edited volume explores the main expressions of primitivism in Iberian and Transatlantic modernisms Ten case studies are
thoroughly analyzed concerning both the circulations and exchanges connecting the Iberian and Latin American artistic and
literary milieus with each other and with the Parisian circles Chapters also examine the patterns and paradoxes associated
with the manifestations of primitivism including their local implications and cosmopolitan drive This book opens up and
deepens the discussion of the ties that Spain and Portugal maintained with their imperial pasts which extended into
European twentieth century colonialism as well as the nationalist and folk aesthetics promoted by the cultural industry of
Iberian dictatorships The book significantly rethinks long established ideas about modern art and the production of
