Crowley, 2003-08-25 Political observers have long since struggled with understanding how new ideas are placed on the public
agenda In their studies most social scientists have relied on biographical sketches and intensive case studies to explore the
intricacies of innovation Researchers have had much more difficulty however in moving from these individual success stories
to more generalizable theories of entrepreneurship This book builds such a theory by focusing on the critical issue of child
support enforcement in the United States Covering over a 100 year period this book tracks the evolution of multiple sets of
political entrepreneurs as they grapple with the child support problem charity workers with local law enforcement in the

John Doyle charged him with sending a weekly letter even though they lived under the same roof This volume collects the
fifty three illustrated missives in their entirety for the first time and provides an uncommon peek into the intimate but
expansive observations of a precocious social commentator and artist In a series of vivid manuscript canvases Doyle observes
