RIDGEBACK PUPPY is a need to have for your bookshelf. Dogs Rachael Hale, 2008-04 Showcases a treasury of adorable and adoring doggies. **Canis Africanis** Lance Van Sittert, Sandra Scott Swart, 2008 The role of the dog in human society is the connecting thread that binds the essays in *Canis Africanis*, each revealing a different part of the complex social history of southern Africa. The essays range widely from concerns over disease, bestiality, and social degradation through gambling on dogs to anxieties over social status reflected through breed classifications and social rebellion through resisting the dog tax imposed by colonial authorities. With its focus on dogs in human history, this project is part of what has been termed the animal turn in the social sciences, which investigates the spaces which animals inhabit in human society and the way in which animal and human lives interconnect, demonstrating how different human groups construct a range of identities for themselves and for others in terms of animals. So instead of conceiving of animals as merely constituents of ecological or
