Irony in the Matthean Passion Narrative

In Hee C. Berg, 2014-05-01 Irony as used here is a rhetorical and literary device for revealing what is hidden behind what is seen. It thus offers the reader a superior understanding by means of the distinction between reality and its shadow. The book provides a history of different definitions of irony from Aristophanes to Booth, discusses the constitutive formal elements of irony and the functions of irony, then studies particular aspects of the Matthean Passion Narrative that require the reader to recognize a deeper truth beneath the surface of the narrative.

The Postmodern Bible George Aichele, Fred W.

Burnett, Robert M. Fowler, David Jobling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01

The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible. This book, argued from a perspective shaped by postmodernism, is at once an accessible guide to and an engagement with various methods, theories, and critical practices transforming biblical scholarship today. Written by a collective of cutting-edge scholars, with each page the work of multiple hands, *The Postmodern Bible* deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues. The book introduces, illustrates, and critiques seven prominent strategies of reading. Several of these interpretive strategies—rhetorical criticism, structuralism, and narratology, reader response criticism, and feminist criticism—have been instrumental in the transformation of biblical studies up to now. Many feminist and womanist criticism, ideological criticism, poststructuralism, and psychoanalytic criticism hold promise for the continued transformation of these studies in the future. Focusing on readings from both the Hebrew Bible and the New Testament, this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological, political, and ethical positions in the field of biblical studies.

Comparative Criticism: Volume 3 E. S. Shaffer, 1981-10-29 This 1981 volume addresses literary theory and criticism, comparative studies in terms of theme, genre, movement, and influence, and interdisciplinary perspectives.

Contemporary Perspectives on Rhetoric Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory. I. A. Richards, Ernesto Grassi, Chaim Perelman, and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard, and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful, and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications.

and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists

Citizen Critics Rosa A. Eberly, 2000 The condition of our public discussions about literary and cultural works has much to say about the condition of our democracy and the author argues for more public discourse in classrooms newspapers magazines etc to reclaim a public voice on national artistic matters In this revealing study of the links among literature rhetoric and democracy Rosa A Eberly explores the public debate generated by amateur and professional readers about four controversial literary works two that were censored in the United States and two that created conflict because they were not censored In *Citizen Critics* Eberly compares the outrage sparked by the publication of James Joyce's *Ulysses* and Henry Miller's *Tropic of Cancer* with the relative quiescence that greeted the much more violent and sexually explicit content of Bret Easton Ellis's *American Psycho* and Andrea Dworkin's *Mercy* Through a close reading of letters to the editor reviews media coverage and court cases Eberly shows how literary critics and legal experts defused censorship debates by shifting the focus from content to aesthetics and from social values to publicity By asserting their authority to pass judgments thus denying the authority of citizen critics these professionals effectively removed the discussion from literary public spheres A passionate advocate for treating reading as a public and rhetorical enterprise rather than solely as a private one Eberly suggests the potential impact a work of literature may have on the social polity if it is brought into public forums for debate rather than removed to the

exclusive rooms of literary criticism Eberly urges educators to use their classrooms as protopublic spaces in which students can learn to make the transition from private reader to public citizen

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the

Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies, and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

Encyclopedia of Rhetoric Thomas O. Sloane, 2001. The Encyclopedia of Rhetoric is a comprehensive survey of the latest research as well as the foundational teachings in this broad field. Featuring 150 original signed articles by leading scholars from many different fields of study, it brings together knowledge from classics, philosophy, literature, literary theory, cultural studies, speech and communications. The Encyclopedia surveys basic concepts, speaker style and audience elements, genres, terms, fallacies, figures of speech, and the rhetoric of non-Western cultures and cultural movements. It covers rhetoric as the art of proof and persuasion, as the language of public speech and communication, and as a theoretical approach and critical tool used in the study of literature, art, and culture at large, including new forms of communication such as the internet. The Encyclopedia is the most wide-ranging reference work of its kind, combining theory, history, and practice with a special emphasis on public speaking, performance, and communication. Cross references, bibliographies after each article, and synoptic and topical indexes further enhance the work. Written for students, teachers, scholars, and writers, the Encyclopedia of Rhetoric is the definitive reference work on this powerful discipline.

Philosophical Rhetoric Jeff Mason, 2016-08-12 This book originally published in 1989 discusses an issue central to all philosophical argument the relation between persuasion and truth The techniques of persuasion are indirect and not always fully transparent Whether philosophers and theoreticians are for or against the use of rhetoric they engage in rhetorical practice none the less Focusing on Plato Descartes Kant Kierkegaard Nietzsche and Wittgenstein this book uncovers philosophical rhetoric at work and reminds us of the rhetorical arena in which philosophical writings are produced and considered

Novels, Rhetoric, and Criticism: A Brief History of Belles Lettres and British Literary Culture, 1680 - 1900 Jack M. Downs, 2022-09-06 Developing a history of the English novel requires the inclusion of a vast range of cultural economic religious social and aesthetic influences But the role of eighteenth century English rhetorical theory in the emergence of the novel and the critical discourse surrounding that emergence has often been neglected or overlooked The influence of rhetorical theory in the development of the English novel is undeniable however and changes to rhetorical theory in Britain during the eighteenth century led to the development of a critical aesthetic discourse about the novel in Victorian England This study argues that eighteenth century belles lettres rhetorical theory played a key role in developing a horizon of expectation concerning the nature and purpose of the novel that extended well into the nineteenth century There is a connection between the emergence of the English novel eighteenth century rhetorical theory and Victorian novel criticism that has been neglected this study attempts to recover and articulate that connection
