An instant success in its own time Daniel Defoe's *The Adventures of Robinson Crusoe* has for three centuries drawn readers to its archetypal hero the man surviving alone on an island This Companion begins by studying the eighteenth century literary historical and cultural contexts of Defoe's novel exploring the reasons for its immense popularity in Britain and in its colonies in America and in the wider European world Chapters from leading scholars discuss the social economic and political dimensions of Crusoe's island story before examining the after life of Robinson Crusoe from the book's multitudinous translations to its cultural migrations and transformations into other media such as film and television By considering Defoe's seminal work from a variety of critical perspectives this book provides a full understanding of the perennial fascination with and the enduring legacy of both the book and its iconic hero

Friedrich Hölderlin and the German Neohellenic Movement Marshall Montgomery, 1923 Twentieth-century Reworkings of German Literature Gundula Sharman, 2002 A study of six modern reworkings of classic works of German literature A literary reworking is a fictional work based on an earlier usually canonical literary work Gundula M Sharman considers six twentieth century examples of this phenomenon in German literature including Peter Schneider s Lenz as a reworking of Georg Büchner s novella of the same title Ulrich Plenzdorf s Die neuen Leiden des jungen Werther as a reworking of Goethe s Werther Wolfgang Koeppen s Der Tod in Rom based on Thomas Mann s Der Tod in Venedig and three other pairs of reworkings original works from the genres of drama the novella and the novel The indebtedness of such reworkings to the original works is openly acknowledged often in the title and this invites the reader to draw comparisons and to note contrasts between reworking and original The twentieth century author s interpretation and the reader s reception of the older work merge to form a subtext of the reworking giving rise to a third narrative in the reader s imagination The better the reader knows the literary model the more multifaceted the reworking appears The purpose of each reworking is unique One may demonstrate how much the world has changed since the publication of the original while another argues that society has not changed at all One may be conceived as an anti work to the original while another serves to endorse its message Common to all reworkings however is a gain in historical depth and in each case themes and issues arise from the relationship of reworking to original that are not immediately apparent when the reworking is considered on its own Gundula M Sharman teaches in the German Department at the University of Aberdeen Scotland
