Rhetoric Of Failure:

The Rhetoric of Failure Ewa Plonowska Ziarek, 1995-11-02 **The Rhetoric of Plato's Republic** James L.

Kastely, 2015-08-25 Plato isn't exactly thought of as a champion of democracy and perhaps even less as an important rhetorical theorist. In this book James L. Kastely recasts Plato in just these lights offering a vivid new reading of one of Plato's most important works the Republic. At heart Kastely demonstrates the Republic is a democratic epic poem and pioneering work in rhetorical theory. Examining issues of justice, communication, persuasion, and audience, he uncovers a seedbed of theoretical ideas that resonate all the way up to our contemporary democratic practices. As Kastely shows, the Republic begins with two interrelated crises: one rhetorical, one philosophical. In the first, democracy is defended by a discourse of justice, but no one can take this discourse seriously because no one can see in a world where the powerful dominate the weak how justice is a value in itself. That value must be found philosophically, but philosophy as Plato and Socrates understand it can reach only the very few. In order to reach its larger political audience, it must become rhetoric; it must become a persuasive part of the larger culture which at that time meant epic poetry. Tracing how Plato and Socrates formulate this transformation in the Republic, Kastely isolates a crucial theory of persuasion that is central to how we talk together about justice and organize ourselves according to democratic principles.

The Rhetoric of Heroic Expectations Justin S. Vaughn, Jennifer Mercieca, 2014-01-30 Campaign rhetoric helps candidates to get elected, but its effects last well beyond the counting of the ballots. This was perhaps never truer than in Barack Obama's 2008 campaign. Did Obama create such high expectations that they actually hindered his ability to enact his agenda? Should we judge his performance by the scale of the expectations his rhetoric generated or against some other standard? *The Rhetoric of Heroic Expectations* Establishing the Obama Presidency grapples with these and other important questions. Barack Obama's election seemed to many to fulfill Martin Luther King Jr.'s vision of the long arc of the moral universe bending toward justice. And after the terrorism war and economic downturn of the previous decade, candidate Obama's rhetoric cast broad visions of a change in the direction of American life. In these and other ways, the election of 2008 presented an especially strong example of creating expectations that would shape the public's views of the incoming administration. The public's high expectations in turn become a part of any president's burden upon assuming office. The interdisciplinary scholars who have contributed to this volume focus their analysis upon three kinds of presidential burdens: institutional burdens specific to the office of the presidency; contextual burdens specific to the historical moment within which the president assumes office; and personal burdens specific to the individual who becomes president.

A Bookseller's Hobby-Horse, and the Rhetoric of Translation Agnes M. Zwaneveld, 2022-06-13 A Bookseller's Hobby Horse and the Rhetoric of Translation is a study of the first Dutch translation of Tristram Shandy 1759-67 as a product of and factor in the reception of Sterne's novel in the Netherlands and as a specific manifestation of this reception a derived text based on interpretation of the original It took sixteen years for this translation to appear Why was this so And why did its publication 1776-79 prove unrewarding to the publisher To answer the first question Agnes Zwaneveld relates the development of Sterne's appreciation in the Netherlands from neglect in the 1760s to a literary craze in the 1780s to a number of socio-cultural factors including a growing interest in German literature This relation with German literature is reflected in the choice of books published by A. E. Munnikhuysen a Sterne enthusiast and conscientious publisher but also an outsider in the book trade whose audacity led to the commercial failure of his enterprise A different question tackled in this study is to what extent the translation reflects the original text Can it be accepted as a faithful rendering or rather as an adaptation an imitatio in the classical tradition To understand what norms the translator Bernardus Brunius followed and what effects he can have been aiming at his work is described in terms of the rhetorical theory of translation adhered to in his day To avoid subjectivity in assessing the resemblance between translation and original the comparison focuses on composition and the use of rhetorical figures as formal aspects which can be easily recognised across the centuries The textual comparison was limited to the opening chapter of Tristram Shandy seen as the novel's exordium in which both author and translator are likely to have made a show of their intentions Close reading of this chapter resulted in an interpretation of Tristram's authorial performance as inspired by both Quintilian and Longinus
