Luftwaffe Seaplanes 1939-1945 An Illustrated History

Anthony G. Williams, Emmanuel Gustin

Luftwaffe Seaplanes 1939-1945 An Illustrated History:

Luftwaffe Seaplanes, 1939-1945 Chris Goss, Bernd Rauchbach, 2002 *Luftwaffe Seaplanes, 1939-1945* Chris Goss, Bernd Rauchbach, 2002 *Luftwaffe Seaplanes* presents a fascinating pictorial account of the Luftwaffe's sea and floatplanes between 1939 and 1945 and in the years immediately preceding the war. The volume combines nearly 250 previously unpublished captioned photographs virtually all from private sources and includes among others the Arado 196 Blohm und Voss 222 and Heinkel 115. Published in popular large format paperback *Luftwaffe Seaplanes 1939-1945* is an illuminating photographic record of those often forgotten German aircraft.

Liberty's War Herman E. Melton, 2017-08-15 In the dark days of World War II merchant mariners made heroic contributions to the eventual Allied victory and suffered tremendous casualties in so doing. Among these were the engineers who toiled deep in the bowels of the ship and suffered appalling casualties. After the war engineering personnel were unlikely to talk about their experiences let alone write them down. These modest and self-effacing men were more comfortable in a world of turbines and pistons so they seldom brought their stories forward. *Liberty's War* sets out to explore the experiences of one such engineer Herman Melton from his time as a cadet at the U.S. Merchant Marine Academy through his experiences at sea as a third assistant engineer. Melton's story is representative of the thousands of Merchant Marine engineers who served on board Liberty ships during the war. Like many young Americans he sought to do his part and in 1942 he obtained an appointment to the newly created U.S. Merchant Marine Academy at Kings Point, New York. After graduating from the academy in 1944 he shipped out to the Pacific Theatre surviving the sinking of his Liberty ship the SS *Antoine Saugrain* and its top secret cargo.

The Battleship Scharnhorst Stefan Draminski, 2021-01-21 The Kriegsmarine's *Scharnhorst* was a German capital ship described either as a battleship or battlecruiser and the lead ship of her class which included one other ship *Gneisenau*. She was launched on 3 October 1936 and completed in January 1939 armed with nine 28cm C/34 guns in three triple turrets. She operated with *Gneisenau* for much of the early portion of World War II including sorties into the Atlantic to raid British merchant shipping. They took part in Operation Weserübung April-June 1940 the German invasion of Norway during which they sank the aircraft carrier HMS *Glorious* and her escort destroyers *Acasta* and *Ardent*. *Scharnhorst* also sank HMS *Rawalpindi* in November 1939. In early 1943 *Scharnhorst* joined the Tirpitz in Norway to intercept Allied convoys to the Soviet Union. On a sortie from Norway to attack a convoy the German force was intercepted by British ships and during the Battle of the North Cape 26 December 1943 HMS *Duke of York* and her escorts sank *Scharnhorst*. Most of her crew was lost. This is the most comprehensive examination of *Scharnhorst* ever published drawing on new research and technology to tell the full story of the ship. It includes a complete set of detailed line drawings with fully descriptive keys and full colour 3D artwork supported by technical details, photographs and text on the building of the ship as well as a record of her service history.

of the use of the parachute in warfare That is why Nikolaos Theotokis's study is so valuable He traces in vivid detail the development of parachuting over the last hundred years and describes how it became a standard tactic in twentieth century conflicts As well as depicting a series of historic parachute operations all over the world he recognizes the role of airmen in the story for they were the first to use the parachute in warfare when they jumped from crippled aeroplanes in combat conditions Adapting the parachute for military purposes occurred with extraordinary speed during the First World War and by the time of the Second World War it had become an established technique for special operations and offensive actions on a large scale The range of parachute drops and parachute led attacks was remarkable and all the most dramatic examples from the world wars and lesser conflicts are recounted in this graphic and detailed study The role played by parachute troops as elite infantry is also a vital part of the narrative as is the way in which techniques of air assault have evolved since the 1970s
