

# Style vs. Rhetoric

A Venn diagram with two overlapping circles. The left circle is dark blue and contains text about style. The right circle is a lighter blue and contains text about rhetoric. The overlapping area is a darker shade of blue.

Style includes *purpose, tone, diction* (devices, level, type), *syntax*, and *rhetoric*—but rhetoric only matters if the author is making an argument.

Rhetoric includes *style*, because if the author isn't making decisions regarding purpose, tone, diction, and syntax, the rhetoric is ineffective.

## **Rhetoric And Style:**

*An Argument on Rhetorical Style* Marie Lund, 2017-04-16 This book interprets rhetorical style within a theoretical frame and it aims to give a more unifying account than has been given in most publications on style. The aim is to establish the concept of rhetorical style that will not only achieve a greater conceptual consensus but also help make it both powerful and useful in line with other concepts in the practical and critical disciplines of rhetoric. The examination of rhetorical style is aimed at conceptual development based on theoretical reflection and rhetorical analysis. The goal is to achieve a clearer understanding of some of the ways in which rhetorical style supplies the conceptual frameworks for reflecting, perceiving, arguing and gaining influence in practical life.

**Rhetoric and Style** Nevin K. Laib, 1993 An advanced composition book and true rhetoric places the process of writing in its social context. Rather than promoting a particular method, form or style, it teaches the entire range of stylistic options available to writers, explaining the advantages and drawbacks of various styles. The book enables writers to make informed decisions about presenting ideas in discourse and incorporates the best of contemporary research into the wider rhetorical tradition. Principles from classical and philosophical rhetoric as well as literary criticism are incorporated fully and a complete understanding of stylistic values is fostered.

**A Rhetoric of Style** Barry Brummett, 2008-07-07 Exploring style in a global culture. In *A Rhetoric of Style*, Barry Brummett illustrates how style is increasingly a global system of communication as people around the world understand what it means to dress a certain way, to dance a certain way, to decorate a certain way, to speak a certain way. He locates style at the heart of popular culture and asserts that it is the basis for social life and politics in the twenty-first century. Brummett sees style as a system of signification grounded largely in image aesthetics and extrarational modes of thinking. He discusses three important aspects of this system: its social and commercial structuring, its political consequences, and its role as the chief rhetorical system of the modern world. He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition. It is through style that we stereotype or make assumptions about others: political identities, their sexuality, their culture, and their economic standing. To facilitate theoretical and critical analysis, Brummett develops a systematic rhetoric of style and then demonstrates its use through an in-depth exploration of gun culture in the United States. Armed with an understanding of how this rhetoric of style works methodologically, students and scholars alike will have the tools to do their own analyses. Written in clear and engaging prose, *A Rhetoric of Style* presents a novel discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty-first century.

**The Writer's Style** Paul Butler, 2018-12-21 Designed to help all writers learn to use style as a rhetorical tool, taking into

account audience purpose context and occasion The Writer s Style is not only a style guide for a new generation but a new generation of style guide The book helps writers learn new strategies inductively by looking at firsthand examples of how they operate rhetorically as well as deductively through careful explanations in the text The work focuses on invention allowing writers to develop their own style as they analyze writing from varied genres In a departure from the deficiency model associated with other commonly used style guides author Paul Butler encourages writers to see style as a malleable device to use for their own purposes rather than a domain of rules or privilege He encourages writing instructors to present style as a practical accessible and rhetorical tool working with models that connect to a broad range of writing situations including traditional texts like essays newspaper articles and creative nonfiction as well as digital texts in the form of tweets Facebook postings texts email visual rhetoric YouTube and others Though designed for use in first year composition courses in which students are learning to write for various audiences purposes and contexts The Writer s Style is a richly layered work that will serve anyone considering how style applies to their professional personal creative or academic writing

**History as Rhetoric** Ronald H. Carpenter,1995 In the realm of the written word Ronald Carpenter reserves a privileged place for historical writing He contends that because of its assumed credibility historical writing holds sway over the present attitudes and future actions of the general public and world leaders Through extensive primary source research into the public and private writings of such well known and widely read American historians as Frederick Jackson Turner Alfred Thayer Mahan and Allan Nevins Carpenter examines what happens to this inherently credible medium when rhetorical prowess helps shape the writing of history He also evaluates the power that such discourse exercises on the public at large and on individuals empowered with making public policy Carpenter explicates the roles of style and narrative in enabling the writers of history to persuade through opinion leadership a process whereby historical writing authoritatively corroborates what people have learned from other sources Carpenter portrays several American historians as successful opinion leaders who at pivotal points in time persuaded readers with their discourse

**Rhetoric and Style** Thomas de Quincey,2004-06 Many years ago when studying the Aristotelian rhetoric at Oxford it struck us that by whatever name Aristotle might describe the main purpose of rhetoric practically at least in his own treatment of it he threw the whole stress upon finding such arguments for any given thesis as without positively proving or disproving it gave it a colorable support We could not persuade ourselves that it was by accident that the topics or general heads of argument were never in an absolute and unconditional sense true
