Allahar,2007-05-26 The present state of the university is a difficult issue to comprehend for anyone outside of the education system If we are to believe common government reports that changes in policy are somehow making life easier for university graduates we cannot help but believe that things are going right and are getting better in our universities Ivory Tower Blues gives a decidedly different picture examining this optimistic attitude as it impacts upon professors students and administrators in charge of the education system Ivory Tower Blues is a frank account of the contemporary university drawing on the authors own research and personal experiences as well as on input from students colleagues and administrators James E C t and Anton L Allahar offer an insider s account of the university system an accurate alternative view to that overwhelmingly presented to the general public Throughout the authors argue that fewer and fewer students are experiencing their university education in ways expected by their parents and the public The majority of students are hampered by insufficient preparation at the secondary school level lack of personal motivation and disillusionment Contrary to popular opinion there is no administrative or governmental procedure in place to maintain standards of education Ivory Tower Blues is an in depth look at the crisis facing Canadian and American universities the factors that are precipitating the situation and the long term impact this crisis will have on the quality of higher education The Garland Encyclopedia of World Music Ellen Koskoff,2017-09-25 This

Youth Development in Identity Societies James E. Cote,2018-10-31

This book explores the causes and consequences of the contradictions in young people s lives stemming from the affluence purpose paradox a lack of purpose in life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox

Flying Fish in the Great White North Christopher Stuart Taylor,2016-09-15T00:00:00Z Canadians are proud of their multicultural image both at home and abroad But that image isn t grounded in historical facts As recently as the 1960s the Canadian government enforced discriminatory anti Black immigration policies designed to restrict and prohibit the entry of Black Barbadians and Black West Indians The Canadian state capitalized on the public s fear of the Black unknown and racist stereotypes to justify their exclusion In *Flying Fish in the Great White North* Christopher Stuart Taylor utilizes the intersectionality of race gender and class to challenge the perception that Blacks were simply victims of racist and discriminatory Canadian and international immigration policies by emphasizing the agency and educational capital of Black Barbadian emigrants during this period In

fact many Barbadians were middle to upper class and were well educated and many particularly women found autonomous agency and challenged the very Canadian immigration policies designed to exclude them

Francis Joseph Turner, Joanne C. Turner, W. Ross Macdonald School, 2000-07 *Towards Juristocracy* Ran Hirschl, 2009-06-30 In countries and supranational entities around the globe constitutional reform has transferred an unprecedented amount of power from representative institutions to judiciaries The constitutionalization of rights and the establishment of judicial review are widely believed to have benevolent and progressive origins and significant redistributive power diffusing consequences Ran Hirschl challenges this conventional wisdom Drawing upon a comprehensive comparative inquiry into the political origins and legal consequences of the recent constitutional revolutions in Canada Israel New Zealand and South Africa Hirschl shows that the trend toward constitutionalization is hardly driven by politicians genuine commitment to democracy social justice or universal rights Rather it is best understood as the product of a strategic interplay among hegemonic yet threatened political elites influential economic stakeholders and judicial leaders This self interested coalition of legal innovators determines the timing extent and nature of constitutional reforms Hirschl demonstrates that whereas judicial empowerment through constitutionalization has a limited impact on advancing progressive notions of distributive justice it has a transformative effect on political discourse The global trend toward juristocracy Hirschl argues is part of a broader process whereby political and economic elites while they profess support for democracy and sustained development attempt to insulate policymaking from the vicissitudes of democratic politics
