Rhythms And Cycles Human Basics According To World Religions:

Encyclopedia of Love in World Religions Yudit Kornberg Greenberg, 2007-11-15 This is the first comprehensive resource on the subject of love in the teachings of the world's major religions, cultures, and philosophies. *Encyclopedia of Love in World Religions* is the first reference work to offer a comprehensive portrait of love in the context of the classic and contemporary literature of Judaism, Christianity, Islam, Buddhism, and Hinduism, as well as other cultures and philosophies. Like no volume published to date, it reveals the full richness of religious teachings on love in all its many forms, exploring an extensive range of topics that offer philosophical, psychological, and religious perspectives to guide the quest for the meaning of love. *Encyclopedia of Love in World Religions* features approximately 300 subject entries, as well as insightful biographic sketches of preeminent thinkers, all written by a multidisciplinary team of some of the foremost scholars on the subject. Entries examine both general and culture-specific interpretations of love, not just the dichotomy of spiritual and physical love, but the full emotional spectrum of love in relationships and practices. Collectively, they encompass love's integral and sometimes conflicting role in shaping beliefs and behavior in a vastly diverse world. *Myth and Religion in Mircea Eliade* Douglas Allen, 2002 This is an interesting study with a great deal of information on Eliade's main themes and a detailed account of his understanding of myth. *Encyclopedia of Love in World Religions [2 Volumes]* Yudit Kornberg Greenberg, 2008 This is the first comprehensive resource on the subject of love in the teachings of the world's major religions, cultures, and philosophies. *Encyclopedia of Love in World Religions* is the first reference work to offer a comprehensive portrait of love in the context of the classic and contemporary literature of Judaism, Christianity, Islam, Buddhism, and Hinduism, as well as other cultures and philosophies. Contributions from nearly 200 distinguished international scholars representing diverse religious traditions and cultures. A vivid and informative illustration program of classic art drawings and photographs representing love in the full spectrum of the world's spiritual cultures. Bibliographies of key sources for each entry, with citations from a variety of disciplines: religion, philosophy, history, anthropology, and more. Indexes organized by concepts, titles of classic texts, and religions. *Rhythms of the Brain* Gyorgy Buzsaki, 2006-08-03 This book provides eloquent support for the idea that spontaneous neuron activity far

from being mere noise is actually the source of our cognitive abilities In a sequence of cycles Gyrgy Buzsáki guides the reader from the physics of oscillations through neuronal assembly organization to complex cognitive processing and memory storage His clear fluid writing accessible to any reader with some scientific knowledge is supplemented by extensive footnotes and references that make it just as gratifying and instructive a read for the specialist The coherent view of a single author who has been at the forefront of research in this exciting field this volume is essential reading for anyone interested in our rapidly evolving understanding of the brain

Mircea Eliade's Vision for a New Humanism David Cave, 1993 Mircea Eliade influential writer and scholar of religion envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols Eliade foresaw this restoration of meaning bringing about a new humanism of existential meaning and cultural religious unity but left it ambiguously defined Cave sets forward a structural description of what this new humanism might have meant for Eliade and what it signifies for modern culture through a biographical exegesis of Eliade's life and writings from his early years in Romania to his last years as professor of the history of religions at the University of Chicago Addressing Eliade's political associations and espousals on Romanian politics and culture theories on myth and symbols existential and comparative hermeneutics literature of the fantastic interpretation of homo religiosus views on the loss of meaning in modern consciousness and on the cosmic spirituality of archaic humans as well as other subjects Cave sets these topics within the totality of Eliade's oeuvre and evaluates them through the lens of the new humanism Cave's book is the first to organize and evaluate the whole of Eliade's work around a guiding principle and on Eliade's own terms To augment the new humanism Cave uses data and themes from the history of religions and draws on philosophy anthropology psychology modern science and literary studies The result is a broad and probing overview of this most influential enigmatic and frequently controversial man Cave concludes by endorsing Eliade's radically pluralistic vision which he argues offers a key to the revitalization of our demythologized and material culture Cave also repositions previous Eliadean studies and places the new humanism as the paradigm in relation to which future readings of Eliade should be evaluated

Nature, Technology, and Society Victor Ferkiss, 1994-11 Traces cultural attitudes toward the environment and technology across the span of human civilization While all human societies have enlisted technologies to control nature the last hundred years have witnessed the technological exploitation and destruction of natural resources on an unprecedented scale As environmental groups and the scientific community sound the alarm about deforestation global warming and ozone depletion the obvious question arises how did we get where we are today In *Nature Technology and Society* Victor Ferkiss sets out to answer this central question arguing that we cannot escape from our present environmental predicament unless we understand the ideas which have created it Ferkiss asks the basic questions concerning humans and their relationship to the environment He traces cultural attitudes towards the environment from early mankind to the present day This fascinating book is distinctive both in its comprehensiveness and in its attempt to place side by side influential

perspective and actual practice of Latinos over the centuries It offers a distinctive take on the actual belief and enculturation of the sacraments in the Latino experience and context Due to the growing presence of Hispanics in this country churches are looking for new and innovative ways to fit them into their congregations The existence of Hispanics and more importantly the value of their religious experiences are being gradually accepted in theological societies Eduardo Fernandez and James Empereur's new book fills the need for a more comprehensive and richer context for sacramental theology As the newest book in the Celebrating Faith Series it is ideal for theology courses as well as directors of ministerial programs and their students who are looking to place Hispanic sacramentality in the larger framework of sacramental theology

