Role Of Foreign Direct Investment In East Asian Economic Development:

The Role of Foreign Direct Investment in East Asian Economic Development Takatoshi Ito, Anne O. Krueger, 2007-12-01
The international flow of long term private capital has increased dramatically in the 1990s In fact many policymakers now consider private foreign capital to be an essential resource for the acceleration of economic growth This volume focuses attention on the microeconomic determinants and effects of foreign direct investment FDI in the East Asian region allowing researchers to explore the overall structure of FDI to offer case studies of individual countries and to consider their insights both general and particular within the context of current economic theory *Multinationals and Economic Growth in East Asia* Shujiro Urata, Chia Siow Yue, Fukunari Kimura, 2006-11-22 Developing countries in East Asia recorded remarkable economic growth until the Asian financial crisis erupted in mid 1997 Although several countries experienced devastating setbacks most of them recovered to achieve reasonable rates of economic growth over the next few years Sound macroeconomic management export oriented policies and the availability of skilled and low wage labour are among the factors that contributed to the rapid economic growth before the crisis and the recovery thereafter Especially noteworthy in this regard is the role played by foreign direct investment FDI This comprehensive book identifies the factors that contributed to the expansion of FDI inflows in East Asia and the factors that enabled recipient countries to utilize FDI effectively It includes detailed case studies on China South Korea Taiwan Indonesia Malaysia the Philippines Singapore Thailand and Vietnam Also included is a comparative study of investing firms headquartered in the United States Japan and Hong Kong The authors conclude that social stability clear and effective policy implementation and corporate governance are all key factors in reaping economic success from FDI **The Dynamics of Asian Economic Development** Hitoshi Hirakawa, Ferdinand C. Maquito, 2024-12-10 One feature of this book is the clarification of the development mechanism of Asia as a regional economy for over half a century based on an Asian Economy Within the Global Economy approach that goes beyond the single country analytical framework The development of emerging economies has caught the world's attention from the Newly Industrializing Countries or Newly Industrializing Economies of the 1980s to the BRICs entering this century General economics cannot clarify the internal mechanism of the changing of newly industrialized economies led by Asia This book clarifies such regional development structure by focusing on the direct investments of multinational firms and the importance of gradual changes of specific policies adopted by newly industrialized economies Moreover the book concretely deals with the US China trade war and China's Belt and Road Initiative BRI as a problem of Asian economies In so doing the book not only perceives the structural change of the global economy as a structural change from a US centric global economy of the twentieth century to a China centric one but also focuses on the birthing of a new growth frontier in the world economy under a crisis brought about by a war for hegemony between the US and China The investment initiative through China's BRI has prompted the investment competition between Japan and the US which has made even stronger the

possibility of giving birth to a new economic frontier in Afro Eurasia Another feature is the consideration of various issues that confront Asian countries in their search for economic development using the Philippines as a case study The analysis of the study points to the importance of a shared growth perspective which is based on an Asian development model and discusses the challenge of overcoming the issues of the economic development model within the region At the same time this book studies the significance and new issues as a region of the economy and overseas policies of attention drawer China

Foreign Direct Investment and Poverty Reduction Michael U. Klein, Carl Aaron, Bita Hadjimichael, 2001 In the 1990s foreign direct investment began to swamp all other cross border capital flows into developing countries Does foreign direct investment support sound development In particular does it contribute to poverty reduction *Trade, Investment and Economic Development in Asia* Debashis Chakraborty, Jaydeep Mukherjee, 2016-05-26 In an era of globalization trade in goods and cross border services and capital flows play a key role in determining the economic growth path of countries Over the last two decades countries have embarked on several alternate tracks to liberalize and deepen their linkage with the world economy The growing trade investment nexus and the emerging developments lead to deeper international production networks rise in cross border trade in services and in regional trade agreements and so on The debate of whether it is possible to empirically validate the potential benefits of this deepening trade investment linkage is ongoing The evidence in literature is however ambiguous This book contributes to the literature by looking at Asian economies and at the EU Maghreb countries and Pacific Island economics It examines the issues under four broad areas namely 1 trade theoretical and policy issues 2 factor flows impact on trade and welfare 3 impact of trade and factor flows on environment and 4 institutions international trade and policy issues **Exchange Rates and Foreign Direct Investment in Emerging Asia** Ramkishan Rajan, 2013-03-01 With the rapid growth of China and India and the resurgence of Southeast Asia post 1997 8 emerging Asia has once again become one of the most dynamic regions in the world This dynamism has in turn been fuelled largely by a carefully calibrated embracement of economic openness to international trade investments and capital flows While much has been written about international trade there has been somewhat less work on the issue of capital flows macroeconomic management and foreign direct investment FDI to and from the region a gap that this book attempts to fill The book is divided into two parts The first part deals with selected issues pertaining to macroeconomic management in small and open economies with particular focus on exchange rates The second part of the book deals with the trends and determinants of FDI in emerging Asia its importance as a source of finance its impact on growth and development and the nexus between FDI and foreign portfolio flows FPI Overall the chapters in this book tackle important policy issues of contemporary relevance but are informed by analytical frameworks data and empirics While each of the topic areas chosen in individual chapters is intentionally narrow the book as a whole covers a number of areas and countries regions within Asia i e East Southeast and South Asia While the chapters have been written in a manner that can stand up to academic scrutiny they

are also meant to be accessible to policy makers researchers and others who might be interested in FDI and related issues in Asia

Rethinking the East Asian Miracle Joseph E. Stiglitz, Shahid Yusuf, 2001-06-01 This volume provides highly illuminating analytic perspectives on key facets of the East Asian economies It discusses weaknesses in the financial sector corporate governance exchange rate and trade policies regulatory capability and proposes remedies Rethinking the East Asian Miracle is an indispensable book for all those with an interest in East Asia's prospects in the early decades of the new century

Lessons from East Asia Danny M. Leipziger, 2001-01-09 Case studies success stories and cross country essays on public policy in East Asian economies

OECD Global Forum on International Investment New Horizons for Foreign Direct Investment OECD, 2002-03-05 The OECD Global Forum on International Investment at its inaugural meeting in Mexico City in November 2001 provided a unique platform for participants originating from OECD and non OECD economies to address the challenges posed by FDI These conference papers add to the existing literature on FDI

International Trade in East Asia Takatoshi Ito, Andrew K. Rose, 2007-11-01 The practice of trading across international borders has undergone a series of changes with great consequences for the world trading community the result of new trade agreements a number of financial crises the emergence of the World Trade Organization and countless other less obvious developments In International Trade in East Asia a group of esteemed contributors provides a summary of empirical factors of international trade specifically as they pertain to East Asian countries such as China Japan Korea and Taiwan Comprised of twelve fascinating studies International Trade in East Asia highlights many of the trading practices between countries within the region as well as outside of it The contributors bring into focus some of the region's endemic and external barriers to international trade and discuss strategies for improving productivity and fostering trade relationships Studies on some of the factors that drive exports the influence of research and development the effects of foreign investment and the ramifications of different types of protectionism will particularly resonate with the financial and economic communities who are trying to keep pace with this dramatically altered landscape
