Lunda Under Belgian Rule The Politics Of Ethnicity:

Lunda Under Belgian Rule Edouard Bustin,1975 **The Lunda-Ndembu** James Anthony Pritchett,2001 Pritchett anthropology African studies Boston U presents an account of the Lunda Ndembu people of northwestern Zambia The text is based upon archaeological data travel accounts colonial field reports and the scholarly studies of others as well as his own field research conducted intermittently over the course of 14 years He contends that despite much cultural borrowing in recent decades the Lunda people have an image of themselves that is essentially unchanged He also reflects on continuity and change in Africa c Book News Inc **The Rulers of Belgian Africa, 1884-1914** Lewis H. Gann,2015-03-08 In this comprehensive picture of Belgian colonialism in the Congo Lewis Gann and Peter Duignan trace the formation of the colonial state that became Zaire considering it in the light of colonial experience in other African territories Whereas most studies have focused on the conquest and subjugation of the African population this study probes the colonial apparatus itself investigating the attitudes and behavior of the civil servants and soldiers who built the empire Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Tears Of Rain - Ethnicity & Hist** Wim van Binsbergen,2016-05-06 First published in 1992 This is a book about ethnicity among the Nkoya people in central western Zambia and about the historical background out of which that ethnicity is made It studies in detail the fascinating ways in which ethnicity both creates and feeds upon ethno history At the same time it assesses the possibility of reconstructing objective historical processes in that region since the sixteenth century on the basis primarily of one very extensive source Rev Johasaphat Malasha Shimunika s Likota lya Bankoya whose production as a compilation and processing of local oral traditions is intimately related to contemporary ethnicity But most of all this is a book about that fundamental and humble condition of scholarship reading

Subnationalism in Africa Joshua Forrest,2004 This examination of the politics of ethnicity and nation building in Africa stresses the trend towards subnationalist autonomy and away from a singular state centric system based on the Western model Forrest ranges across the continent to explore a variety of subnational movements **Rethinking African Politics** Miles Larmer,2016-04-08 In 1964 Kenneth Kaunda and his United National Independence Party UNIP government established the nation of Zambia in the former British colony of Northern Rhodesia In parallel with many other newly independent countries in Africa this process of decolonisation created a wave of optimism regarding humanity s capacity to overcome oppression and poverty Yet as this study shows in Zambia as in many other countries the legacy of colonialism created obstacles that proved difficult to overcome Within a short space of time democratisation and development was

replaced by economic stagnation political authoritarianism corruption and ethnic and political conflict To better understand this process Dr Larmer explores UNIP s political ideology and the strategies it employed to retain a grip on government He shows that despite the party s claim that it adhered to an authentically African model of consensual and communitarian decision making it was never a truly nationally representative body Whereas in long established Western societies unevenness in support was accepted as a legitimate basis for party political difference in Zambia this was regarded as a threat to the fragile bindings of the young nation state and as such had to be denied and repressed This led to the declaration of a one party state presented as the logical expression of UNIP supremacy but it was in fact a reflection of its weakening grip on power Through case studies of opposition political and social movements rooted in these differences the book demonstrates that UNIP s control of the new nation state was partial uneven and consistently prone to challenge Alongside this the study also re examines Zambia s role in the regional liberation struggles providing valuable new evidence of the country s complex relations with Apartheid era South Africa and the relationship between internal and external opposition shaped by the context of regional liberation movements and the Cold War Drawing on extensive archival research and interviews Dr Larmer offers a ground breaking analysis of post colonial political history which helps explain the challenges facing contemporary African polities

The Politics of District Elections and Administration in Hong Kong Sonny Shiu-Hing LO, Steven Chung-Fun HUNG, Jeff Hai-Chi LOO, Cody Wai-Kwok YAU, 2023-04-06 The introduction of elections to district advisory bodies during the early 1980s was expected to improve the public delivery of services However as time passed electoral politics led to party politics elite fragmentation and political struggles Politicization and hyper politicization in the Hong Kong Special Administrative Region has brought about a fluctuating pattern between administrative recentralization the Tsang administration s attempts at decentralization and the post 2019 administrative recentralization The purpose of this book is to study the intertwining relationship between district administration and electoral politics It also examines the political transformation of District Councils after the promulgation of the National Security Law in late June 2020 Written by experts in the field this book is a good reference source for readers interested in district elections politics and administration in Hong Kong

