Ride Out The Wilderness Geography And Identity In Afro American Literature:

Ride Out the Wilderness Melvin Dixon, 1987 Often considered alienated from mainstream culture and consigned to negative environments Afro American writers have created alternative spatial and geographical metaphors to develop a positive sense of individual and cultural identity Melvin Dixon demonstrates how three principal figures of the land the wilderness the underground and the mountaintop have become places of refuge and cultural revitalization for the performance of identity from early slave songs and fugitive narratives to modern and contemporary fiction Jacket The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset The Geographies of African American Short Fiction explores how editorial practices shaped the canon of African American short fiction **Voice of the Oppressed in the Language of the Oppressor** Patsy J. Daniels, 2013-05-13 This book examines works from twelve authors from colonized cultures who write in English William Butler Yeats James Joyce Joseph Conrad Chinua Achebe Maxine Hong Kingston Amy Tan Toni Morrison Alic Walker Sandra Cisneros Ana Castillo Louise Erdrich and Leslie Marmon Silko The book finds connection among these writers and their respective works Patsy Daniels argues that the thinkers and writers of colonized culture must learn the language of the colonizer and take it back to their own community thus making themselves translators who occupy a manufactured hybrid space between two cultures Teaching African American Literature Maryemma Graham, Sharon Pineault-Burke, Marianna White Davis, 2013-12-16 This book is written by teachers interested in bringing African American literature into the classroom Documented here is the learning process that these educators experienced themselves as they read and discussed the stories pedagogical *Toward Wholeness in Paule Marshall's Fiction* Joyce Owens Pettis, 1995 An examination of Marshall's work and its place in the tradition of African American women's fiction and of black American and Caribbean literature and culture Explores the intersecting patterns of race class and gender oppressions that contribute to

her characters problems and their attempts to transcend this oppression For readers in women s Caribbean and African American literature Annotation copyright by Book News Inc Portland OR **Women's Work** Courtney Thorsson,2013-06-17 In *Women's Work* Courtney Thorsson reconsiders the gender genre and geography of African American nationalism as she explores the aesthetic history of African American writing by women Building on and departing from the Black Arts Movement the literary fiction of such writers as Toni Cade Bambara Paule Marshall Gloria Naylor Ntozake Shange and Toni Morrison employs a cultural nationalism practiced by their characters as women s work that defines a distinct contemporary literary movement demanding attention to the continued relevance of nation in post Black Arts writing Identifying five forms of women s work as organizing dancing mapping cooking and inscribing Thorsson shows how these writers reclaimed and revised cultural nationalism to hail African America The Identifying Fictions of Toni Morrison J. Duvall,2000-12-14 Although all published biographical information on Toni Morrison agrees that her birth name was Chloe Anthony Wofford John Duvall s book challenges this claim Using new biographical information he explores the issue of names and naming in Morrison s fiction and repeatedly finds surprising traces of the Nobel Prize winning author s struggle to construct a useable identity as an African American woman novelist Whatever the exact circumstances surrounding her decision to become Toni one thing becomes clear the question of identity was not a given for Morrison *African American Political Thought* Melvin L. Rogers,Jack Turner,2021-05-07 *African American Political Thought* offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life democracy race violence liberation solidarity and mass political action Melvin L Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries developing their list with an expansive approach to political expression The collected essays consider such figures as Martin Delany Ida B Wells W E B Du Bois James Baldwin Toni Morrison and Audre Lorde whose works are addressed by scholars such as Farah Jasmin Griffin Robert Gooding Williams Michael Dawson Nick Bromell Neil Roberts and Lawrie Balfour While African American political thought is inextricable from the historical movement of American political thought this volume stresses the individuality of Black thinkers the transnational and diasporic consciousness and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life In doing so *African American Political Thought A Collected History* transforms how we understand the past and future of political thinking in the West **Sissy Insurgencies** Marlon B. Ross,2021-12-06 In *Sissy Insurgencies* Marlon B Ross focuses on the figure of the sissy in order to rethink how Americans have imagined articulated and negotiated manhood and boyhood from the 1880s to the present Rather than collapsing sissiness into homosexuality Ross shows how sissiness constitutes a historically fluid range of gender practices that are expressed as a physical manifestation discursive epithet social identity and political phenomenon He

reconsiders several black leaders intellectuals musicians and athletes within the context of sissiness from Booker T Washington George Washington Carver and James Baldwin to Little Richard Amiri Baraka and Wilt Chamberlain Whether examining Washington s practice of cleaning as an iteration of sissiness Baldwin s self fashioned sissy deportment or sissophobia in professional sports and black nationalism Ross demonstrates that sissiness can be embraced and exploited to conform to American gender norms or disrupt racialized patriarchy In this way sissiness constitutes a central element in modern understandings of race and gender

James Baldwin's Later Fiction Lynn O. Scott,2002-02-28 James Baldwin s Later Fiction examines the decline of Baldwin s reputation after the middle 1960s his tepid reception in mainstream and academic venues and the ways in which critics have often mis represented and undervalued his work Scott develops readings of Tell Me How Long the Train s Been Gone If Beale Street Could Talk and Just Above My Head that explore the interconnected themes in Baldwin s work the role of the family in sustaining the arts the price of success in American society and the struggle of black artists to change the ways that race sex and masculinity are represented in American culture Scott argues that Baldwin s later writing crosses the cultural divide between the 1950s and 1960s in response to the civil rights and black power movements Baldwin s earlier works his political activism and sexual politics and traditions of African American autobiography and fiction all play prominent roles in Scott s analysis

The Environmental Imagination Lawrence Buell,1996-09-01 With Thoreau s Walden as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

Environmental Evasion Lloyd Willis,2012-01-02 How do we reconcile the abstract reverence for the natural world central to American literary history beginning with Ralph Waldo Emerson s Nature with over a century and a half of widespread environmental destruction Environmental Evasion examines the environmental implications of literary and cultural productions by writers from James Femimore Cooper and Henry Wadsworth Longfellow to Willa Cather John Steinbeck Ernest Hemingway and Zora Neale Hurston Lloyd Willis provocatively argues that the environmentalist outlooks by Cooper and Longfellow were eclipsed by Ralph Waldo Emerson s abstract imperialist vision of nature He demonstrates how many 20th century American writers have taken the Emersonian approach participating in a silent but extremely powerful form of evasive environmental politics in the ways in which they write about the natural world Attentive to the inherent political dimensions of all texts Environmental Evasion insists on the relevance of environmental history and politics to New Americanist approaches to the literary canon

Griffin concludes with Toni Morrison embracing the South as a site of African American history and culture a place to be redeemed
