Gaddis, 2019-11-12 There s a problem with school lunch in

America Big Food companies have largely replaced the nation's school cooks by supplying cafeterias with cheap precooked hamburger patties and chicken nuggets chock full of industrial fillers Yet it's no secret that meals cooked from scratch with nutritious locally sourced ingredients are better for children workers and the environment So why not empower lunch ladies to do more than just unbox and reheat factory made food And why not organize together to make healthy ethically sourced free school lunches a reality for all children The Labor of Lunch aims to spark a progressive movement that will transform food in American schools and with it the lives of thousands of low paid cafeteria workers and the millions of children they feed By providing a feminist history of the US National School Lunch Program Jennifer E Gaddis recasts the humble school lunch as an important and often overlooked form of public care Through vivid narration and moral heft The Labor of Lunch offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a healthier more equitable caring and sustainable future

**Lunch Wars** Amy Kalafa, 2011-08-18 There's a battle going on in school lunchrooms around the country and it's a battle our children can't afford for us to lose The average kid will eat 4 000 school lunches between kindergarten and twelfth grade But what exactly are kids eating in school lunchrooms around the country Many parents don't quite know what their children are eating or where it came from As award winning filmmaker and nutritionist Amy Kalafa discovered in researching her documentary film Two Angry Moms Fighting for the Health of America's Children these days it's pretty rare to find a piece of fresh fruit in your average school lunchroom amid all the chips french fries Pop Tarts chicken nuggets and soda that's being served But what if anything can parents do about it Written in response to the onslaught of requests she received from parents who saw her film and asked If I want to attempt to change the food culture in my kid's school how on earth should I get started this empowering book arms parents with the specific information and tools they need to get unhealthy even dangerous food out of their children's school cafeteria and to hold their schools and local and national governments accountable for ensuring that their growing children are served healthy meals at school In Lunch Wars Kalafa explains all the complicated issues surrounding school food how to work with your school's Wellness Policy the basics of self operated vs outsourced cafeterias how to get funding for a school garden and much more Lunch Wars also features the inspiring stories of parents around the country who have fought for better school food and have won as well as details Amy's quest to spark a revolution in her own school district For the future health and well being of our children the time has come for a school food revolution

reveals how these brief daily interactions serve as a vital laboratory for developing negotiation skills and social awareness. The historical context beginning with the 1946 National School Lunch Act provides essential background for understanding how institutional policies influence these dynamics. Moving from methodology to practical applications, the text progresses through detailed analyses of table group dynamics and food negotiations, ultimately offering valuable insights for educators and parents. What sets this work apart is its unique intersection of child psychology, nutrition science, and educational theory presented in accessible language while maintaining academic rigor. The research's practical implications, including recommendations for cafeteria layout and supervision strategies, make it an invaluable resource for education professionals and parents alike who seek to understand and support children's social development during these crucial daily interactions.

Fast-Food Kids Amy L. Best, 2017-02-28 2018 Morris Rosenberg Award DC Sociological Society. In recent years, questions such as what are kids eating and who's feeding our kids have sparked a torrent of public and policy debates as we increasingly focus our attention on the issue of childhood obesity. The Centers for Disease Control and Prevention estimates that while 1 in 3 American children are either overweight or obese, that number is higher for children living in concentrated poverty. Enduring inequalities in communities, schools, and homes affect young people's access to different types of food with real consequences in life choices and health outcomes. Fast Food Kids sheds light on the social contexts in which kids eat and the broader backdrop of social change in American life, demonstrating why attention to food's social meaning is important to effective public health policy, particularly actions that focus on behavioral change and school food reforms. Through in-depth interviews and observation with high school and college students, Amy L. Best provides rich narratives of the everyday life of youth, highlighting young people's voices and perspectives and the places where they eat. The book provides a thorough account of the role that food plays in the lives of today's youth, teasing out the many contradictions of food as a cultural object: fast food portrayed as a necessity for the poor and yet reviled by upper middle class parents; fast food restaurants as one of the few spaces that kids can claim and effectively take over for several hours each day; food corporations spending millions each year to market their food to kids and to lobby Congress against regulations; schools struggling to deliver healthy food; young people will actually eat; and the difficulty of arranging family dinners, which are known to promote family cohesion and stability. A conceptually driven ethnographic account of youth and the places where they eat, Fast Food Kids examines the complex relationship between youth identity and food consumption, offering answers to those straightforward questions that require crucial and comprehensive solutions.