Politics and Religion in the Portuguese Colonial Empire in Africa (1890-1930) Hugo Goncalves Dore, 2020-12-01 The Portuguese authorities balanced missionary and political dynamics as they sought to strengthen their claims over African territories in an imperial and colonial world that was becoming increasingly internationalized This book sets out to investigate how missionary authorities reacted to national challenges from the monarchical and republican regimes and rising competition within the Catholic world as well as the Protestant threat at the international level To what degree were religious and missionary projects a political instrument Was this situation similar in other colonial empires The 1890 British Ultimatum was part of a process of conflicting religious competition in Africa among Catholics and between Catholics and Protestants in parallel with inter imperial disputes The Portuguese authorities saw missionary presence as a

potentially useful political weapon but it cut two ways in favour of or against its colonial rule Foreigner missionaries in what was considered the Portuguese empire were viewed as threats since they could act as political bridgeheads for other imperial powers or could influence the native populations against Portuguese colonial presence Anglo Portuguese competition in Africa the native uprisings against Portuguese rule the attempts to negotiate a concordat with the Holy See the Portuguese First Republic and the aftermath of the First World War had powerful effects on the direction of Portuguese statehood and were reflected in substantive internal debate and political disagreement The overview of missionary experience in the Portuguese empire provided in this book is a major contribution to the international historiography of missions and empires

Latham, 1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin's Press Annotation copyright Book News Inc Portland Or *Ethnographers Before Malinowski* Frederico Delgado Rosa, Han F. Vermeulen, 2022-06-10 Focusing on some of the most important ethnographers in early anthropology this volume explores twelve defining works in the foundational period from 1870 to 1922 It challenges the assumption that intensive fieldwork and

monographs based on it emerged only in the twentieth century What has been regarded as the age of armchair anthropologists was in reality an era of active ethnographic fieldworkers including women practitioners and Indigenous experts Their accounts have multiple layers of meaning style and content that deserve fresh reading This reference work is a vital source for rewriting the history of anthropology Zaire Winsome J Leslie,2019-09-18 This book describes the historical setting of Zaire and focuses on economic and political developments during the Mobutu era It examines the corrupt and closed political system with its roots in the colonial state and precolonial political patterns *Almanac of African Peoples and Nations* Mohamad Yakan,2017-11-30 The peoples of Africa are neither ethnically culturally nor religiously homogeneous European colonial powers took little note of this reality in carving up the continent a fact reflected in the periodic outbreak of civil war since decolonialization Likewise Western European models of development whether in their liberal or Marxist manifestations have so far failed to meet African development needs The path to stability in Africa is through its people s character and goals *Almanac of African Peoples and Nations* provides an essential guide to the major ethnic groups of the African continent highlighting the major contributions and basic features of each The Almanac reviews Africa s language families and their respective national and geographic concentrations explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to Africa The major African peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations The Almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to Yakan notes that African societies are not highly integrated and must support multitudes of influential sub cultures with conflicting agendas and loyalties Arguing that tribalism reflects Africa s historical experience and cultural heritage he sees the resolution of the continent s problems in consociational democracy proportional representation federalism or some form of autonomous rule *African Kingdoms* Saheed Aderinto,2017-08-24 This history rich volume details the sociopolitical economic and artistic aspects of African kingdoms from the earliest times to the second half of the 19th century Africa has a long and fascinating history and is a place of growing importance in the world history curriculum This detailed encyclopedia covers the history of African kingdoms from antiquity through the mid 19th century tracing the dynasties ties to modern globalization and influences on world culture before during and after the demise of the slave trade Along with an exploration of African heritage this reference is rich with firsthand accounts of Africa through the oral traditions of its people and the written journals of European explorers missionaries and travelers who visited Africa from the 15th century and onward Alphabetically arranged entries cover a particular kingdom and feature information on the economic cultural religious political social and environmental history of the regime The content references popular culture

The Cambridge History of Africa J. D. Fage, Roland Anthony Oliver, G. N. Sanderson, 1975 Volume VI covers the period 1870 1905 when the European powers divided the continent into colonial territories The African Colonial State in Comparative Perspective Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent **A Violent History** Giacomo Macola, 2025-09-03 Since the early nineteenth century political and military violence has played an exceptionally significant role in the territory corresponding to the present day Democratic Republic of Congo By emphasising the periodic re occurrence of warlordism and the economy of plunder that characterises it Giacomo Macola offers new analytical tools to interpret the history of the societies of the Congo Basin over the past two hundred years In the concluding chapters the author dwells on more recent events detailing the collapse of Mobutu s Zaire the Great African War and the reasons for the continuing armed instability in the east of the country Supplementing analyses of the contemporary dimension of African conflicts Macola makes a case for the enduring importance of studying precolonial history **The Objects of Life in Central Africa** , 2013-09-15 In The Objects of Life in Central Africa the history of consumption and social change from 1840 until 1980 is explored By taking consumption as a

vantage point the contributions deviate from and add to previous works which have mainly analysed issues of production from an economic and political perspective The chapters are broad ranging in temporal and geographical focus including contributions on Congo Zambia Zimbabwe and Angola Topics range from the social history of firearms to the perception of the railway and include contributions on sewing machines traders and advertising By looking at the socio economic political and cultural meaning and impact of goods the history of Central Africa is reassessed **The Crisis in Zaire** Georges Nzongola-Ntalaja, 1986
