Phillip Vannini,Jonathan Taggart

Rock Solid Living In A Run Amok World:

Rock-Solid Living in a Run-Amok World E. Lonnie Melashenko, David B. Smith, 1999 **The Music of the Spheres in the Western Imagination** David J. Kendall, 2022-10-31 The Music of the Spheres in the Western Imagination describes various systematic musical ecologies of the cosmos by examining attempts over time to define Western theoretical musical systems whether practical human nonhuman or celestial This book focuses on the theoretical theological philosophical physical and mathematical concepts of a cosmic musical order and how these concepts have changed in order to fit different worldviews through the imaginations of theologians theorists and authors of fiction as well as the practical performance of music Special attention is given to music theory treatises between the ninth and sixteenth centuries English language hymnody from the eighteenth century to the present polemical works on music and worship from the last hundred years the Divine Comedy of Dante nineteenth and twentieth century English language fiction the fictional works of C S Lewis and the legendarium of J R R Tolkien The A to Z of the Seventh-Day Adventists Gary Land, 2009-07-29 Covering the Millerite movement of the 1830s and 1840s sabbatarian Adventism prior to organization of the denomination and the Seventh day Adventist Church since its organization in 1861 63 this volume provides a comprehensive history of the denomination The first major element of the book is a chronology of Adventist history that begins with William Miller s conclusion in 1818 that the Second Advent of Jesus would occur about 1843 and extends through the Science and Theology Conferences of 2002 04 The interpretive introduction that follows places the emergence of Adventism within the context of the Second Great Awakening describes the development of sabbatarian Adventism from its early opposition to church organization to its highly institutionalized and bureaucratically structured contemporary form and examines the denomination s geographical expansion from a small North American sect to a global church The dictionary entries that constitute the bulk of the volume address individuals organizations institutions and doctrines that have been important in the history of the church including dissident movements and individuals who have emerged as critics of the denomination and its beliefs Second there are entries on the development and current situation of Adventism in many individual countries Finally thematic entries on such subjects as art music literature health care and women address other elements important to understanding church life The dictionary entries are followed by a bibliography of scholarly and popular works published by the denomination commercial and academic presses and individuals and organizations *Historical Dictionary of the Seventh-Day Adventists* Gary Land, 2014-10-23 Seventh day Adventism was born as a radical millenarian sect in nineteenth century America It has since spread across the world achieving far more success in Latin America Africa and Asia than in its native land In what seems a paradox Adventist expectation of Christ s imminent return has led the denomination to develop extensive educational publishing and health systems Increasingly established within a variety of societies Adventism over time has modified its views on many issues and accommodated itself to the delay of the Second Advent In the process it has become a multicultural

religion that nonetheless reflects the dominant influence of its American origins This second edition of Historical Dictionary of the Seventh Day Adventists covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on key people cinema politics and government sports and critics of Ellen White This book is an excellent access point for students researchers and anyone wanting to know more about Seventh day Adventism **Rock Solid Faith** Rosekidz, Mary J. Davis, 2009-11 Take kids to a deeper understanding of the Christian life *Time of Terror, Time of Healing* David B. Smith, 2002 *American Book Publishing Record*, 2001 *Off the Grid* Phillip Vannini, Jonathan Taggart, 2014-10-30 Off grid isn't a state of mind It isn't about someone being out of touch about a place that is hard to get to or about a weekend spent offline Off grid is the property of a building generally a home but sometimes even a whole town that is disconnected from the electricity and the natural gas grid To live off grid therefore means having to radically re-invent domestic life as we know it and this is what this book is about individuals and families who have chosen to live in that dramatically innovative but also quite old way of life This ethnography explores the day to day lives of people in each of Canada's provinces and territories living off the grid Vannini and Taggart demonstrate how a variety of people all with different environmental constraints live away from contemporary civilization The authors also raise important questions about our social future and whether off grid living creates an environmentally and culturally sustainable lifestyle practice These homes are experimental labs for our collective future an intimate look into unusual contemporary domestic lives and a call to the rest of us leading ordinary lives to examine what we take for granted This book is ideal for courses on the environment and sustainability as well as introduction to sociology and introduction to cultural anthropology courses *OS X Yosemite All-in-One For Dummies* Mark L. Chambers, 2014-10-28 Get the most out of the latest version of OS X This reference combines eight content rich minibooks in one complete package to give you all access easy to understand coverage of the key features and tools needed to get the most out of the latest OS X release from Apple In OS X Yosemite All in One For Dummies you'll learn the ins and outs of OS X basics navigating and running programs searching with Spotlight having fun with Photo Booth keeping in touch with Contacts using Reminders writing in Notes setting up the Notification Center customizing the OS X desktop jamming with iTunes organizing and tweaking photos with iPhoto making movie magic with iMovie turning your Mac into a DVD theater publishing documents with Pages chatting with Messages and FaceTime letting your imagination run wild with iBooks expanding your horizons with iCloud and so much more Combining the power and stability of UNIX with Apple's legendary elegance and style OS X is the default operating system installed on every desktop and laptop computer sold by Apple In OS X Yosemite All in One For Dummies you'll get the best of the best content from indispensable For Dummies books Introducing OS X Customizing and Sharing The Digital hub Using iWork The Typical Internet Stuff Networking in OS X Expanding Your System and Advanced OS X Goes well beyond the basics of how to use OS X Covers the key features and tools essential for all users of OS X Shows
