## **Rhetoric Reclaimed Aristotle And The Liberal Arts Tradition:**

**Rhetoric Reclaimed** Janet Atwill,1998 Thoroughly embedded in postmodern theory this book offers a critique of traditional conceptions of the liberal arts Citing Aristotle s RHETORIC author Janet Atwill argues that liberal arts traditions eclipsed the power of rhetoric by transforming it from an art of disrupting and reinventing lines of power to a discipline defined by virtue but modeled on a specific gender and class type

**Aristotle's Ethics and Legal Rhetoric** FrancesJ. Ranney,2017-07-05 Taking the novel position of dealing with law classical rhetoric and feminism concurrently this book considers the effects of beliefs about language on those who attempt to theorize about and use law to accomplish practical and political purposes The author employs Aristotle s terminology to analyze economic and literary schools of thought in the US legal academy noting the implicit language theory underlying claims by major thinkers in each school about the nature of law and its relationship to justice The underlying assumption is that as law can only work through language beliefs about its relationship to justice are determined by assumptions about the nature of language In addition the author provides an alternative feminist rhetoric that being focused on the production of texts rather than their interpretation offers a practical ethic of intervention

**Sourcebook on Rhetoric , Rereading Aristotle's Rhetoric** Alan G. Gross,Arthur E. Walzer,2008-02-20 In this collection edited by Alan G Gross and Arthur E Walzer scholars in communication rhetoric and composition and philosophy seek to reread Aristotle s Rhetoric from a purely rhetorical perspective So important do these contributors find the Rhetoric in fact that a core tenet in this book is that all subsequent rhetorical theory is but a series of responses to issues raised by the central work The essays reflect on questions basic to rhetoric as a humanistic discipline Some explore the ways in which the Rhetoric explicates the nature of the art of rhetoric noting that on this issue the tensions within the Rhetoric often provide a direct passageway into our own conflicts

Rhetoric and Human Consciousness Craig R. Smith, 2012-12-04 The latest edition of *Rhetoric and Human Consciousness* remains a well researched accessible examination of rhetorical theory in Western civilization Smiths coverage of the major figures who advanced rhetoric is strengthened by his keen analysis of developments in rhetorical theory that resulted from its interaction with other disciplines and the cultures surrounding it The dialectic between rhetoric and other disciplines notably philosophy and psychology illuminate evolving definitions of rhetoric from myth and display to persuasion and symbolic inducement Well chosen engaging examples demonstrate how rhetoric can find truths particularly at times when science and reason fail to solve important human crises Paramount to this well wrought survey is Smiths ability to show that rhetorical criticism illustrates verifies and refines rhetorical theory Thus the synergistic relationship between theory and criticism in rhetoric is no different than in other arts Chief among the Fourth Editions enhancements are expanded discussions of the historical context for the creation of rhetorical theory and its use in public address additional coverage of Isocrates Cicero Machiavelli Kenneth Burke and Michel Foucault new material on the rhetoric of civil religion ideological criticism constitutive discourse and feminist rhetorical theory and many fresh examples Each chapter ends with questions that sharpen readers retention of concepts and the ability to apply those to everyday life

**A New Handbook of Rhetoric** Michele Kennerly, 2021-09-09 Like every discipline Rhetorical Studies relies on a technical vocabulary to convey specialized concepts but few disciplines rely so deeply on a set of terms developed so long ago Pathos kairos doxa topos these and others originate from the so called classical world which has conferred on them excessive authority Without jettisoning these rhetorical terms altogether this handbook addresses critiques of their ongoing relevance explanatory power and exclusionary effects A New Handbook of Rhetoric inverts the terms of classical rhetoric by applying to them the alpha privative a prefix that expresses absence Adding the prefix to more than a dozen of the most important terms in the field the contributors to this volume build a new vocabulary for rhetorical inquiry Essays on apathy akairos adoxa and atopos among others explore long standing disciplinary habits reveal the denials and privileges inherent in traditional rhetorical inquiry and theorize new problems and methods Using this vocabulary in an analysis of current politics media and technology the essays illuminate aspects of contemporary culture that traditional rhetorical theory often overlooks Innovative and groundbreaking A New Handbook of Rhetoric at once draws on and unsettles ancient Greek rhetorical terms opening new avenues for studying values norms and phenomena often stymied by the tradition In addition to the editor the contributors include Caddie Alford Benjamin Firgens Cory Geraths Anthony J Irizarry Mari Lee Mifsud John Muckelbauer Bess R H Myers Damien Smith Pfister Nathaniel A Rivers and Alessandra Von Burg

