A Companion to Science Fiction David Seed, 2008-06-09 A Companion to Science Fiction assembles essays by an international range of scholars which discuss the contexts themes and methods used by science fiction writers This Companion conveys the scale and variety of science fiction Shows how science fiction has been used as a means of debating cultural issues Essays by an international range of scholars discuss the contexts themes and methods used by science fiction writers Addresses general topics such as the history and origins of the genre its engagement with science and gender and national variations of science fiction around the English speaking world Maps out connections between science fiction television the cinema virtual reality technology and other aspects of the culture Includes a section focusing on major figures such as H G Wells Arthur C Clarke and Ursula Le Guin Offers close readings of particular novels from Mary Shelley s Frankenstein to Margaret Atwood s The Handmaid s Tale

The Nightmare Considered Nancy Anisfield, 1991 These essays assess the nature of nuclear war literature from a variety of perspectives Scholars activists novelists poets and teachers challenge nuclear ideologies and traditional readings of apocalyptic texts Included Holocaust literature of the 1950s Michael Dorris and Louise Erdrich poetry and nuclear war Riddley Walker Fiskadoro haiku and Hiroshima Kopit s End of the World O Brien s The Nuclear Age and Vonnegut s cataclysmic novels

History and the Contemporary Novel David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth s The Sot Weed Factor Marguerite Yourcenar s Memoirs of Hadrian Russell Hoban s Riddley Walker Margaret Atwood s The Handmaid s Tale Giuseppe Tomasi Di Lampedusa s The Leopard D M Thomas s The White Hotel William Faulkner s Go Down Moses and Umberto Eco s The Name of the Rose He proposes recognizing four modes of the historical novel the past as a distant mirror of the present fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics The Distant Mirror The Turning Point The Way It Was and The Way It Will Be This fourfold schema and his focus on postwar novels set Cowart s work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end

The English Novel in History, 1950 to the Present Professor Steven Connor, Steven Connor, 2008-03-07 Steven Connor provides in depth analyses of the novel and its relationship with its own form with

contemporary culture and with history He incorporates an extensive and varied range of writers in his discussions such as George Orwell William Golding Angela Carter Doris Lessing Timothy Mo Hanif Kureishi Marina Warner Maggie Gee Written by a foremost scholar of contemporary culture and theory *The English Novel in History 1950 to the Present* offers not only a survey but also a historical and cultural context to British literature produced in the second half of this century

Merriam-Webster's Encyclopedia of Literature Merriam-Webster, Inc,1995 Describes authors works and literary terms from all eras and all parts of the world *The Rhetoric of Antinuclear Fiction* Patrick Mannix,1992 Given the ever present threat of world wide calamity that nuclear weapons present it is not surprising that they have fascinated fiction writers and filmmakers ever since their development Nor is it surprising that many of these artists would seek to use their work to influence mass opinion about these weapons What may be surprising is that few studies have been made of how antinuclear fiction actually attempts to persuade its audiences *The Rhetoric of Antinuclear Fiction* is an effort to do so Organized around the three traditional modes of rhetorical appeal the ethical the rational and the emotional the book describes and classifies the persuasive strategies of a wide range of antinuclear fiction from the period 1945 to 1989 Works examined include *On the Beach* *Fail Safe* *A Canticle for Leibowitz* *Dr Strangelove* *The Day After* *War Day* *Testament* *Threads* and *Riddley Walker* During the course of these studies Patrick Mannix reveals what sorts of fictional characters have been most widely used to deliver antinuclear messages and he follows the major arguments of the nuclear debate as they have been reflected in fiction He also shows which emotions are invoked most often to secure the audience s opposition to nuclear weapons and how those emotions have been generated by the creators of antinuclear fiction The range of characters that this volume examines includes the pacifistic but loyal Air Force general of *Fail Safe* the pious but shrewd monks of *A Canticle for Leibowitz* the suburban housewife of *Threads* and even the computer of *War games* which teaches humanity the folly of nuclear war We also follow fictional manifestations of the nuclear debate from veiled arguments for world government in *The Day the Earth Stood Still* through warnings of the dangers of Mutual Assured Destruction depicted by *Fail Safe* *Dr Strangelove* and *Wargames* to attacks on the concepts of limited nuclear war and the Strategic Defense Initiative in *War Day* This study also demonstrates the dynamic of fear in works as diverse as *Ape and Essence* *The Day After* and *Them* and dissects the powerful use of scorn in *Dr Strangelove* It also shows us the paradoxical role of hope in securing the effectiveness of antinuclear fiction While maintaining his focus on the persuasive nature of this literature Mannix does consider the aesthetic value of the fiction he studies noting that the relationship between the two elements is complex and often problematical While admitting that the aesthetic elements of some works would limit their audience and therefore reduce the scope of their rhetorical effect he demonstrates how the skillful combination of artistic and rhetorical elements raises a film like *Dr Strangelove* above the similarly themed *Fail Safe* as both a persuasive act and an aesthetic artifact

