Logging and Lumbermen's Songs of the United States and Canada Liz Knapp, 1979 *The Forgotten Songs of the Newfoundland Outports* Anna Kearney Guigné, 2016-12-12 In 1951 musician Kenneth Peacock 1922 2000 secured a contract from the National Museum of Canada today the Canadian Museum of History to collect folksongs in Newfoundland As the province had recently joined Confederation the project was deemed a goodwill gesture while at the same time adding to the Museum's meager Anglophone archival collections Between 1951 and 1961 over the course of six field visits Peacock collected 766 songs and melodies from 118 singers in 38 communities later publishing two thirds of this material in a three volume collection Songs of the Newfoundland Outports 1965 As the publication consists of over 1000 pages Outports is considered to be a bible for Newfoundland singers and a valuable resource for researchers However Peacock's treatment of the material by way of tune text collations use of lines and stanzas from unpublished songs has always been somewhat controversial Additionally comparison of the field collection with Outports indicates that although Peacock acquired a range of material his personal preferences frequently guided his publishing agenda To ensure that the songs closely correspond to what the singers presented to Peacock the collection has been prepared by drawing on Peacock's original music and textual notes and his original field recordings The collection is far ranging and eclectic in that it includes British and American broadsides musical hall and vaudeville material alongside country and western songs and local compositions It also highlights the influence of popular media on the Newfoundland song tradition and contextualizes a number of locally

composed songs In this sense it provides a key link between what Peacock actually recorded and the material he eventually published As several of the songs have not previously appeared in the standard Newfoundland collections The Forgotten Songs sheds new light on the extent of Peacock s collecting The collection includes 125 songs arranged under 113 titles along with extensive notes on the songs and brief biographies of the 58 singers Thanks to the Research Centre for the Study of Music Media and Place a video of the launch event held in St John s Newfoundland is available at <https://www.youtube.com/watch?v=ghj6E6QiLI&t=21s> Published in English

Recentring Anglo/American Folksong Roger deVeer Renwick, 2010-01-06 A wealth of texts of British and Anglo North American folksong has long been accessible in both published and archival sources For two centuries these texts have energized scholarship Yet in the past three decades this material has languished as literary theory has held sway over textual study In this crusading book Roger deV Renwick argues that the business of folksong scholars is to explain folksong folklorists must liberate the material s own voice rather than impose theories that are personally compelling or appealing To that end Renwick presents a case study in each of five essays to demonstrate the scholarly value of approaching this material through close readings and comparative analysis In the first on British traditional ballads in the West Indies he shows how even the best of folklorists can produce an unconvincing study when theory is overvalued and texts are slighted In the second he navigates the many manifestations of a single Anglo American ballad The Rambling Boy to reveal striking differences between a British diasporic strain on the one hand and a southern American post Civil War strain on the other The third essay treats the poetics of a very old extremely widespread but never before formalized trans Atlantic genre the catalogue Next is Renwick s claim that recentring folksong studies in our rich textual databanks requires that canonical items be identified accurately He argues that Oh Willie a song thought to be a simple variety of Butcher s Boy is in fact a distinct composition In the final essay Renwick looks at the widespread popularity of The Crabfish sung today throughout the English speaking world but with roots in a naughty tale found in both continental Europe and Asia With such

specific case studies as these Renwick justifies his argument that the basic tenets of folklore textual scholarship continue to yield new insights

study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition
