Richard Berry Seager Pioneer Archaeologist And Proper Gentleman:

Richard Berry Seager Marshall J. Becker, Philip P. Betancourt, 1997-01-29 An examination of the life of Richard Seager is important for two reasons First it provides a glimpse of a character of a member of the second generation of researchers to work in Cretan archaeology and second Seager and his generation helped form our own preconceptions about the early history of Greece His underlying thesis that the Early Minoan society was the first European civilization thus the foundation of Greek and later Western history is considered valid today Breaking Ground Getzel M. Cohen, Martha Sharp Joukowsky, 2010-06-02 At the close of the Victorian era two generations of intrepid women abandoned Grand Tour travel for the rigors of archaeological expeditions shining the light of scientific exploration on Old World antiquity Breaking Ground highlights the remarkable careers of twelve pioneers a compelling narrative of personal social intellectual and historical achievement Claire Lyons The Getty Museum Behind these pioneering women lie a wide range of fascinating and inspiring life stories Though each of their tales is unique they were all formidable scholars whose important contributions changed the field of archaeology Kudos to the authors for making their stories and accomplishments known to us all Jodi Magness University of North Carolina Chapel Hill This book presents twelve fascinating women whose contributions to the development and progress of Old World archaeology in an area ranging from Italy to Mesopotamia have been immeasurable Each essay in this collection examines the life of a pioneer archaeologist in the early days of the discipline tracing her path from education in the classics to travel and exploration and eventual international recognition in the field of archaeology The lives of these women may serve as models both for those interested in gender studies and the history of archaeology because in fact they broke ground both as women and as archaeologists The interest inherent in these biographies will reach well beyond defined disciplines and subdisciplines for the life of each of these exciting and accomplished individuals is an adventure story in itself *A Research Guide to the Ancient World* John M. Weeks, Jason de Medeiros, 2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years *A Research Guide to the Ancient World* Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports

from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use *Crete Beyond the Palaces* Leslie Preston Day, Margaret S. Mook, James D. Muhly, 2004-12-31 This volume presents papers from the conference Crete 2000 A Centennial Celebration of American Archaeological Work on Crete 1900 2000 held in Athens from July 10 12 2000 The American School of Classical Studies at Athens and the Institute for Aegean Prehistory INSTAP Study Center for East Crete organized the conference Scholars participating in the American and joint Greek American on Crete or studying material from these excavations were invited to present papers at the conference The volume is divided into the following sections Trade Society and Religion Chronology and History Landscape and Survey and Technology and Production *The History of Archaeology* Paul Bahn, 2014-01-10 The History of Archaeology An Introduction provides global coverage with chapters devoted to particular regions of the world The regional approach allows readers to understand the similarities and differences in the history of and approach to archaeology in various parts of the world Each chapter is written by a specialist scholar with experience of the region concerned Thus the book focuses on the earliest beginnings of archaeology in different parts of the world and how it developed from being a pastime for antiquarians and collectors to a serious attempt to obtain information about past societies Woven into the text are various boxes that explore key archaeologists sites and important discoveries in the history of archaeology enriching the story of the discipline s development With such far ranging coverage including an exploration of the little covered development of Russian and Chinese archaeology The History of Archaeology is the perfect introduction to the history of archaeology for the interested reader and student alike **The Chrysokamino Metallurgy Workshop and Its Territory** Philip P. Betancourt, 2006 This detailed report describes archaeological fieldwork conducted between 1995 and 1997 in rural northeast Crete Excavations were made in two locations a metallurgy workshop abandoned in EM III and a nearby rural habitation site perhaps a farmhouse used until LM III An intensive survey of the vicinity revealed other activities in the area from the Early Neolithic onwards and placed the sites in a micro regional context A publication of the Minoan farmhouse will appear subsequently but this volume stands on its own as both an overview of the project and as a detailed study of the copper smelting workshop **Athyrmata: Critical Essays on the Archaeology of the Eastern Mediterranean in Honour of E. Susan Sherratt** Yannis Galanakis, Toby Wilkinson, John Bennet, 2014-10-18 This volume brings together twenty six papers to mark Susan Sherratt s 65th birthday a collection that seeks to reflect both her broad range of interests and her ever questioning approach to uncovering the realities of life in Europe and the Mediterranean in later prehistory *Winifred Lamb: Aegean Prehistorian and Museum Curator* David W. J. Gill, 2018-09-30 The first comprehensive biography of pioneering archaeologist and museum curator Winnifred Lamb who was honorary keeper of Greek antiquities at the Fitzwilliam Museum Cambridge in the four decades immediately following the First World War **Archaeology and Women** Sue Hamilton, Ruth D Whitehouse, Katherine I Wright, 2016-09-16 Archaeology and Women

draws together from a variety of angles work currently being done within a contemporary framework on women in archaeology One section of this collection of original articles addresses the historical and contemporary roles of women in the discipline Another attempts to link contemporary archaeological theory and practice to work on women and gender in other fields Finally this volume presents a wide diversity of theoretical approaches and methods of study of women in the ancient world representing a cross section of work being carried out today under the broad banner of gender archaeology The geographical and chronological range of the contributions is also wide from Southeast Asia and South America to Western Asia Egypt and Europe from Great Britain to Greece and from 10 000 years ago to the recent past An ideal sampler for courses dealing with women and archaeology

