Rice Institute Pamphlet Volume 38 July 1951:

The Cultural Politics of Opera, 1720-1742 Thomas McGeary, 2024-09-24 Explores the intersection of the world of opera literature and partisan politics to show how Italian opera was put to use in the culture wars of the day This last of a trilogy of books on opera and politics in Britain examines the cultural politics of opera during the ministerial reign of Sir Robert Walpole from 1720 to 1742 The book explores the intersection of the world of opera literature and partisan politics to show how Italian opera with its associations with the court ministry and Britain's social political elite was put to use in the culture wars of the day how Italian opera was used for partisan political advantage how political work could be accomplished by means of opera It shows that attacks on opera had ulterior targets The book surveys a range of often overlooked verse and prints to show how critique or satire of opera were a means for oppositional writers to delegitimize the Walpole ministry Polemicists framed opera as a consequence of the corruption luxury and False Taste generated by Walpole's ministry It closes in the watershed year 1742 Handel had produced the last of his Italian operas the previous year Walpole fell from power and Alexander Pope published the last book of his Dunciad project *Classical Culture and the Idea of Rome in Eighteenth-Century England* Philip Ayres, 1997-08-28 This book looks at the aristocratic adoption of Roman ideals in eighteenth century English culture [The Politics of Opera in Handel's Britain](#) Thomas McGeary, 2013-04-25 Thomas McGeary's book explores the relationship between Italian opera and British partisan politics in the era of George Frideric Handel **James Thomson** Hilbert H. Campbell, 1979 *Proceedings, American Philosophical Society (vol. 117, No. 1, 1973)*, *The Plays of James Thomson, 1700-1748* James Thomson, John C. Greene, 1987 **Painting the Cannon's Roar** Thomas Tolley, 2017-07-05 From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the visual arts to be defined more closely in relation to one another This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted

canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts **Liberty ; The Castle of Indolence, and Other Poems** James Thomson,1986 This companion volume to James Thomson s The Seasons completes the Oxford English Texts edition of his works and provides for the first time a critical text of all the poems with commentary **The Past as Prologue** Carla H. Hay,Sydney M. Conger,1995 This collection of essays covering the 18th century the Enlightenment deals with a variety of topics including the philosophy of ideas literature and cultural studies Dictionary Catalog of the University Library, 1919-1962 University of California, Los Angeles. Library,1963 The National Union Catalog, Pre-1956 Imprints Library of Congress,American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee,1977 **The Patriot Opposition to Walpole** Christine Gerrard,1994 What did it mean to be a Patriot during the Walpole administration This is the first full length study of the so called Patriot opposition to Walpole which reached its height during the clamour for war against Spain at the turn of the 1730s The book examines the interrelationship between patriotism politics and poetry in the period 1724 1742 Christine Gerrard investigates the growing Patriot opposition during the Walpolian oligarchy and asks whether a broad credo united all of Walpole s political opponents or whether there was a distinction between Whig and Tory Patriots The role of Frederick Prince of Wales as the campaign s cultural and political figurehead Bolingbroke s visionary Patriot King is discussed as are the poetry and drama of such authors as James Thomson Alexander Pope and the young Samuel Johnson who were all drawn to the heady idealism of the young Boy Patriots Thomson s Rule Britannia and Johnson s London exploit the appeal to British history so central to the emotive propaganda of the Patriot campaign Drawing on the literature prints architecture and statuary of the 1730s Christine Gerrard also discusses two of the decade s most powerful romantic patriotic myths Gothic liberty and Elizabethan greatness and reveals that in its nationalistic emphasis upon Nordic and Celtic traditions the figure of the ancient British Druid and native bards Patriot literature anticipates the Gothic strain emerging in the poetry of Gray Collins and the Wartons only a few years later **D.H. Lawrence: a Finding List** ,1968 *A Phoenix in Fetters* David Patterson,1988 Between the French Revolution and World War I Hebrew literature experienced a veritable renaissance first in Central Europe and then in Eastern Europe Its vigorous search for new modes of expression played a major role in the revival of Hebrew as a living language In *A Phoenix in Fetters* David Patterson describes the extraordinary paradox affecting Hebrew literature in the 19th century On the one hand it aspired to serve as a conduit for the Jews of eastern Europe from the medieval to the modern world On the other hand it embraced a theory of literature that artificially restricted its development The paradox was resolved only in the first decades of the 20th century *Erik Satie: Music, Art and Literature* Caroline Potter,2016-05-13 Erik Satie 1866 1925 was a quirky innovative and enigmatic composer whose impact has spread far beyond the musical world As an artist active in several spheres from cabaret to religion from calligraphy to poetry and

playwriting and collaborator with some of the leading avant garde figures of the day including Cocteau Picasso Diaghilev and Ren Clair he was one of few genuinely cross disciplinary composers His artistic activity during a tumultuous time in the Parisian art world situates him in an especially exciting period and his friendships with Debussy Stravinsky and others place him at the centre of French musical life He was a unique figure whose art is immediately recognisable whatever the medium he employed Erik Satie Music Art and Literature explores many aspects of Satie s creativity to give a full picture of this most multifaceted of composers The focus is on Satie s philosophy and psychology revealed through his music Satie s interest in and participation in artistic media other than music and Satie s collaborations with other artists This book is therefore essential reading for anyone interested in the French musical and cultural scene of the late nineteenth and early twentieth century

Satie the Composer Robert Orledge,1990-10-26 Erik Satie remains one of the most bizarre figures in music history yet everything he did has its own curious logic once it can be perceived In this important new study Dr Orledge reveals what made Satie tick as a composer dealing with every aspect of Satie s complex career and relating his achievement to the other arts and to the society in which he lived Almost every figure in contemporary art was involved with Satie in some way or another from Matisse and Picasso to Apollinaire Cocteau and Brancusi This however is no mere life and works study but rather an exploration of the technique behind Satie s art which foreshadowed most of the advances of twentieth century music from serialism to minimalism and even muzak As the book progresses Satie appears as far more than just the composer of the popular Gymnop dies and Parade [Enlightenment Links](#) Collin Jennings,2024-05-21 In this ambitious work Collin Jennings applies computational methods to eighteenth century fiction history and poetry to reveal the nonlinear courses of reading they produce Hallmark genres of the British Enlightenment such as the novel and the stadial history are typically viewed as narratives of linear progress emerging from Britain s imperial growth and scientific advancement Jennings foregrounds Enlightenment links the paratextual devices including cross references footnotes and epigraphs that make words work differently by pointing the reader to places inside and outside the text Writers and printers combined text and paratext to produce nonlinear paths of reading and polysemous forms of reference that resist simple causal structures of experience or theories of mind Alexander Pope Adam Smith Ann Radcliffe and other writers developed genres that operate diagrammatically with different points of entry and varied relationships between the language and format of books Revealing the eighteenth century genealogy of the digital hyperlinks of today Enlightenment Links argues that emergent print genres combined language and links to bring forward the associative circular and multi sequential ways in which literature makes language work
