Luna Myth Mystery:

Luna Kathleen Cain,1991 **Lunar myth and worship through the ages** Helena Petrovna Blavatsky,2017-08-16 The Sun is the giver of life to the whole planetary system The Moon is the giver of life to our globe The Hindus proudly call themselves descendants of Solar and Lunar dynasties The Christians pretend to regard such beliefs as idolatry yet they adhere to a religion entirely based upon solar and lunar worship Mystery 1 The lowest key to the androgynous Moon is anthropomorphic and phallic The highest key is purely theogonic and divine The Jewish god with which the Christians have burdened themselves is no higher than the lunar symbol of Nature s reproductive or generative faculty The entire Pantheon of lunar gods and goddesses consists of sons and husbands of their mothers and is identical with the Christian Trinity Mystery 2 The riddle of the Two Ones unriddled The One Divine Essence ever unmanifested perpetually begets a second One manifested and androgynous in its nature The latter brings forth immaculately everything macro and micro cosmical in the universe But human procreation in the infernal regions of matter is far from divine it is a deadly sin Deus Lunus a male lunar deity became overtly androgyne in the Lemurian Race of our Round when sexes separated Later on its dual hermaphrodite power was exploited by Atlantean sorcerers Still in the present Aryan Race the same lunar solar worship continues dividing nations into two distinct and essentially antagonistic factions and cults Pagan and Papal cosmogonies are diametrically opposed The one is an ever youthful Mother Nature antitype of Sun and Moon creating immaculately the ideal universe the other by concocting an infernal Virgin Mary who brings forth a son of the earth earthy degrades everything divine and sacred to the lowest anthropomorphic goddess of the rabble The virgin goddess of the Latin Church is a faithful copy of the old pagan goddesses albeit counterfeit the twelve apostles stand for the twelve tribes the latter being personifications of the twelve great gods and the twelve signs of the Zodiac The liberal adoption by the Latin Church of such symbols as water fire sun moon and stars and a good many other things is a continuation of the old worship of Pagan nations under different names The belief that Fire finds refuge in Water was not limited to the old Scandinavians It was shared by all nations before taken up by the early Christians who symbolized the Holy Ghost under the shape of Fire the breath of the Father Sun descending into the Water or Sea Mother Mare Mary etc Lunar Mysteries Felicia Dunbar,AI,2025-02-26 Lunar Mysteries explores the profound impact of the Moon on human culture religion and artistic expression throughout history The book uncovers how ancient civilizations perceived the Moon not just as a celestial body but as a potent symbol of cyclical change renewal and even a divine entity From influencing early agricultural practices and timekeeping to shaping religious rituals and mythological narratives the Moon s presence is deeply interwoven with humanity s understanding of existence Did you know that lunar calendars dictated the timing of sacred sites and festivals in numerous cultures The book journeys through the scientific properties of the Moon and their early observations before delving into specific themes It examines lunar deities in ancient mythologies explores the Moon s influence on religious rituals and festivals and analyzes lunar imagery and
