*Rhythmic Form in Art. An Investigation of the Principles of Composition in the Works of the Great Masters. With ... Illustrations* Irma Anne Richter, 1932 ***Rhythmic Form in Art. An Investigation of the Principles of Composition in the Works of the Great Masters, Etc*** Irma Anne RICHTER, 1932 *The Encyclopedia Americana*, 1927 ***Mondrian's Philosophy of Visual Rhythm*** Eiichi Tosaki, 2017-11-15 This volume investigates the meaning of visual rhythm through Piet Mondrian's unique approach to understanding rhythm in the compositional structure of painting drawing reference from philosophy aesthetics and Zen culture Its innovation lies in its reappraisal of a forgotten definition of rhythm as stasis or composition which can be traced back to ancient Greek thought This conception of rhythm the book argues can be demonstrated in terms of pictorial strategy through analysis of East Asian painting and calligraphy with which Greek thought on rhythm has identifiable commonalities The book demonstrates how these ideas about rhythm draw together various threads of intellectual development in the visual arts that cross disparate aesthetic cultural practices As an icon of early 20th Century Modernism Mondrian's neoplasticism is a serious painterly and philosophical achievement In his painting Mondrian was deeply influenced by Theosophy which took its influence from Eastern aesthetics particularly East Asian and Indian thought However Mondrian's approach to visual rhythm was so idiosyncratic that his contribution to studies of visual rhythm is often under recognized This volume shows that a close inspection of Mondrian's own writing thinking and painting has much to tell scholars about how to understand a long forgotten aspect of visual rhythm Rodin's famous criticism of photography athlete in motion is forever frozen can be applied to Muybridge's zoopraxiscope the Futurists rendition of stroboscopic images and Duchamp's *Nude Descending a Staircase* Through a comparative study between Mondrian's painting and these seminal works this volume initiates a new convention for the cognition of the surface of painting as visual

rhythm Mondrian's simultaneous emphasis on the static and the rhythmic is hardly fodder for a publicist Eiichi Tosaki has taken on the challenge of elucidating Mondrian's theories of rhythm and particularly his conception of static rhythm The result is a tour de force that will forever alter the reader's encounter with the works of Mondrian Prof Kathleen Higgins

*Rhythm across the arts and sciences: A synergy of research* Adina Mornell, Frank Heuser, Bettina E. Bläsing, Horst Hildebrandt, 2023-05-05 *Rhythmic Modernism* Helen Rydstrand, 2019-01-24 Contrary to the common view that cultural modernism is a broadly anti-mimetic movement one which turned away from traditional artistic goals of representing the world Rhythmic Modernism argues that rhythm and mimesis are central to modernist aesthetics Through detailed close readings of non-fiction and short stories Helen Rydstrand shows that textual rhythms comprised the substance of modernist mimesis Rhythmic Modernism demonstrates how many modernist writers such as D H Lawrence Katherine Mansfield and Virginia Woolf were profoundly invested in mimicking a substratum of existence that was conceived as rhythmic each displaying a fascination with rhythm both as a formal device and as a vital protean concept that helped to make sense of the complex modern world

Ballard, 2012-12-06 Aesthetics fledgling of the philosophic brood is the most suspect of that family It is suspected of all the philosophical sins vagueness disorder dogmatism emotionalism reductionism compartmentalization Sometimes its youth is thought to be a sufficient excuse for these divagations Sometimes the very

nature of its content involving the waywardness of genius the remoteness of feeling from intellect the surd of inspiration in even the mildest appreciation are believed to condemn aesthetics irrevocably to the underside of the civilized man's domain. Some philosophers have gloried in this apparently mystical and a rational quality and have seen in it the very nature of the beautiful others have come to regard it rather as evidence of the unskillfulness of our minds and have turned away from aesthetic problems to the task of sharpening the aesthetician's language and logic. The laughter of the gods is not difficult to discern through the poetry of the more mystical aesthetician or through the prose of the analysts. Meanwhile the manifold complexities and problems of aesthetic experience invite our understanding. For aesthetic experience is a present fact of human life and may perhaps be understood by men. Such at least will be the present assumption. This is the reason why the title of this book mentions art together with analysis for if art is intelligible the work of art and the experience of it may be analyzed into its functional parts.

*Art and Its Significance* Stephen David Ross, 1994-01-27 This anthology has been significantly expanded for this edition to include a wider range of contemporary issues. The most important addition is a new section on multicultural theory including important and controversial selections ranging from discussions of art in other cultures to discussions of the appropriation of non-Western art in Western cultures. The material from Kant's Critique of Judgment has been expanded to include his writing on aesthetical ideas and the sublime. The selections from Derrida have been updated and considerably expanded for this edition primarily from *The Truth in Painting*. One of Derrida's most interesting provocations has also been added his letter to Peter Eisenman on architecture. In addition the section on feminist theory now includes a chapter from Irigaray's *Speculum of the Other Woman*. The anthology includes the most important writings on the theory of art in the Western tradition including selections from Plato Aristotle Hume Kant Hegel and Nietzsche the most important philosophical writings of the last hundred years on the theory of art including selections from Collingwood Langer Goodman Heidegger and Merleau-Ponty contemporary Continental writings on art and interpretation including selections from Gadamer Ricoeur Derrida Lyotard and Foucault also writings on the psychology of art by Freud and Jung from the Frankfurt School by Benjamin Adorno and Marcuse in feminist theory multiculturalism and postmodernism. The anthology also includes twentieth century writings by artists including discussions of futurism suprematism and conceptual art. This Second Edition of *Introduction to Landscape Design* offers even broader coverage of the environmental human technological and aesthetic issues associated with landscape design than the first edition. Beginning with the way we perceive manage and design the landscape it moves on to explore the forces that influence land design. An overview of landscape management planning and design includes a discussion of the roles and integration of the professions involved modes of professional practice and site scale design processes.
