Rhea, 2005-03 The second volume in Gordon C Rhea s peerless five book series on the Civil War s 1864 Overland Campaign abounds with Rhea s signature detail innovative analysis and riveting prose Here Rhea examines the maneuvers and battles from May 7 1864 when Grant left the Wilderness through May 12 when his attempt to break Lee s line by frontal assault reached a chilling climax at what is now called the Bloody Angle Drawing exhaustively upon previously untapped materials Rhea challenges conventional wisdom about this violent clash of titans to construct the ultimate account of Grant and Lee at Spotsylvania      Joseph E. Johnston and the Defense of Richmond Steven H. Newton, 1998 Focusing on the period between mid February and late May 1862 Newton examines in detail the high level conferences in Richmond to set strategy and the relationship of the Peninsula campaign to operations in the Shenandoah Valley and the western Confederacy By examining what Joseph E Johnston actually accomplished rather than speculating on what he might have done Newton shows that his overall conduct of the campaign holds up well under scrutiny Jacket      *Richmond Howitzers in the War* Frederick Frederick, 2017-05-24 Excerpt from *Richmond Howitzers in the War Four Years Campaigning With the Army of Northern Virginia* Virginia has been prolific for out of her limits have gone forth settlers into the immense Southland and into every part of the Union and today after all her vicissitudes numbers white citizens About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      The Battle of the Crater John F. Schmutz, 2009-06-08 The Battle of the Crater is one of the lesser known yet most

interesting battles of the Civil War This book detailing the onset of brutal trench warfare at Petersburg Virginia digs deeply into the military and political background of the battle Beginning by tracing the rival armies through the bitter conflicts of the Overland Campaign and culminating with the siege of Petersburg and the battle intended to lift that siege this book offers a candid look at the perception of the campaign by both sides *Their Maryland* Alexander B. Rossino, 2021-11-02

Engagingly written and persuasively argued this daringly revisionist book is an essential addition to the Antietam bibliography Brian Matthew Jordan Pulitzer Prize finalist and author of *Marching Home* What if the histories previously written about Robert E Lee s 1862 Maryland Campaign the first major Confederate operation north of the Potomac River missed key sources proceeded from mistaken readings of the evidence or were influenced by Lost Cause ideology As Alexander B Rossino author of the acclaimed *Six Days in September* demonstrates in *Their Maryland* The Army of Northern Virginia from the Potomac Crossing to Sharpsburg in September 1862 these types of distortions indeed continue to shape modern understanding of the campaign Rossino reassesses the history of the Confederate operation in seven comprehensive chapters each tackling a specific major issue He addresses many important questions Did supply problems in Virginia force Lee north to press the advantage he d won after the Battle of Second Manassas What did Rebel troops believe about the strength of secessionist sentiment in Maryland and why Did the entire Army of Northern Virginia really camp at Best s Farm near Frederick Maryland Did D H Hill lose Special Orders No 191 or is there more to the story How did Maryland civilians respond to the Rebel army in their midst and what part did women play Finally why did Robert E Lee choose to fight at Sharpsburg and how personally was he involved in directing the fighting Rossino makes extensive use of primary sources to explore these and other questions In doing so he reveals that many long held assumptions about the Confederate experience in Maryland do not hold up under close scrutiny The result is a well documented reassessment that sheds new light on old subjects and reinvigorates the debate on several fronts The reader will come away with a greater understanding of this crucial campaign and battle James M McPherson Pulitzer Prize winner and New York Times bestselling author of *Battle Cry of Freedom* *Military Literature in the War Department Library* United States. War Dept. Library, 1897 *The Confederate Order of Battle: The Army of Northern Virginia* F. Ray Sibley, 1996 The author wanted to identify the Confederate battalions and regiments that comprised brigades brigades that made divisions divisions that made corps and corps that constituted the Confederate armies which were in major battles or campaigns and to identify the commanders of each of those organizations in the selected battles or campaigns Page viii *Civil War Field Artillery* Earl J. Hess, 2022-10-05

