Rhetoric Retold Regendering The Tradition From Antiquity Through The Renaissance:

Rhetoric Retold Cheryl Glenn, 1997 After explaining how and why women have been excluded from the rhetorical tradition from antiquity through the Renaissance Cheryl Glenn provides the opportunity for Sappho Aspasia Diotima Hortensia Fulvia Julian of Norwich Margery Kempe Margaret More Roper Anne Askew and Elizabeth I to speak with equal authority and as eloquently as Plato Aristotle Cicero and Augustine Her aim is nothing less than regendering and changing forever the history of rhetoric To that end Glenn locates women s contributions to and participation in the rhetorical tradition and writes them into an expanded inclusive tradition She regenders the tradition by designating those terms of identity that have promoted and supported men s control of public persuasive discourse the culturally constructed social relations between the appropriate roles for and the subjective identities of women and men Glenn is the first scholar to contextualize analyze and follow the migration of women s rhetorical accomplishments systematically To locate these women she follows the migration of the Western intellectual tradition from its inception in classical antiquity and its confrontation with and ultimate appropriation by evangelical Christianity to its force in the medieval Church and in Tudor arts and politics

Language and Power on the Rhetorical Stage Fiona Harris Ramsby, 2020-12-30 Through a fusion of narrative and analysis *Language and Power on the Rhetorical Stage* examines how theater can enact critical discourse analysis and how micro instances of iniquitous language use have been politically and historically reiterated to oppress and deny equal rights to marginalized groups of people Drawing from Aristophanes rhetorical plays as a template for rhetoric in action the author poses the stage as a rhetorical site whereby we can observe see and feel 20th century rhetorical theories of the body Using critical discourse analysis and Judith Butler s theories of the performative body as a methodological and analytical lens the book explores how a handful of American plays in the latter part of the 20th century the works of Tony Kushner Suzan Lori Parks and John Cameron Mitchell among others use rhetoric in order to perform and challenge marginalizing language about groups who are not offered center stage in public and political spheres This innovative study initiates a conversation long overdue between scholars in rhetorical and performance studies as such it will be essential reading for academic researchers and graduate students in the areas of rhetorical studies performance studies theatre studies and critical discourse analysis

Democratizing Biblical Studies Elisabeth Schüssler Fiorenza,2009-01-01 Schu ssler

Fiorenza addresses such questions as What are the educational practices and procedures that are advocated by traditional educational models and how can they be changed What kinds of educational and communicative practices do biblical studies need to develop in order to fashion an emancipatory democratizing rhetorical space and a forum of many voices To envision articulate debate and practice a radical democratic ethos of biblical studies she identifies emerging didactic models that can foster such a radical democratic style of learning Pbk cover **Rhetoric, History, and Women's Oratorical Education**

David Gold, Catherine L. Hobbs, 2013-05-02 Historians of rhetoric have long worked to recover women's education in reading and writing but have only recently begun to explore women's speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future tracing the shifting arc of women's oratorical training as it develops from forms of eighteenth century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women's oratorical forms such as elocution and parlor rhetorics and women's responses to rhetorical constraints on their public speaking Enriching our understanding of women's oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication Rhetoric and Ethic Elisabeth Schüssler Fiorenza, In this major study leading feminist biblical critic Elisabeth Schussler Fiorenza focuses on Paul and his interpreters She questions the apolitical ethos of biblical scholarship and argues for an alternative rooted in a critical understanding of language as a form of power Modern biblical criticism she reasons derives much of its methodology and inspiration from an outdated notion of modern science It professes value neutrality and detachment from the world of politics and history Yet Schussler Fiorenza maintains this posture belies an objectivity that fails to engage the sociopolitical context of both the text and today's reader It also does not recognize the rhetorical character of biblical texts and readings If language is understood in the sense of ancient rhetorics as a form of power that constitutes reality then an ethics of interpretation is called for The task of biblical studies is to identify and assess the ethical resources and moral visions of biblical religions Only then Schussler Fiorenza contends will biblical studies be a significant partner in the global struggles seeking justice and well being for all **Rhetoric and Composition** Steven Lynn, 2010-09-30 An accessible introduction to teaching and studying rhetoric and composition **Rhetoric, Ethic, and Moral Persuasion in Biblical Discourse** Thomas H. Olbricht, Anders Eriksson, 2005-10-27 A collection of essays from the Heidelberg conference on rhetoric and the New Testament **"Women and the Material Culture of Needlework and Textiles, 1750-1950"** Maureen Daly Goggin, 2017-07-05 Rejecting

traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

The Ethical Fantasy of Rhetorical Theory

Ira Allen, 2018-07-10 Despite its centrality to its field there is no consensus regarding what rhetorical theory is and why it matters The Ethical Fantasy of Rhetorical Theory presents a critical examination of rhetorical theory throughout history in order to develop a unifying vision for the field Demonstrating that theorists have always been skeptical of yet committed to truth however fantastic Ira Allen develops rigorous notions of truth and of a troubled freedom that spring from rhetoric's depths In a sweeping analysis from the sophists Aristotle and Cicero through Kenneth Burke Cha m Perelman and Lucie Olbrechts Tyceta and contemporary scholars in English communication and rhetoric's other disciplinary homes Allen offers a novel definition of rhetorical theory as the self-consciously ethical study of how humans and other symbolic animals negotiate constraints

