Rodin On Art:

Rodin's Art the late Albert E. Elsen, Rosalyn Frankel Jamison, 2003-03-13 The late Albert Elsen was the first American scholar to study seriously the work of the French sculptor Auguste Rodin and the person most responsible for a revival of interest in the artist as a modern innovator after years during which the sculpture had been dismissed as so much Victorian bathos After a fortuitous meeting with the financier philanthropist and art collector B Gerald Cantor Elsen helped Cantor to build up a major collection of Rodin's work A large part of this collection consisting of more than 200 pieces was donated to the Stanford Museum by Mr Cantor who died recently In size it is surpassed only by the Musée Rodin in Paris and rivaled only by the collection in Philadelphia In scope the collection is unique in having been carefully selected to present a balanced view of Rodin's work throughout his life Rodin's Art encompasses a lifetime's thoughts on Rodin's career surveying the artist's accomplishments through the detailed discussion of each object in the collection It will begin with essays on the formation of the collection the reception of Rodin's work and his casting techniques The entries that follow are arranged topically and include extensive discussions of Rodin's major projects
