Robinson Crusoe Early Best Sellers:

Yesterday's Bestsellers Brian M. Stableford, 1998-01-01 A study of the popular fiction of the past Prodigals and Pilgrims Jay Fliegelman, 1982 The author traces a constellation of intimately related ideas about the nature of parental authority and filial rights of moral obligation of Scripture of the growth of the mind and the nature of historical progress from their most important English and continental expressions in a variety of literary and theological texts to their transmission reception and application in Revolutionary America and in the early national period of American culture *Must Read: Rediscovering American Bestsellers* Sarah Churchwell, Thomas Ruys Smith, 2012-08-02 What is it about certain books that makes them bestsellers Why do some of these books remain popular for centuries and others fade gently into obscurity And why is it that when scholars do turn their attention to bestsellers they seem only to be interested in the same handful of blockbusters when so many books that were once immensely popular remain under examined Addressing those and other equally pressing questions about popular literature Must Read is the first scholarly collection to offer both a survey of the evolution of American bestsellers as well as critical readings of some of the key texts that have shaped the American imagination since the nation's founding Focusing on a mix of enduring and forgotten bestsellers the essays in this collection consider 18th and 19th century works like Charlotte Temple or Ben Hur that were once considered epochal but are now virtually ignored 20th century favorites such as The Sheik and Peyton Place and 21st century blockbusters including the novels of Nicholas Sparks The Kite Runner and The Da Vinci Code *Edinburgh Companion to the Bible and the Arts* Stephen Prickett, 2019-08-07 Examines the changing relationship between the Bible and the arts showing how the arts portray biblical stories in various ways and through various media and how the Bible is actually multiple entities fiercely contested translations in many languages Generously illustrated with examples including painting architecture and stained glass **Caliban's Shore** Stephen Taylor, 2004 Recounts the 1782 shipwreck of one of the East India Company's most prestigious ships describing how ninety one crew members and thirty four wealthy passengers found themselves stranded on the unexplored coast of southeast Africa *A Mirror for History* Marc Egnal, 2024-04-19 In A Mirror for History author Marc Egnal uses novels and art to provide a new understanding of American society The book argues that the arc of middle class culture reflects the evolution of the American economy from the near subsistence agriculture of the 1750s to the extraordinarily unequal society of the twenty first century Fiction offers a rich source for this analysis By delving deep into the souls of characters and their complex worlds novels shed light on the dreams hopes and goals of individuals and reveal the structures that shape character's lives Additionally paintings of the time periods expand upon these insights drawn from literature Egnal's lively exploration of the changing economy fiction art and American values is organized into four expansive periods the Sentimental Era Genteel America Modern Society and Post Modern America Within that framework A Mirror for History looks at topics such as masculinity childhood the status of women the outlook of African Americans the role of

religion and varying views of capitalism Readers will be enthralled to find discussions of overlooked novels and paintings as well as discover new approaches to familiar pieces *A Mirror for History* examines over one hundred authors and dozens of artists and their works presented here in full color **German History, 1770-1866** James J. Sheehan, 1989 Now available in paperback this is a uniquely authoritative study of Germany from the mid eighteenth century to the formation of the

Bismarckian Reich James J Sheehan gives an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable He shows how German history in this period was shaped by three separable yet closely linked developments the rise of sovereign territorial states the expansion of economic activity and social mobility and the emergence of a literary culture **Colonial and Global**

Interfacings Gary Backhaus, 2009-03-26 How space is owned through practices of domination that emerged through colonialism and have been sustained through capitalist social relations in a post colonial context How Imperial power created in Foucault s words a boomerang effect whereby the techniques developed to control and subjugate colonial subjects worked with such efficiency that they were imported back into Western societies to create new orders of control How while new social movements such as the Zapatistas have remapped the rural and developed new ways to challenge and transform politics Western societies have sought to reconstruct the world order through economic processes and military strategy How the self image of the West is shaped by its relationship with the Rest but also how the rest has found new ways of constructing identity that are now transforming the West as people images commodities and meanings flow through the global economy The cases considered cover every continent contrast the West with the East as well as the global North with the global South and prompt us to take history seriously in the construction of the present Addressing the current buzzwords that have spread from geography across the social sciences and the humanities this book will appeal to researchers and practitioners fascinated by the connections between cultural representation power spatiality and how the ways we have been thinking about the world are open to question **Five Hundred Years of Printing** S. H. Steinberg, 2017-05-17 Scholarly and highly readable survey traces the industry from its 15th century beginnings through the technical advances of the 20th century Explores associations between printing and education language and literature *Ordinary Lives in the Early Caribbean* Kristen Block, 2012 Kristen Block examines the entangled histories of Spain and England in the Caribbean during the long seventeenth century focusing on colonialism s two main goals the search for profit and the call to Christian dominance Using the stories of ordinary people Block illustrates how engaging with the powerful rhetoric and rituals of Christianity was central to survival Isobel Criolla was a runaway slave in Cartagena who successfully lobbied the Spanish governor not to return her to an abusive mistress Nicolas Burundel was a French Calvinist who served as henchman to the Spanish governor of Jamaica before his arrest by the Inquisition for heresy Henry Whistler was an English sailor sent to the Caribbean under Oliver Cromwell s plan for holy war against Catholic Spain Yaff and Nell were slaves who served a Quaker

plantation owner Lewis Morris in Barbados Seen from their on the ground perspective the development of modern capitalism race and Christianity emerges as a story of negotiation contingency humanity and the quest for community Ordinary Lives in the Early Caribbean works in both a comparative and an integrative Atlantic world frame drawing on archival sources from Spain England Barbados Colombia and the United States It pushes the boundaries of how historians read silences in the archive asking difficult questions about how self censorship anxiety and shame have shaped the historical record The book also encourages readers to expand their concept of religious history beyond a focus on theology ideals and pious exemplars to examine the communal efforts of pirates smugglers slaves and adventurers who together shaped the Caribbean s emerging moral economy