Conflicting Stories Elizabeth Ammons, 1992-10-01 The early 1890s through the late 1920s saw an explosion in serious long fiction by women in the United States Considering a wide range of authors African American Asian American white American and Native American this book looks at the work of seventeen writers from that period Frances Ellen Harper Charlotte Perkins Gilman Sarah Orne Jewett Alice Dunbar Nelson Kate Chopin Pauline Hopkins Gertrude Stein Mary Austin Sui Sin Far Willa Cather Humishuma Jessie Fauset Edith Wharton Ellen Glasgow Anzia Yezierska Edith Summers Kelley and Nella Larsen The discussion focuses on the differences in their work and the similarities that unite them particularly their determination to experiment with narrative form as they explored and voiced issues of power for women Analyzing the historical context that both enabled and limited American women writers at the turn of the century Ammons provides detailed readings of many texts and offers extensive commentary on the interaction between race and gender This book joins the deepening discussion of modern women writers creation of themselves as artists and raises fundamental questions about the shape of American literary history as it has been constructed in the academy

Creator Peter J. Leithart, 2023-12-05 Discussion about God's work of creation are often overwhelmed by questions such as the age of the earth and the relationship between divine creation and evolution Without completely ignoring these issues this rigorously grounded theological interpretation of Genesis 1 engages thinkers like Plato Martin Luther and Karl Barth

Big Dreams Kelly Bulkeley, 2016-03-02 Big dreams are rare but highly memorable dream experiences that make a strong and lasting impact on the dreamer's waking awareness Moving far beyond I forgot to study and the finals are today and other common scenarios such dreams can include vivid imagery intense emotions fantastic characters and an uncanny sense of being connected to forces beyond one's ordinary dreaming mind In Big Dreams Kelly Bulkeley provides the first full scale cognitive scientific analysis of such dreams putting forth an original theory about their formation function and meaning Big dreams have played significant roles in religious and cultural history but because of their infrequent occurrence and fantastical features they have rarely been studied in light of modern science We know a great deal about the religious manifestations of big dreams throughout history and around the world but until now that cross

cultural knowledge has never been integrated with scientific research on their psychological roots in the brain mind system In Big Dreams Bulkeley puts a classic psychological thesis to the scientific test by clarifying and improving it with better data sharper analysis and a broader evolutionary framework He brings evidence from multiple sources shows patterns of similarity and difference questions prior assumptions and provides predictive models that can be applied to new sets of data The notion of a connection between dreaming and religion has always been intuitively compelling Big Dreams transforms it into a solid premise of religious studies and brain mind science Combining evidence from religious studies psychology anthropology evolutionary biology and neuroscience Big Dreams makes a compelling argument that big dreams are a primal wellspring of religious experience They represent an innate neurologically hard wired capacity of our species that regularly provokes greater self awareness creativity and insight into the existential challenges and spiritual potentials of human life

The Individual and Community in African Traditional Religions Theo Sundermeier,1998 The writer has done a careful scholarly and sensitive and very positive and fair study of African religion with particular reference to the individual and community Theo Sundermeier lets Africa speak for itself and on its own terms and in its own categories The concluding chapter is a necessary reading for all who would be on mission who would seek to live the ecumenical imperative and care to ensure that the pursuit of a religion does not result in dehumanization and degradation and marginalization of the other person Rev Canon Prof John S Pobee World Council of Churches Geneva Switzerland This book treats the subject of African religions in a creative and interesting way emphasizing that these religions are genuine authentic expressions of religiosity on a par with other religions including the so called world religions The author provides an excellent account of the nature interdependence between individual community society and the natural order an interdependence which these religions symbolize and express in ritual and belief Likewise the essentially personal nature of power as conceived in African culture is thoughtfully and interestingly analysed There are many other thought provoking ideas and interpretations in this volume including the deconstruction of the commonly held notions of the distinction between witchcraft and magic This is a most worthwhile contribution to the study of Africa s traditional religions and I am convinced all those with an interest in Africa who read it will gain much therefrom Professor Peter B Clarke Professor of the History and Sociology of Religion in the University of London at King s College and formerly Professor of African History at the University of Ibadan Nigeria Theo Sundermeier is Professor of the History of Religion and Missiology at the Ruprecht Karls Universit t Heidelberg translated by Elaine Griffiths Eleanor Jackson

much more Spiritual and Religious Tom Wright, 2017-05-18 I m spiritual but not religious It s a phrase that s often used to explain why although they don t go to church people still feel that life must have some kind of transcendent meaning But what does this spirituality consist of In Spiritual and Religious Tom Wright argues that whether people realize it or not they are often simply reverting to forms of ancient paganism that are very similar to those that confronted the earliest Christians With his characteristic verve and incisiveness Wright traces the parallels between the worldviews of the first and twenty first centuries and shows how a better understanding of God as Trinity can breathe fresh life into our understanding and preaching of the gospel today He concludes this prophetic book with a call to contemporary Christians to make a clear choice Are we to compromise with paganism to assimilate to water down the distinctives of Christian faith in order to make it more palatable Are we to retreat into dualism into a private spiritual religion which will assure us of an other worldly salvation but which will leave the powers of the present world unchallenged Or are we to worship the God who is Father Son and Spirit and to find in that worship a renewed courage a renewed sense of direction and a renewed hope for the future *Religion and Spirituality in the Life Cycle* James Gollnick, 2005 In recent years profound changes have affected the way people view the role of religion and spirituality in the life cycle For many people spirituality always considered an essential part of religion has become an interest no longer tied to organized religion This book addresses the evolving relationship of spirituality to religion in our time and the consequences of this change for understanding personality development It also applies the concept of implicit religion to show how the least easily observed aspects of religion are at work in the growth of personality