Krinoi kai Limenes Philip P. Betancourt, Michael C. Nelson, Hector Williams, 2007-12-31 Joseph and Maria Shaw received the Archaeological Institute of America's Gold Medal for a lifetime of outstanding achievement in January of 2006 This volume is a collection of the papers presented at the Gold Medal Colloquium held in their honor during the 2006 Annual Meeting of the Archaeological Institute of America in Montreal Quebec Additional articles have also been written for this volume Many of the articles pertain to different aspects of Aegean Bronze Age architecture harbors frescoes and trade which are all keen interests of the Shaws

Ladies of the Field Amanda Adams, 2010 Adams chronicles the contributions that women have made to the science of archaeology by focusing on seven women some famous some overlooked

Carl W. Blegen Jack L. Davis, Vasiliki Florou, Natalia Vogeikoff-Brogan, 2015-01-01 Carl Blegen is the most famous American archaeologist ever to work in Greece and no American has ever had a greater impact on Greek archaeology Yet Blegen unlike several others of his generation has found no biographer In part the explanation for this must lie in the fact that his life was so multifaceted not only was he instrumental in creating the field of Aegean prehistory but Blegen his wife and their best friends the Hills the family were also significant forces in the social and intellectual community of Athens Authors who have contributed to this book have each researched one aspect of Blegen's life drawing on copious documentation in the United States England and Greece The result is a biography that sets Blegen and his closest colleagues in the social and academic milieu that gave rise to the discipline of classical archaeology in Greece

Reports on the Vrokastro Area, Eastern Crete, Volume 2 University of Pennsylvania. Museum of Archaeology and Anthropology, Barbara J. Hayden, 2003 CD ROM for vol 2 includes Appendices 1-6 and the Vrokastro archaeological survey project

Pseira VI Philip P. Betancourt, Costis Davaras, 2002-12-31 Richard B Seager excavated the Minoan cemetery at Pseira in 1907 but the work was never published The Temple University excavations 1985-1994 under the direction of Philip P Betancourt and Costis Davaras conducted an intensive surface survey of the cemetery area cleaned and drew plans of all visible tombs and excavated tombs that had not been previously excavated The results of the cemetery excavations on the small island off the northeast coast of Crete are published in two volumes Pseira VI publishes the methodology that was employed for the investigation the topography of the cemetery area the little

that can be reconstructed of Seager's campaign the ceramic petrography for the cemetery pottery and the results of the intensive surface survey. The survey shows that the cemetery was first used in the Neolithic period and it was abandoned in Middle Minoan II before the expansion of the nearby town in LM I. It also demonstrates that the cemetery was larger than the area suggested by the 33 tombs found by Seager and it shows that the customs included burial in jars even though no examples have been excavated. **American Journal of Archaeology**, 1999. *Pseira VIII* Philip P. Betancourt, Costis Davaras, Richard Hope Simpson, 2004-10-30. Richard B. Seager excavated the Minoan town and cemetery at Pseira in 1906-1907 but the work was not fully published. The Temple University excavations 1985-1994 under the direction of Philip P. Betancourt and Costis Davaras conducted an intensive surface survey of the island. The results of the survey on the small island off the northeast coast of Crete are published in two volumes. *Pseira VIII* presents the results from the corollary studies that accompany the surface survey. *Pseira IX* presents the results from the intensive surface survey. *Pseira VII* Philip P. Betancourt, Costis Davaras, 2003-07-01. Richard B. Seager excavated the Minoan cemetery at Pseira in 1907 but the work was never published. The Temple University excavations 1985-1994 under the direction of Philip P. Betancourt and Costis Davaras conducted an intensive surface survey of the cemetery area, cleaned and drew plans of all visible tombs and excavated tombs that had not been previously excavated. The results of the cemetery excavations on the small island off the northeast coast of Crete are published in two volumes. *Pseira VII* presents the results from the excavation and cleaning of the 19 tombs that still exist at the Pseira cemetery. The cemetery is remarkable for the diversity of its tomb types. Burials were in cist graves built of vertical slabs, a class with Cycladic parallels, in small tombs constructed of fieldstones, in house tombs and in jars. Burials were communal as is usual in Minoan cemeteries. Artifacts included clay vases, stone vessels, obsidian, bronze tools, jewelry, and other objects. *The Journal of Hellenic Studies*, 2002. *Prehistorians Round the Pond* John F. Cherry, Despina Margomenou, Lauren Elizabeth Talalay, 2005. This volume represents a pioneering examination of the nature and identities of Aegean prehistory as a discipline. Emerging from a workshop that generated lively debate among a wide cross section of scholars, it offers one of the first published attempts to situate Aegean prehistory within a modern, self-critical and reflexive context. The chapters and commentaries together yield a multidisciplinary discourse covering such topics as the current health and academic status of the field, the political and social parameters of the discipline, the relationship between Aegean prehistory and Hellenism, and the discovery of the Aegean by Greek modernists. *Mochlos III* Natalia Vogeikoff-Brogan, 2014-12-31. This volume presents the first of several Late Hellenistic buildings that were uncovered on the island of Mochlos located off the northeastern coast of Crete during the Greek American excavations of the last 25 years. It also provides an introduction to the Hellenistic settlement that flourished on the island for nearly a century before it was abandoned. The Hellenistic remains overlay much of the Late Minoan III and Neopalatial settlement. Due to the excavation of both the Bronze Age and later phases of the town, the publication of this Hellenistic building includes paleoenvironmental

material among all the other artifacts which is often neglected in excavations of historical material The role that Mochlos played in East Crete is discussed and conclusions are drawn about its relations with Hierapytna during the Late Hellenistic period
