**Riddle of Life** Besant Annie,1901 **Theosophy and the Woman's Movement** Charlotte Despard,1913 The president of London s Women S Freedom League describes the women s movement as part of an overall social movement to affect political economic and social change **The Theosophist** ,1899 **A Psychology with a Soul** Jean Hardy,2016-06-10 A comprehensive approach to self realization psychosynthesis was developed between 1910 and the 1950s by the Italian psychiatrist Roberto Assagioli Assagioli like Jung diverged from Freud in order to develop an understanding of human nature that took account of spiritual dimensions This book originally published in 1987 is an exploration of psychosynthesis and the depth of mystical and scientific ideas behind it It will be of great value to all those interested in personal integration and spiritual growth in general and psychosynthesis in particular Focusing on psychosynthesis as transpersonal psychology Jean Hardy describes how the ideas behind psychosynthesis spring both from scientific study of the unconscious and from the long mystical tradition of both the Eastern and Western world She shows how the roots of a modern spiritual or transpersonal psychology lie in a split tradition within the Western world while psychology aspires to be scientific religion or mystical knowledge is currently studied within the discipline of theology The two have up till now been very little related and the special achievement of psychosynthesis as a therapy is that it relates the soul and theology to the personality and psychology and perceives personal and developmental patterns as a microcosm of larger social and historical patterns **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1911 *The United States Catalog* Mary Burnham,Carol Hurd,1928 *Empire of Religion* David Chidester,2014-03-19 How is knowledge about religion and religions produced and how is that knowledge authenticated and circulated David Chidester seeks to answer these questions in *Empire of Religion* documenting and analyzing the emergence of a science of comparative religion in Great Britain during the second half of the nineteenth century and its complex relations to the colonial situation in southern Africa In the process Chidester provides a counterhistory of the academic study of religion an alternative to standard accounts that have failed to link the field of comparative religion with either the power relations or the historical contingencies of the imperial project In developing a material history of the study of religion Chidester documents the importance of African religion the persistence of the divide between savagery and civilization and the salience of mediations imperial colonial and indigenous in which knowledge about

religions was produced He then identifies the recurrence of these mediations in a number of case studies including Friedrich Max Müller's dependence on colonial experts H Rider Haggard and John Buchan's fictional accounts of African religion and W E B Du Bois's studies of African religion By reclaiming these theorists for this history Chidester shows that race rather than theology was formative in the emerging study of religion in Europe and North America Sure to be controversial *Empire of Religion* is a major contribution to the field of comparative religious studies     *Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries* ,1927     *The Life of Annie Besant* Geoffrey West,1929
