Richard Henry Wilde His Life And Selected Poems

Robin W. Doughty

Richard Henry Wilde His Life And Selected Poems:

Richard Henry Wilde Richard Henry Wilde,1966 **Poems, in Richard Henry Wilde** Richard Henry Wilde,1996

Poems, in Richard Henry Wilde Richard Henry Wilde,1867 Poems, in Richard Henry Wilde: His Life and Selected Poems 1966, 1966 **Richard Henry Wilde** Edward L. Tucker,1974 *Intellectual Life and the American South, 1810-1860* Michael O'Brien,2010-06-01

Michael O'Brien has masterfully abridged his award winning two volume intellectual history of the Old South *Conjectures of Order* depicting a culture that was simultaneously national postcolonial and imperial influenced by European intellectual traditions yet also deeply implicated in the making of the American mind Here O'Brien succinctly and fluidly surveys the lives and works of many significant Southern intellectuals including John C Calhoun Louisa McCord James Henley Thornwell and George Fitzhugh Looking over the period O'Brien identifies a movement from Enlightenment ideas of order to a Romanticism concerned with the ambivalences of personal and social identity and finally by the 1850s to an early realist sensibility He offers a new understanding of the South by describing a place neither monolithic nor out of touch but conflicted mobile and ambitious to integrate modern intellectual developments into its tense and idiosyncratic social experience **The Mind of the Master Class** Elizabeth Fox-Genovese,Eugene D.

Genovese,2005-10-17 *The Mind of the Master Class* tells of America's greatest historical tragedy It presents the slaveholders as men and women a great many of whom were intelligent honorable and pious It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society Blending classical and Christian traditions they forged a moral and political philosophy designed to sustain conservative principles in history political economy social theory and theology while translating them into political action Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours beginning with the virtues and failings of their own society and culture **Encyclopedia**

of American Poetry: The Nineteenth Century Eric L. Haralson,2014-01-21 With contributions from over 100 scholars the *Encyclopedia of American Poetry The Nineteenth Century* provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet **The Presence of Camões** George Monteiro,2021-12-14

Of the great epic poets in the Western tradition Luis Vaz de Camões c 1524 1580 remains perhaps the least known outside his native Portugal and his influence on literature in English has not been fully recognized In this major work of comparative scholarship George Monteiro thus breaks new ground focusing on English language writers whose vision and expression have been sharpened by their varied responses to

Camões Introduced to English readers in 1655 Camões's work from the beginning appealed strongly to writers The young Elizabeth Barrett's Camonian poems for example inspired Edgar Allan Poe to appropriate elements from Camões Herman Melville's reading of Camões bore fruit in his career long borrowings from the Portuguese poet Longfellow T W Higginson and Emily Dickinson read and championed Camões And Camões as epicist and love poet is an eminence grise in several of Elizabeth Bishop's strongest Brazilian poems Southern African writers have interpreted and reinterpreted Adamastor Camões's Spirit of the Cape as both a symbol of a dangerous and mysterious Africa and an emblem of European imperialism Recognizing the presence of Camões leads Monteiro to provocative rereadings of such texts as Dickinson's Master letters Poe's Raven Melville's late poetry and Bishop's Questions of Travel

Irish Catholic Writers and the Invention of the American South Bryan Giemza, 2013-07-08 In this comprehensive study Bryan Giemza retrieves a missing chapter of Irish Catholic heritage by canvassing the literature of American Irish writers from the U S South Beginning with the first Irish American novel published in Winchester Virginia in 1817 Giemza investigates nineteenth century writers contending with the turbulence of their time writers influenced by both American and Irish revolutions dramatists and propagandists of the Civil War and memoirists of the Lost Cause Some familiar names arise in an Irish context including Joel Chandler Harris and Kate O Flaherty Chopin Giemza then turns to the works of twentieth century writers such as Margaret Mitchell John Kennedy Toole and Pat Conroy For each author Giemza traces the impact of Catholicism on their ethnic identity and their work Giemza draws on many never before seen documents including the correspondence of Cormac McCarthy interviews with members of the Irish community in Flannery O Connor's native Savannah Georgia and Giemza's own correspondence with writers such as Valerie Sayers and Anne Rice This lively history prompts a new understanding of how the Catholic Irish in the South helped invent a regional myth an enduring literature and a national image

The Mockingbird Robin W. Doughty, 1995-01-01 A brief illustrated study of the mockingbird

Dante Michael Caesar, 2013-10-15 First published in 1995 The Critical Heritage series collects together a large body of criticism on major figures in literature Each volume presents the contemporary responses to a particular writer enabling the student to follow the formation of critical attitudes to the writer's work and its place within a literary tradition This collection of critical writings about Dante many of them published here in English for the first time tries to offer a balanced survey of the poet's reception in both time and space Its scope therefore differs from that of its main predecessors in both English and Italian

The Wilde Legacy Eiléan Ní Chuilleanáin, 2003 To commemorate the 100th anniversary of the death of Oscar Wilde Trinity College's School of English held a conference on the Wilde family This book is the proceedings of the conference The Wilde family was prominent sometimes sensationally so in the literary scholarly political and professional milieus of Victorian Dublin and then London D Coakley sketches in the social and professional background of the family Peter Froggat and Michael Ryan assess the enduring value of Sir William Wilde's work as medical historian and statistician and as archaeologist and antiquarian Eilán N

Chuillean in looks at the role of Oscar's mother Speranza as an ancestor figure for a contemporary woman writer Lucy McDiarmid and Alan Sinfield write on Wilde's trials and on the scandalous reverberations of his name in the 20th century Robert Dunbar places Oscar Wilde's stories for children in their Victorian context while Mary Elizabeth Burke Kennedy considers their transformation into the successful theatre adaptation *The Star Child* Wilde's plays are the subject of a lively discussion between distinguished Irish playwrights and producers Marina Carr Thomas Kilroy Michael Colgan and Patrick Mason

Parties, Slavery, and the Union in Antebellum Georgia Anthony Gene Carey, 2012-02-01 At the heart of Georgia's secession from the Union in 1861 were two ideological cornerstones the protection of white men's liberty and the defense of African slavery Anthony Gene Carey argues in this comprehensive analytical narrative of the three decades leading up to the Civil War In Georgia broad consensus on political essentials restricted the range of state party differences and the scope of party debate but Whigs and Democrats battled intensely over how best to protect Southern rights and institutions within the Union The power and security that national party alliances promised attracted Georgians but the compromises and accommodations that maintaining such alliances required also repelled them By 1861 Carey finds white men who were out of time fearful of further compromise and compelled to choose acted to preserve liberty and slavery by taking Georgia out of the Union Secession the ultimate expression of white unity flowed logically from the values attitudes and antagonisms developed during three decades of political strife

The Antelope John Thomas Noonan, 1990-01-01 The slave ship *Antelope* carrying 280 Africans in chains was intercepted near St Augustine in June 1820 by a U S Treasury cutter and for eight years the American courts discussed the status and disposition of its cargo Championed on appeal by lawyer Francis Scott Key the Africans were the object of a tortured decision by Chief Justice John Marshall freeing some to become early settlers of Liberia and leaving others to become the slaves of a Georgia Congressman John Noonan examines the eight year dispute in his consideration of the relationship between law and moral obligation Students of American and African American history and legal history will welcome the close analysis of this nearly forgotten event and the light it sheds on attitudes towards slavery in the U S from back cover
