh consideration of what the life and work of Paul might teach us about miracles in early Christianity and sheds light on how early Christians lived out their faith

Human Communication as Narration Walter R. Fisher,2021-06-03 This book addresses questions that have concerned rhetoricians literary theorists and philosophers since the time of the pre Socratics and the Sophists How do people come to believe and to act on the basis of communicative experiences What is the nature of reason and rationality in these experiences What is the role of values in human decision making and action How can reason and values be assessed In answering these questions Professor Fisher proposes a reconceptualization of humankind as homo narrans that all forms of human communication need to be seen as stories symbolic interpretations of aspects of the world occurring in time and shaped by history culture and character that individuated forms of discourse should be considered good reasons values or value laden warrants for believing or acting in certain ways and that a narrative logic that all humans have natural capacities to employ ought to be conceived of as the logic by which human communication is assessed Beasts that Teach, Birds that Tell: Animal Language in Rabbinic and Classical Literatures Eliezer Segal,2019 A study of rabbinic texts about talking animals examined in the context of Greek and Roman cultures Sourcebook on Rhetoric James Jasinski,2001-07-19 This book is designed to introduce readers to the language of contemporary rhetorical studies The book format is an alphabetized glossary with appropriate cross listings of key terms and concepts in contemporary rhetorical studies An introductory chapter outlines the definitional ambiguities of the central concept of rhetoric itself The primary emphasis is on the contemporary tradition of rhetorical studies as it has emerged in the discipline of speech communication Each entry in the glossary ranges in length from a few paragraphs to a short essay of a few pages Where appropriate examples are provided to further illustrate the term or concept Each entry will be accompanied by a list of references and additional readings to direct the reader to other materials of possible interest Perspectives on Early Modern and Modern Intellectual History Joseph Marino,Melinda Wilcox Schlitt,2001 Perspectives on Early and Modern Intellectual History brings together several disciplines and historical periods and three generations of scholars to celebrate the pedagogical and scholarly career of Nancy Struever who taught in the Humanities Center and Department of History at The John Hopkins University Twenty three essays reflect the breadth of disciplinary competence and the standards of scholarly rigor that Stuever instilled in her

The Politics of Postmodernity Gary Brent Madison, 2012-12-06 The Politics of Postmodernity outlines in a clear and coherent manner the implications for political theory that are inherent in philosophical hermeneutics Hermeneutics is not only a general theory of human understanding it is also in terms of its practical consequences a general Theory of Democracy This book demonstrates with reference to current debates how hermeneutical theory provides the ultimate philosophical justification for democratic practice and universal human rights One of the book s most significant features is the way in which it attempts to work through postmodernism and the way in which throughout it shows how hermeneutics while fully a form of postmodern thought is nevertheless distinctive in this regard in eschewing all forms of relativism and in resolutely defending a nonessentialist universalism This book will be of interest to all those concerned with the fate of the core values traditionally defended by philosophy and indeed with the future of philosophy itself after postmodernity

The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to bloom only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself

Ulmer, 2019-12-01 Originally published in 1984 In *Applied Grammatology* Gregory Ulmer provides an extraordinary introduction to the third applied phase of grammatology the science of writing outlined by Jacques Derrida in *Of Grammatology* Ulmer looks to the later experimental works of Derrida beginning with *Glas* and continuing through *Truth in Painting* and *The Post Card* In these he discovers a critical methodology radically different from the deconstruction for which Derrida is known At the same time he finds the source of a new pedagogy for all the humanities one based on grammatology and appropriate to the era of audiovisual communications in which we live Detractors of Derrida often accuse him of superficial wordplay and of using images and puns as nonfunctional subversions of academic conventions Ulmer argues that there is in fact a fully developed use of homonyms in Derrida's style which produces its own distinctive knowledge and insight Derrida's experiments with images moreover his expansion of descriptions of everyday objects such as umbrellas matchboxes and post cards into cognitive models serve to reveal a simplicity underlying intellectual discourse which could be used to eliminate the gap separating the general public from specialists in cultural studies Comparing the stylistic innovations of Derrida with Jacques Lacan's use of puns and diagrams with the German performance artist Joseph Beuys's demonstration of models and with the montage writing of the films of Sergei Eisenstein Ulmer explores the possibility of deriving a postmodernist pedagogy from Derrida's texts The first study to suggest the full potential of the program available in Derrida's writings *Applied Grammatology* is also the first outline of a Derridean alternative to deconstructionism With its shift away from Derrida's

philosophical studies to his experimental texts Ulmer's book aims to inaugurate a new movement in the American adaptation of contemporary French theory Argumentation in Complex Communication Marcin Lewiński, Mark Aakhus, 2022-12-22 A pervasive aspect of human communication and sociality is argumentation the practice of making and criticizing reasons in the context of doubt and disagreement Argumentation underpins and shapes the decision making problem solving and conflict management which are fundamental to human relationships However argumentation is predominantly conceptualized as two parties arguing pro and con positions with each other in one place This dyadic bias undermines the capacity to engage argumentation in complex communication in contemporary digital society This book offers an ambitious alternative course of inquiry for the analysis evaluation and design of argumentation as polylogue various players arguing over many positions across multiple places Taking up key aspects of the twentieth century revival of argumentation as a communicative situated practice the polylogue framework engages a wider range of discourses messages interactions technologies and institutions necessary for adequately engaging the contemporary entanglement of argumentation and complex communication in human activities