Schmidt,2014-05-12 With contributions from Great Britain Ireland America Canada Australia India and Southern Africa influenced by great novelists working in other languages and encompassing a range of genres the story of the novel in English unfolds like a richly varied landscape that invites exploration rather than a linear journey **Mutopia** Istvan Csicsery-Ronay Jr,2022-06-15 The Enlightenment's project of establishing scientific proof for the unity of the universe led instead to the fragmentation of knowledge The culture of certainty mutated into a culture of conjecture and speculative supplements as the image of a unified cosmos mutated into a patchwork totality In the process the pursuit of knowledge developed a symbiotic association with science fiction While sf has often provided concrete ideas adopted by the knowledge faculties equally important is the way science fictional counterfactual world building science fiction's fantastic knowledge has intersected with rational speculation in all fields of knowledge As a result the dream of a completed rationally engineered utopia has evolved into the image of mutopia in which the objects of knowledge the process of knowing and the science fictional imagination itself are expected to undergo constant transformation The essays in Mutopia address the science fictional imagination's relevance for scientific modeling critical theory the deconstruction of the future the future of religion the future of nations the imagination of empire the construction of aliens the future of science fiction itself and the transformation of utopia into mutopia Written over many years by a leading scholar of science fiction the essays are revised and expanded for republication in this collection alongside new commentary that places them in an updated context The Contemporary Post-Apocalyptic Novel Diletta De Cristofaro,2019-12-26 Traditional apocalyptic texts concern the advent of a better world at the end of history that will make sense of everything that happened before But what is at stake in the contemporary shift to apocalyptic narratives in which the utopian end of time is removed The Contemporary Post Apocalyptic Novel offers an innovative critical model for our cultural obsession with the end by focussing on the significance of time in the 21st century post apocalyptic novel and challenging traditional apocalyptic logic Once confined to the genre of science fiction the increasing popularity of end of the world narratives has caused apocalyptic writing to feature in the work of some of contemporary literature's most well known fiction writers Considering novels by Will Self Cormac McCarthy David Mitchell Emily St John Mandel Jeanette Winterson and others Diletta De Cristofaro frames the contemporary apocalyptic imagination as a critique of modernity's apocalyptic conception of time and history Interdisciplinary in scope the book historicises apocalyptic beliefs by exploring how relentlessly they have shaped the modern world **New Perspectives on Academic Writing** Bernd Herzogenrath,2022-11-17 Particularly for the disciplines of the humanities and social sciences for which writing is their lifeblood the crisis in academic writing has become existential It is not hard to diagnose the disease and its causes This book showcases what we desperately need radical alternatives experiments we can try out ways of writing that don't just tweak the system but plot a different course altogether This isn't just about finding new genres for these only change the surface appearance without altering the underlying dynamic Rather the editor and contributors focus

