

Richard Bourke

Zoe Laidlaw

Richard Bourke:

Empire and Revolution Richard Bourke, 2015-09-08 A major new account of one of the leading philosopher statesmen of the eighteenth century Edmund Burke 1730-97 lived during one of the most extraordinary periods of world history He grappled with the significance of the British Empire in India fought for reconciliation with the American colonies and was a vocal critic of national policy during three European wars He also advocated reform in Britain and became a central protagonist in the great debate on the French Revolution Drawing on the complete range of printed and manuscript sources *Empire and Revolution* offers a vivid reconstruction of the major concerns of this outstanding statesman orator and philosopher In restoring Burke to his original political and intellectual context this book overturns the conventional picture of a partisan of tradition against progress and presents a multifaceted portrait of one of the most captivating figures in eighteenth century life and thought A boldly ambitious work of scholarship this book challenges us to rethink the legacy of Burke and the turbulent era in which he played so pivotal a role

Colonial connections, 1815-45 Zoë

Laidlaw, 2013-07-19 This groundbreaking book challenges standard interpretations of metropolitan strategies of rule in the early nineteenth century After the Napoleonic wars the British government ruled a more diverse empire than ever before and the Colonial Office responded by cultivating strong personal links with governors and colonial officials through which influence patronage and information could flow By the 1830s the conviction that personal connections were the best way of exerting influence within the imperial sphere went well beyond the metropolitan government as lobbyists settlers and missionaries also developed personal connections to advance their causes However the successive crises in the 1830s exposed these complicated networks of connection to hostile metropolitan scrutiny This book challenges traditional notions of a radical revolution in government identifying a more profound and general transition from a metropolitan reliance on gossip and personal information to the embrace of new statistical forms of knowledge The analysis moves between London New South Wales and the Cape Colony encompassing both government insiders and those who struggled against colonial and imperial governments

A Genealogical and Heraldic Dictionary of the Landed Gentry of Great Britain and Ireland

John Burke, Sir Bernard Burke, 1850

Colonial Connections 1815-1845 Zoe Laidlaw, 2005 This groundbreaking book challenges standard interpretations of metropolitan strategies of rule in the early nineteenth century By the 1830s the conviction that personal connections were the best way of exerting influence within the imperial sphere went well beyond the metropolitan government as lobbyists settlers and missionaries also developed personal connections to advance their causes

Reports from Committees Great Britain. Parliament. House of Commons, 1838

Hegel's World Revolutions

Richard Bourke, 2025-07-22 A new account of the relevance of Hegel's ideas for today's world countering the postwar anti-Hegel insurgency G W F Hegel was widely seen as the greatest philosopher of his age Ever since his work has shaped debates about issues as varied as religion aesthetics and metaphysics His most lasting contribution was his vision of history

and politics In Hegel s World Revolutions Richard Bourke returns to Hegel s original arguments clarifying their true import and illuminating their relevance to contemporary society Bourke shows that central to Hegel s thought was his anatomy of the modern world On the one hand he claimed that modernity was a deliverance from subjection but on the other he saw it as having unleashed the spirit of critical reflection Bourke explores this predicament in terms of a series of world revolutions that Hegel believed had ushered in the rise of civil society and the emergence of the constitutional state Bourke interprets Hegel s thought with particular reference to his philosophy of history placing it in the context of his own time He then recounts the reception of Hegel s political ideas largely over the course of the twentieth century Countering the postwar revolt against Hegel Bourke argues that his disparagement by major philosophers has impoverished our approach to history and politics alike Challenging the condescension of leading thinkers from Heidegger and Popper to L vi Strauss and Foucault the book revises prevailing views of the relationship between historical ideas and present circumstances