R. Jarrod Atchison, 2017-06-06 A rhetorical analysis of Jefferson Davis's public discourse **Figures of Entanglement**

Christopher N. Gamble, Joshua S. Hanan, 2021-07-28 Recent and ongoing new materialisms scholarship seeks to fundamentally reshape the humanities and their relationship with the sciences While this work comprises multiple and varied currents one of the most important yet whose distinctive merits are arguably often underappreciated is that influenced by the theoretical physicist and feminist philosopher Karen Barad The first volume devoted to bringing Barad's work into conversation with the disciplines of rhetoric and communication studies this collection organizes that conversation primarily around her notion of entanglement which encourages an understanding of meaning as inherently performative material and ecological In doing so the essays in this collection variously approach rhetoric as a figure of entanglement in ways that contribute to and enrich both rhetoric and Barad's theorizing Topics range from politics to breast cancer genealogy the trope of academic turns Marx's notion of exchange and the prehistoric emergence of human consciousness With a new foreword by the editors and afterword by Laurie E. Gries this collection is otherwise reprinted from the 2016 **Figures of Entanglement** special issue of the journal *Review of Communication*

**Ambient Rhetoric** Thomas J. Rickert, 2013-05-10 In *Ambient Rhetoric* Thomas Rickert seeks to dissolve the boundaries of the rhetorical tradition and its basic dichotomy of subject and object With the advent of new technologies new media and the dispersion of human agency through external information sources rhetoric can no longer remain tied to the autonomy of human will and cognition as the sole determinants in the discursive act Rickert develops the concept of ambience in order to engage all of the elements that comprise the ecologies in which we exist Culling from Martin Heidegger's hermeneutical phenomenology in *Being and Time* Rickert finds the basis for ambience in Heidegger's assertion that humans do not exist in a vacuum there is a constant and fluid relation to the material informational and emotional spaces in which they dwell Hence humans are not the exclusive actors in the rhetorical equation agency can be found in innumerable things objects and spaces As Rickert asserts it is only after we become attuned to these influences that rhetoric can make a first step toward sufficiency Rickert also recalls the foundational Greek philosophical concepts of *kairos* time *chora* space place and *periechon* surroundings and cites their repurposing by modern and postmodern thinkers as informational scaffolding for how we reason feel and act He discusses contemporary theory in cognitive science rhetoric and object oriented philosophy to expand his argument for the essentiality of ambience to the field of rhetoric Rickert then examines works of ambient music that incorporate natural and artificial sound spaces and technologies finding them to be exemplary of a more fully resonant and experiential media In his preface Rickert compares ambience to the fermenting of wine how its distinctive flavor can be traced to innumerable factors including sun soil water