on finding new ways to join thinking both with writing and the things of which and with which we write Each chapter brims with the kind of liveliness outspokenness and urgency that their theme demands Far from tiptoeing around the edifice of academia they are intent on stirring things up reigniting their scholarship with a fuse of activism in the hope of setting off an explosion that could send ripples throughout the academy **B-Side Books** John Plotz,2021-06-01 There are the acknowledged classics of world literature the canonical works assigned in schools topping every must read list and then there are the B Sides These are the books that slipped through the cracks went unread missed their rightful appointment with posterity They were ahead of their times or behind their times or on a whole different schedule than the rest of the universe What do you do when a book that you love has been neglected or dismissed by everyone else In B Side Books leading writers critics and scholars show why their favorite forgotten books deserve a new audience From dusty westerns and far out science fiction to obscure Czech novelists and romance novel precursors the contributors advocate for the unsung virtues of overlooked books They write about unheralded novels poetry collections memoirs and more with understanding respect passion and love In these thoughtful often personal essays contributors including Stephanie Burt Caleb Crain Merve Emre Ursula K Le Guin Carlo Rotella and Namwali Serpell read books by writers such as Helen DeWitt Shirley Jackson Stanislaw Lem Dambudzo Marechera Paule Marshall and Charles Portis **Alive and Writing** Larry McCaffery,Sinda Gregory,1987 **The Digital Humanities and Literary Studies** Martin Paul Eve,2022 A short introduction and overview of developing intersections between digital methods and literary studies that offers the best starting place for those who wish to learn more about the possibilities but also the limitations of the digital humanities in the literary space **Configuring Masculinity in Theory and Literary Practice** ,2015-05-26 Configuring Masculinity in Theory and Literary Practice combines a critical survey of the most important concepts in Masculinity Studies with a historical overview of how masculinity has been constructed within British Literature and a special focus on developments in the 20th and 21st centuries **The Nuclear Muse** John Canaday,2000 Canaday a poet and playwright who has been a Watson Fellow and a Starbuck Fellow in Poetry at Boston University analyzes a variety of texts produced by physicists before during and after WWII including Niels Bohr s The Quantum Postulate the technical lectures used for training at Los Alamos scientist s descriptions of their work and of the Trinity test and Leo Szilard s postwar novella The Voice of the Dolphins He looks at physicists use of figurative language in the development of quantum theory and examines the role played by the rhetorics of exploration and religion in the construction of the Los Alamos community Includes bandw historical photos Annotation copyrighted by Book News Inc Portland OR **In a Wayward Mood** Daniel Noel,2004-12 In A Wayward Mood gathers together the most important work of this visionary teacher and cultural observer It is the essential Daniel C Noel For more than forty years Daniel C Noel wrote and taught at the nexus of religion literature and cultural studies working in the tradition of C G Jung Joseph Campbell and James Hillman His books include Seeing Castaneda Approaching Earth A Search

for the Mythic Significance of the Space Age Paths to the Power of Myth and The Soul of Shamanism Noel passed away in August 2002 The Seven Beauties of Science Fiction Istvan Csicsery-Ronay, 2012-10-01 This major critical work from one of the preeminent voices in science fiction scholarship reframes the genre as a way of understanding today's world As the application of technoscience increasingly transforms every aspect of life science fiction has become an essential mode of imagining the horizons of possibility Though the broad scope of science fiction may vary in artistic quality and sophistication it shares a desire to imagine a collective future for the human species and the world A strikingly high proportion of today's films commercial art popular music video games and non genre fiction are what Csicsery Ronay calls science fictional stimulating science fictional habits of mind We no longer treat science fiction as merely a genre engine producing formulaic effects but as a mode of awareness which frames experiences as if they were aspects of science fiction The Seven Beauties of Science Fiction describes science fiction as a constellation of seven diverse cognitive attractions that are particularly formative of science fictionality These are the seven beauties of the title fictive neology fictive novums future history imaginary science the science fictional sublime the science fictional grotesque and the Technologiade or the epic of technoscience's development into a global regime
