Do Something Else Nathaniel D. Phillips, 2016-02-05 *Do Something Else* is meant to encourage faith communities and their leaders to reconsider church as usual reengage Spirit led entrepreneurialism and reimagine new models of ministry bubbling up in their midst Many churches and leaders are already setting the pace They are establishing new gatherings in old buildings and using new building to do old things They are emphasizing diversity welcome and friendship If these stories are hidden from view they shouldn't be These pages will uncover how new expressions get started how they are led how they struggle and how they are sustained *Do Something Else* will encourage candidates for ministry who see limited options ministers who wonder about staying in ministry clergy call seekers trying to find hope in a desolate career landscape and churches attempting to manage staffs with limited resources It will also offer permission to small churches resigned to be without a pastor larger churches looking to do a new thing in an unorthodox way and middle governing bodies who need promising examples of working models in order to take the risk on new opportunities

stereotypes are outdated especially for those company towns that flourished well into the twentieth century This new edition updates the status of the surviving towns and how they have changed in the fifteen years since the original edition and what new life has been created on the sites of the ones that were razed In the preface Linda Carlson reflects on how wonderful it has been to meet people who lived in these towns or had parents who did and to hear about their memorable experiences

Ostman,Harry Littell,2016-09-07 In *Wood Hicks and Bark Peelers* Ronald E Ostman and Harry Littell draw on the stunning documentary photography of William T Clarke to tell the story of Pennsylvania s lumber heyday a time when loggers serving the needs of a rapidly growing and globalizing country forever altered the dense forests of the state s northern tier Discovered in a shed in upstate New York and a barn in Pennsylvania after decades of obscurity Clarke s photographs offer an unprecedented view of the logging lumbering and wood industries during the late nineteenth and early twentieth centuries They show the great forests in the process of coming down and the trains that hauled away the felled trees and trimmed logs And they show the workers cruisers jobbers skidders teamsters carpenters swampers wood hicks and bark peelers their camps and workplaces their families their communities The work was demanding and dangerous the work sites and housing were unsanitary and unsavory The changes the newly industrialized logging business wrought were immensely important to the nation s growth at the same time that they were fantastically and tragically transformative of the landscape An extraordinary look at a little known photographer s work and the people and industry he documented this book reveals in sharp detail the history of the third phase of lumber in America
