Roissy Express A Journey Through The Paris Suburbs:

Roissy Express François Maspero, 1994 Accompanied by photographer Anaik Frantz François Maspero embarked on a journey along the RER the express subway which leads through the Paris suburbs Getting off the train at each stop he and Frantz present a picture of daily life in France which tourists seldom see a world where names don't make sense where immigrants from Burkino Faso live in run down tower blocks called Debussy on the avenue Karl Marx their children dodging the police between the lycée Jules Valles and the Yuri Gagarin youth club a world where there are still memories of the Commune the Popular Front or the camp at Drancy from where French officials sent a hundred thousand Jews to Auschwitz a world where no one is a racist but National Front posters are everywhere Maspero's aim is to put this world back on the map

Natura Urbana Matthew Gandy, 2022-03-08 A study of urban nature that draws together different strands of urban ecology as well as insights derived from feminist posthuman and postcolonial thought Postindustrial transitions and changing cultures of nature have produced an unprecedented degree of fascination with urban biodiversity The other nature that flourishes in marginal urban spaces at one remove from the controlled contours of metropolitan nature is not the poor relation of rural flora and fauna Indeed these islands of biodiversity underline the porosity of the distinction between urban and rural In *Natura Urbana* Matthew Gandy explores urban nature as a multilayered material and symbolic entity through the lens of urban ecology and the parallel study of diverse cultures of nature at a global scale Gandy examines the articulation of alternative and in some cases counterhegemonic sources of knowledge about urban nature produced by artists writers scientists as well as curious citizens including voices seldom heard in environmental discourse The book is driven by Gandy's fascination with spontaneous forms of urban nature ranging from postindustrial wastelands brimming with life to the return of such predators as wolves and leopards on the urban fringe Gandy develops a critical synthesis between different strands of urban ecology and considers whether urban political ecology broadly defined might be imaginatively extended to take fuller account of both the historiography of the ecological sciences and recent insights derived from feminist posthuman and postcolonial thought
