Scannell,1898 The Global Edwards Rhys S. Bezzant,2017-10-20 In a globalized world networks are key whether they are networks of people ideas or interests In this volume of essays on the texts and teachings of Jonathan Edwards contributors from each continent ask questions about how the world of Edwards explains or illuminates the world of today whether in the area of systematics missions historiography politics church planting or biblical studies Such diverse discourses enrich the networks of scholarship that the contributors represent and provide a global snapshot of contemporary research in Edwards studies These papers were presented in August 2015 at the Jonathan Edwards Congress held at Ridley College in Melbourne Australia where personal engagement with the topics at hand made the worldwide network of Edwards aficionados and scholars not merely a virtual aspiration but an experience in time and space This book will not only inform its readers but surprise them as well as they track the power of eighteenth century theological ideas in the late modern world The Evernight Dominion: The Curse of the Sleepless Stars Madeline Novak, "Everyman," with other interludes, including eight miracle plays Various,2019-11-19 Everyman with other interludes including eight miracle plays is a seminal work of late medieval drama that deftly showcases the rich tapestry of spiritual and moral exploration prevalent during the period Written in Middle English the play employs allegorical characters and stark dialogue to convey complex themes of life death and redemption The miracle plays included serve as historical narratives that illuminate biblical events offering audiences both entertainment and moral instruction through their vivid storytelling and engaging performances Together these works reflect the transition from ecclesiastical to professional theatre marking a significant evolution in dramatization techniques The authorship of Everyman remains anonymous attributed to a collective of playwrights who were influenced by the medieval morality plays that preceded them This period saw a burgeoning interest in introspective spirituality and humanist thought likely motivating the work s exploration of the individual s struggle against the inevitability of death The inclusion of interludes and miracle plays illustrates the collaborative theatrical culture where diverse storytelling methods were employed to convey profound human experiences For readers and scholars alike this compilation is an essential reflection of the societal and theological currents of the late medieval period It is not merely a reading experience it invites contemplation of profound existential questions that resonate through time I recommend this work to anyone interested in the foundations of English literature drama and the exploration of human morality *Resisting Bodies* Helga Druxes,1996 Helga Druxes study of the female protagonists in novels by German writer Monika Maron British writers Margaret Drabble and Jean Rhys and French writer Marguerite Duras brings together the work of four prominent contemporary women authors In discussing the position of women in urban spaces from the point of view of feminist and cultural theory Druxes combines anthropology and recent literary theory within the framework of cultural studies She addresses such concerns as the objectification commodification of women in late capitalist society the possibilities for resistant or subversive female agency under these conditions and the role of specifically urban arrangements of space in both effecting this objectification and creating the sites