region and grape variety The environment and company with whom it is consumed further enhance the taste experience And so it should be with rhetoric to be considered among all of its influences As Rickert demonstrates the larger world that we inhabit and that inhabits us must be fully embraced if we are to advance as beings and rhetors within it      **Sourcebook on Rhetoric** James Jasinski, 2001-07-19 This book is designed to introduce readers to the language of contemporary rhetorical studies The book format is an alphabetized glossary with appropriate cross listings of key terms and concepts in contemporary rhetorical studies An introductory chapter outlines the definitional ambiguities of the central concept of rhetoric itself The primary emphasis is on the contemporary tradition of rhetorical studies as it has emerged in the discipline of speech communication Each entry in the glossary ranges in length from a few paragraphs to a short essay of a few pages Where appropriate examples are provided to further illustrate the term or concept Each entry will be accompanied by a list of references and additional readings to direct the reader to other materials of possible interest      **Community Literacy and the Rhetoric of Local Publics** Elenore Long, 2008-03-22 Offering a comparative analysis of community literacy studies Community Literacy and the Rhetoric of Local Publics traces common values in diverse accounts of ordinary people going public Elenore Long offers a five point theoretical framework Used to review major community literacy projects that have emerged in recent years this local public framework uncovers profound differences with significant consequence within five formative perspectives 1 the guiding metaphor behind such projects 2 the context that defines a local public shaping what is an effective even possible performance 3 the tenor and affective register of the discourse 4 the literate practices that shape the discourse and most significantly 5 the nature of rhetorical invention or the generative process by which people in these accounts respond to exigencies such as getting around gatekeepers affirming identities and speaking out with others across difference      **Crossing Borders, Drawing Boundaries** Barbara Couture, Patti Wojahn, 2016-03-01 With growing anxiety about American identity fueling debates about the nation's borders ethnicities and languages Crossing Borders Drawing Boundaries provides a timely and important rhetorical exploration of divisionary bounds that divide an Us from a Them The concept of border calls for attention and the authors in this collection respond by describing it challenging it confounding it and at times erasing it Motivating us to see anew the many lines that unite divide and define us the essays in this volume highlight how discourse at borders and boundaries can create or thwart conditions for establishing identity and admitting difference Each chapter analyzes how public discourse at the site of physical or metaphorical borders presents or confounds these conditions and consequently effective participation a key criterion for a modern democracy The settings are various encompassing vast public spaces such as cities and areas within them the rhetorical spaces of history books museum displays activist events and media outlets and the intimate settings of community and classroom conversations Crossing Borders Drawing Boundaries shows how rich communication can be when diverse cultures intersect and create new opportunities for human connection even while different populations cultures age groups and political parties adopt irreconcilable positions It

Topping, 2012-07-11 Happiness and Wisdom contributes to ongoing debates about the nature of Augustine's early development and argues that Augustine's vision of the soul's ascent through the liberal arts is an attractive and basically coherent view of learning which while not wholly novel surpasses both classical and earlier patristic renderings of the aims of education **The Rhetoric of Pope Francis** Christopher J. Oldenburg, 2018-10-17 What is it about the rhetoric of one of the most influential and powerful religious leaders in the world and in history Pope Francis that is so engaging and yet so challenging to the Church writ large the American Congress the news media and the world The Rhetoric of Pope Francis Critical Mercy and Conversion for the Twenty first Century provides extensive insight into this question through a close in depth rhetorical analysis of Pope Francis's visual spatial tactile written and oral discourse This analysis reveals how the interrelated topoi of illness space mercy and conversion converge to articulate Francis's vision for the Church Under Francis the Catholic Church's virtue of mercy gets renewed and redeployed to papal pastoral and political sites for the purpose of conversion Each chapter identifies several of Francis's dominant rhetorical strategies These pope tropes take the form of existing and widely held Catholic beliefs that while stable still invite interpretation disputation and open dialogue Studying Francis's various discourses provides us with an exemplary paradigm from which we can learn much about faith humility love and papal rhetoric's transformative capacity to help us live more compassionate lives

**The Cultivation of Character and Culture in Roman Rhetorical Education** Anthony Edward Zupancic, 2023-08-04 At its very center The Cultivation of Character and Culture in Roman Rhetorical Education The Available Means is a study of the subtle organic ways that rhetoric can work to cultivate a particular character This is an extension of the current work in composition studies which focus on the ways that writing instruction contributes to the development of individual power and agency in students combined with an ancient understanding of the ways that students learned to act within a particular accepted cultural framework It recognizes and reclaims a lost dimension of rhetoric a dimension that is conceptually linked to the martial culture of the ancient world to show how ancient rhetorical theory framed the discipline as an education in thinking speaking and acting in ways that were necessary to be both a persuasive speaker and an effective leader Through close readings and analysis of particular rhetorical exercises the book shows how rhetorical education shaped characters that were appropriate in the eyes of the dominant culture but were also capable of working independently to progressively alter that culture In showing the ways that rhetorical education shaped a particular character the book demonstrates the ways that the combination character culture and virtue are vital to leadership in any time