The American Civil War saw the creation of the largest most potent artillery force ever deployed in a conflict fought in the Western Hemisphere It was as sizable and powerful as any raised in prior European wars Moreover Union and Confederate artillery included the largest number of rifled pieces fielded in any conflagration in the world up to that point Earl J Hess s *Civil War Field Artillery* is the first comprehensive general history of the artillery arm that supported infantry and cavalry in

the conflict Based on deep and expansive research it serves as an exhaustive examination with abundant new interpretations that reenvision the Civil War s military Hess explores the major factors that affected artillerists and their work including the hardware the organization of artillery power relationships between artillery officers and other commanders and the influence of environmental factors on battlefield effectiveness He also examines the lives of artillerymen the use of artillery horses manpower replacement practices effects of the widespread construction of field fortifications on artillery performance and the problems of resupplying batteries in the field In one of his numerous reevaluations Hess suggests that the early war practice of dispersing guns and assigning them to infantry brigades or divisions did not inhibit the massing of artillery power on the battlefield and that the concentration system employed during the latter half of the conflict failed to produce a greater concentration of guns In another break with previous scholarship he shows that the efficacy of fuzes to explode long range ordnance proved a problem that neither side was able to resolve during the war Indeed cumulative data on the types of projectiles fired in battle show that commanders lessened their use of the new long range exploding ordnance due to bad fuzes and instead increased their use of solid shot the oldest artillery projectile in history

**Military Literature in the War Department Library** United States. War Department. Library,1897 **Confederate Artillery Organizations** F. Ray Sibley, Jr.,2014-09-08 Confederate Artillery Organizations An Alphabetical Listing of the Officers and Batteries of the Confederacy 1861 1865 is a remarkable immensely useful and exceedingly rare book containing the names of the officers and every Confederate artillery unit It is so rare that most scholars in the field don t even know of its existence It was originally published as simply Confederate Artillery Organizations by the U S War Department in 1898 one of Marcus J Wright s compilation aids to help assemble and organize the massive publication that would appear as the 128 volume The War of the Rebellion A Compilation of the Official Records of the Union and Confederate Armies 1880 1901 known to researchers and students alike as simply Official Records Editor Ray Sibley spent more than a decade researching the thousands of entries correcting mistakes and adding many artillery units and additional officers unknown to the original compilers more than a century ago Sibley utilized archival records manuscripts letters diaries and other sources to verify the original work correct mistakes and add further useful information in the form of hundreds of valuable footnotes This new updated and easy to use reference work sets forth the lineage of the Confederate artillery It lists in alphabetical order individual batteries to artillery regiments the names and alternate names for the batteries and the names of the men who led them Also included are the dates of acceptance into Confederate service for each unit Most companies have an annotation that includes an alternate name if there was one and the date if a unit disbanded or was merged into another organization The annotations for officers include date of appointment date of promotion to a higher grade if any date of transfers if any date dropped from rolls if any and date relieved of command if any Confederate Artillery Organizations also contains four rare and hard to find lists of Confederate artillery officers Memorandum of Artillery Officers C S A List of Officers Corps of Artillery C S Army on U S

Register of 1861 Superintendents of Armories and Military Store Keeper of Ordnance These lists illustrate the ranking of each officer in his respective grade The extensive bibliography prepared by Mr Sibley is an invaluable guide to Civil War historiography Scholars researchers and students of the Civil War will be thankful Ray Sibley turned his considerable talents to this project His tireless efforts made sure this rare book got back into print including all digital formats and turned what was once a valuable rare work into a reference book that is now both widely available and absolutely indispensable

**The Early Morning of War** Edward G. Longacre, 2014-10-22 When Union and Confederate forces squared off along Bull Run on July 21 1861 the Federals expected this first major military campaign would bring an early end to the Civil War But when Confederate troops launched a strong counterattack both sides realized the war would be longer and costlier than anticipated First Bull Run or First Manassas set the stage for four years of bloody conflict that forever changed the political social and economic fabric of the nation It also introduced the commanders tactics and weaponry that would define the American way of war through the turn of the twentieth century This crucial campaign receives its most complete and comprehensive treatment in Edward G Longacre s *The Early Morning of War* A magisterial work by a veteran historian *The Early Morning of War* blends narrative and analysis to convey the full scope of the campaign of First Bull Run its drama and suspense as well as its practical and tactical underpinnings and ramifications Also woven throughout are biographical sketches detailing the backgrounds and personalities of the leading commanders and other actors in the unfolding conflict Longacre has combed previously unpublished primary sources including correspondence diaries and memoirs of more than four hundred participants and observers from ranking commanders to common soldiers and civilians affected by the fighting In weighing all the evidence Longacre finds correctives to long held theories about campaign strategy and battle tactics and questions sacrosanct beliefs such as whether the Manassas Gap Railroad was essential to the Confederate victory Longacre shears away the myths and persuasively examines the long term repercussions of the Union s defeat at Bull Run while analyzing whether the Confederates really had a chance of ending the war in July 1861 by seizing Washington D C Brilliant moves avoidable blunders accidents historical forces personal foibles all are within Longacre s compass in this deftly written work that is sure to become the standard history of the first critical campaign of the Civil War