Rhetorics of Motherhood Lindal Buchanan, 2013-04-08 Becoming a mother profoundly alters one's perception of the world as Lindal Buchanan learned firsthand when she gave birth Suddenly attentive to representations of mothers and mothering in advertisements fiction film art education and politics she became intrigued by the persuasive force of the concept of motherhood an interest that unleashed a host of questions How is the construct defined How are maternal appeals crafted presented and performed What do they communicate about gender and power How do they affect women Her quest for answers has produced Rhetorics of Motherhood the first book-length consideration of the topic through a feminist rhetorical lens Although both male and female rhetors employ motherhood to promote themselves and their agendas Buchanan argues it is particularly slippery terrain for women on the one hand affording them authority and credibility but on the other positioning them disadvantageously within the gendered status quo Rhetorics of Motherhood investigates that paradox by detailing the cultural construction and performance of the Mother in American public discourse tracing its use and impact in three case studies and by theorizing how when and why maternal discourses work to women's benefit or detriment In the process the reader encounters a fascinating array of issues including birth control civil rights and abortion

and rhetors ranging from Diane Nash and Margaret Sanger to Sarah Palin and Michelle Obama As Buchanan makes clear motherhood is a rich site for investigating the interrelationships among gender power and public discourse Her latest book contributes to the discipline of rhetoric by attending to and making a convincing case for the significance of this understudied subject With its examination of timely controversies contemporary and historical figures and powerful women Rhetorics of Motherhood will appeal to a wide array of readers in rhetoric communications American studies women s studies and beyond

Transforming Vision Elisabeth Schussler Fiorenza, 2011 Elisabeth Schussler Fiorenza describes the theoretical and liberative theological commitments that orient her pioneering biblical scholarship including the use of critical theory analysis of interacting social political economic and religious oppressions and promotion of a genuinely emancipatory and democratic community of equals in academy church and wider society alike

Rhetoric and Resilience Sara Hillin, 2024-10-08 Rhetoric and Resilience explores discourse produced about and by the women involved in the World War II era Women Airforce Service Pilots program Aviators such as Jacqueline Cochran and Nancy Harkness Love provided the initial rhetorical boost to successfully launch the program while countless other pilots such as Cornelia Fort and Barbara Poole wrote to define the significance of the work the WASP were doing Despite a formidable amount of concrete evidence in her favor Cochran was unsuccessful in having WASP militarized After the program s disbandment in 1944 the women of WASP settled back into civilian life but maintained strong rhetorical bonds which served them greatly in the 1970s campaign for veteran status Using the lenses of both feminist rhetorical theory and classical rhetoric this book seeks to recover these rhetorics The chapters illustrate how the women employed a spectrum of strategies carefully designed to provide a fitting response to those both supportive of and hostile to their labor in the arena of military aviation

Gentry Rhetoric Daniel Ellis, 2022-12 Gentry Rhetoric examines the full range of influences on the Elizabethan and Jacobean genteel classes practice of English rhetoric in daily life Daniel Ellis surveys how the gentry of late sixteenth and early seventeenth century Norfolk wrote to and negotiated with each other by employing Renaissance humanist rhetoric both to solidify their identity and authority in resisting absolutism and authoritarianism and to transform the political and social state The rhetorical training that formed the basis of their formal education was one obvious influence Yet to focus on this training exclusively allows only a limited understanding of the way this class developed the strategies that enabled them to negotiate argue and conciliate with one another to such an extent that they could both

form themselves as a coherent entity and become the primary shapers of written English's style arrangement and invention. Gentry Rhetoric deeply and inductively examines archival materials in which members of the gentry discuss debate and negotiate matters relating to their class interests and political aspirations. Humanist rhetoric provided the bedrock of address argumentation and negotiation that allowed the gentry to instigate a political and educational revolution in seventeenth and eighteenth century England.

A Short History of Writing Instruction James J. Murphy, 2012-05-04 Short enough to be synoptic yet long enough to be usefully detailed. A Short History of Writing Instruction is the ideal text for undergraduate courses and graduate seminars in rhetoric and composition. It preserves the legacy of writing instruction from antiquity to contemporary times with a unique focus on the material educational and institutional context of the Western rhetorical tradition. Its longitudinal approach enables students to track the recurrence over time of not only specific teaching methods but also major issues such as social purpose writing as power, the effect of technologies, the rise of vernaculars, and writing as a force for democratization. The collection is rich in scholarship and critical perspectives which is made accessible through the robust list of pedagogical tools included such as the Key Concepts listed at the beginning of each chapter and the Glossary of Key Terms and Bibliography for Further Study provided at the end of the text. Further additions include increased attention to orthography or the physical aspects of the writing process, new material on high school instruction, sections on writing in the electronic age, and increased coverage of women rhetoricians and writing instruction of women. A new chapter on writing instruction in Late Medieval Europe was also added to augment coverage of the Middle Ages, fill the gap in students' knowledge of the period, and present instructional methods that can be easily reproduced in the modern classroom.

A Short History of Writing Instruction James Jerome Murphy, 2012. A Short History of Writing Instruction preserves the legacy of writing instruction from antiquity to contemporary times with a unique focus on the material educational and institutional context of the Western rhetorical tradition.
