impulse when I decided to collect into a single volume the essays on topics in logical theory and related subjects that I have written in the last fifteen years was to borrow from the title of a work by Sextus Empiricus and call my collection Against the Logicians Although the essays address a variety of problems that interest me the thread that runs through them is a scepticism about how logicians see things So the title appealed to me However I had second thoughts and chose instead a title of one of my own essays In Defense of Informal Logic which emphasizes my support for other approaches Although my criticisms of logical theory are designed to cut deeply I do not want to be unresponsive to the needs that it is supposed to satisfy However my position that we have adequate resources for critically analyzing a particular argument and do not need a theory of argumentation will not completely satisfy those who think that there is a need for it So I want them to know that I am taking their concerns seriously **The Official ACT English Guide** ACT,2021-04-29 The ACT official subject guides are