*Richard S. Ewell* Donald C. Pfanz, 2000-11-09 General Richard Stoddert Ewell holds a unique place in the history of the Army of Northern Virginia For four months Ewell was Stonewall Jackson s most trusted subordinate when Jackson died Ewell took command of the Second Corps leading it at Gettysburg the Wilderness and Spotsylvania Court House In this biography Donald Pfanz presents the most detailed portrait yet of the man sometimes referred to as Stonewall Jackson s right arm Drawing on a rich array of previously untapped original source materials Pfanz concludes that Ewell was a highly competent general whose successes on the battlefield far outweighed his failures But Pfanz s book is more than a military biography It also examines Ewell s life before and after the Civil War including his years at West Point his service in the Mexican War his experiences as a dragoon

officer in Arizona and New Mexico and his postwar career as a planter in Mississippi and Tennessee In all Pfanz offers an exceptionally detailed portrait of one of the South s most important leaders      **Catalogue** Cadmus Book Shop,1919

**Calamity at Frederick** Alexander B. Rossino,2023-10-31 The loss of Robert E Lee s Special Orders No 191 is one of the Civil War s enduring mysteries In this meticulous study Alexander Rossino presents a bold new interpretation of the evidence surrounding the orders creation distribution and loss outside Frederick Maryland in September 1862 Rossino makes extensive use of primary sources to explore these subjects and other important questions related to the orders including why General Lee thought his army could operate north of the Potomac until winter why Lee found it necessary to seize the Federal garrison at Harpers Ferry what Lee hoped to accomplish after capturing Harpers Ferry where Corporal Barton Mitchell of the 27th Indiana found the Lost Orders and if D H Hill or someone else was to blame for losing the orders The result is a well documented reassessment that sheds new light while challenging long held assumptions Calamity at Frederick is the Confederate companion to The Tale Untwisted by Gene M Thorp and Alexander Rossino which told the story from the Union perspective      **Artillery Hell** Curt Johnson,Richard Claire Anderson,1995 Five essays detail the artillery used by both Union and Confederate forces in the Battle of Antietam near Sharpsburg Maryland in September 1862 The core essay was written in 1940 for the National Park Service but first published here Together they discuss the types and capabilities of the artillery pieces the problems faced by the commanders and what can be conjectured about their placement and engagement Also includes six reports by Union officers just after the battle Annotation copyright by Book News Inc Portland OR      *Richmond Howitzers in the War. Fredericksburg!** George C. Rable,2009-11-15 During the battle of Gettysburg as Union troops along Cemetery Ridge rebuffed Pickett s Charge they were heard to shout Give them Fredericksburg Their cries reverberated from a clash that although fought some six months earlier clearly loomed large in the minds of Civil War soldiers Fought on December 13 1862 the battle of Fredericksburg ended in a stunning defeat for the Union Confederate general Robert E Lee suffered roughly 5 000 casualties but inflicted more than twice that many losses nearly 13 000 on his opponent General Ambrose Burnside As news of the Union loss traveled north it spread a wave of public despair that

extended all the way to President Lincoln In the beleaguered Confederacy the southern victory bolstered flagging hopes as Lee and his men began to take on an aura of invincibility George Rable offers a gripping account of the battle of Fredericksburg and places the campaign within its broader political social and military context Blending battlefield and home front history he not only addresses questions of strategy and tactics but also explores material conditions in camp the rhythms and disruptions of military life and the enduring effects of the carnage on survivors both civilian and military on both sides
